State and Zip _____ Home Telephone _____

Statement of Interest: Please explain your thoughts about the role of the Technology Education teacher in enhancing mathematical understanding. Include prior work done in this regard. Also discuss the extent to which your current practices are similar to the curriculum we are asking you to field test. (Add additional sheets as needed.)

I will be able to bring a computer with Google Sketchup installed and I will become reasonably familiar with that program prior to the workshop. Yes ___ No ___

I have access to a fully equipped technology education laboratory. Yes ___ No ___

I understand that I must attend the entirety of a three-hour workshop during the 2009 ITEA Louisville, KY Conference on March 26, 2009. I understand that I must field test a five-week unit (virtual design and follow up physical modeling) with at least one eighth grade class during the spring, 2009 semester and provide evaluation data as requested by Project external evaluators in consonance with school district policies. Compensation is a \$2000 stipend and paid ITEA conference registration.

Signed _____ (teacher) Date _____

Signed _____ (Principal's approval) Date _____

Please be good enough to download this form and mail it and the required statement of interest to Lois Miceli, MSTP Project Hofstra University Administrative Assistant, 773 Fulton Avenue, Hempstead, NY 11549-7730. You may also fax or email your reply: Phone: 516-463-6482. Fax: 516-463-4430. Email (Lois.m.miceli@hofstra.edu). **Please reply prior to February 2, 2009.**
