

Butler Hall

N. Y. March 7, 1932

My dear Florence,

We have thought about the Lloyd family even more than usual since the dreadful tragedy of the Lindbergh baby kidnapping, thankful that our precious little Billie Lloyd is safe - And we do hope Bill has been successful in getting a position of some kind, even temporary -

You will be sorry to hear of our new trouble - About two weeks ago Leslie was taken ill

with jaundice, had his doctor
at once, but the trouble grew
worse and finally the doctor said
Leslie must go to the hospital
for X-rays and tests and a
possible operation - gall-bladder -
the same that cost our dear
Ethel's life.

He is in St. Luke's, very ill -
The tests are being made, and some
drastic treatment tried - (Even the
orderly tells me he is sorry for Leslie.)
But it will take several days,
they say, to decide if the operation
is necessary -

I need not tell you that I am

more than anxious, and that for
his sake I try to be cheerful and
hopeful when I am with him -

I will let you hear later -

all my love -

Helene Ingram
