

# Community and Global Outreach Month

## Building Community Citizens

Student Leadership and Activities presents Community and Global Outreach Month during the Month of November. Many members of the Hofstra Community plan and participate in programs that reach out to others in service. Student Leadership and Activities hosts an annual Community and Global Outreach Fair that connects the campus community to non-profit organizations for volunteer opportunities. Hofstra University provides learning experiences outside academia with local and national organizations by teaching students the meaning of humanity by developing opportunities for students to grow through service.
