

Setup Instructions for Connecting to the HUSEC wireless network at Hofstra University for Windows 7

<p>Step 1: Open the <i>Control Panel</i> and click the <i>Network and Internet</i> link. Then click on the <i>Connect to a network</i> link under the <i>Network and Sharing Center</i> heading.</p>	
<p>Step 2: When the list of available networks is visible, click on <i>HU PREFERRED</i> and then click <i>Connect</i>. We suggest you leave the <i>Connect automatically</i> check box checked.</p>	
<p>Step 3: When prompted, enter your Hofstra Network ID and Password into the appropriate boxes and click <i>OK</i>.</p>	
<p>Step 4: If you get the window shown, click <i>Connect</i>. This is normal and you should not get this when attempting to connect in the future.</p>	

You should now be connected to the HU PREFERRED wireless network.
