Name	Position	School	District

**Additional Qualifications:**

Please develop a brief statement establishing your qualifications on the following criteria:

**Evidence of Excellence in Teaching**

**Evidence of Leadership Skill**

**Evidence of Financial Need**

College Board makes available a EFC Calculator that will help you determine the amount that you could reasonably contribute to your education. You can find this form at [http://apps.collegeboard.com/fincalc/efc\\_welcome.jsp](http://apps.collegeboard.com/fincalc/efc_welcome.jsp). As you complete the form, you will be asked to provide information on your financial status (financially dependent or independent), family, and finances (use *institutional methodology*). The form is relatively simple, and when you have gathered the basic financial information, you should be able to complete it in 5-10 minutes. When you have entered all of this information, the calculator provides an estimate of how much you can contribute to your

education. Complete the form, making copies of each completed page, and include a copy of the entire form with your application.
