

## Interlibrary Loan Improvements

April 16, 2009

Dear Subscriber,

The Interlibrary Loan Dept. has begun implementing new upgrades to improve service and to integrate these services within library databases. The first upgrade is a direct link from within the EbscoHost family of databases to the ILLiad form which already contains citation information from the database search. User information is also there after the usual login.

Over the summer, these direct links within other databases will be added in those that support this feature. There will also be an upgrade to the underlying software which will improve efficiency and provide several other new features. More about those after implementation.

Sincerely,

Prof. William T. Caniano, Business Librarian  
Hofstra University Library
