

# HOFSTRA UNIVERSITY™

**The IDEAS\* Institute of Hofstra University's School of Education and Allied Human Services Offers:**

## **Big Ideas in Physical Science: A Science Content Workshop for Elementary School Teachers**

**Saturday, October 27, 2007**

Do you dream of having the know-how for stirring the interest of your students in science? What about becoming the architect who designs a special area of your classroom devoted to the development of critical thinking skills in both your students and yourself? If this seems like a daunting task, or you feel that your background in science is not as strong as you would like it to be, we have the workshop for you. This workshop will help you develop scientific thinking skills and gain confidence in your ability to do science with children. You will get ideas for creating a science learning center in your classroom, and enhance your capacity to foster critical thinking skills in your students.

**8:30 a.m.-5 p.m., Hagedorn Hall, South Campus**

**This workshop is appropriate for teachers, grades K-6.**

**See Registration form on reverse side for fee information.**

### **About the Presenter:**

Linda Frank has been an adjunct professor at Hofstra for the past 10 years teaching such diverse subjects as biotechnology and the bioethical debate, an introduction to forensic science, and science methods and supervision. She has also done extensive consulting work with Long Island school districts and BOCES in the areas of science teaching and the science standards. Previously Linda taught in the Seaford Public Schools where she capped her career as the science department chairperson. She has a passion for science education.

**Call 516 463-5792 for further information.**
