

## Oxford Journals Enhance Library's Full Text Holdings

April 23, 2009

Dear Subscriber,

The Library's journal collection was enhanced this past January with the addition of 174 electronic full-text journals from Oxford University Press. These journals supplemented our 38 existing subscriptions to OUP journals. Oxford journals are known for their quality. The Biomedical journals in the collection have the second highest impact factor among journals from other major publishers. Journals in the social sciences have the fourth highest.

Journal coverage extends back to 1996. The journals are fully incorporated into the search results in the library's databases or a free account on the Oxford search platform will enable email alerts and a full range of personalization features.

You can access Oxford Journals Online via the "Research Databases" link on the library homepage at <http://www.hofstra.edu/library>.

Sincerely,

Howard E. Graves, Senior Assistant Dean  
Hofstra University Library
