

Blue Leadership Program

Overview:

The Blue Leadership Series is the first in a dual program that allows students to participate in seven interactive workshops (roughly every other week) that help emerging leaders develop their leadership skills. The program targets first and second year students who have started to get involved on campus and are looking to take the next step. The Program is held every spring semester, and includes such topics as Time Management, Ethics and Leadership, Managing Crisis, Business Leadership, and Values Exploration.

Once participants graduate from the Blue Series they are eligible to participate in the Gold Leadership Series (targeting upperclassmen and/or Blue Graduates) which begins every fall semester and runs the entire length of the academic year.
