## Standardized Testing Policy

We understand that SAT and ACT scores are not always a reflection of student ability, so we are not requiring standardized test scores for students applying to Hofstra for full-time undergraduate admission. This provides you with the ability to decide for yourself how to best present your academic strengths and abilities to the Admission Committee, and allows you to decide whether or not the standardized test results accurately reflect your academic ability and potential. The mid-range of admitted students submitting SAT scores is 1130 to 1320 (evidence-based reading and writing + math), with an average ACT equivalent of 23 to 28. If you choose to submit scores from the SAT or the ACT, official test scores must be sent directly from the testing service. Once the application form has been submitted, that choice cannot be changed or rescinded. Visit [hofstra.edu/testingpolicy](http://hofstra.edu/testingpolicy) for more information.
