**Monday 2/13, “Minority Report”**

Is the future determined? Is *your* future determined such that you don't have free will, don't really choose? If you don't have free will, are you morally responsible? Should you be punished *before* committing a crime if it could be known what the future is?

**Monday 3/12, “Maxed Out”**

**Monday 4/23 “Gasland”**

What is the future of the American landscape? How should we think about meeting our energy needs, preserving our natural resources (water, land for agriculture) and natural beauty?
