

# Instructions on how to remove HU Guest at Hofstra University for Mobile Devices

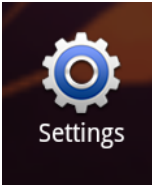

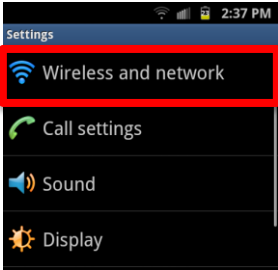

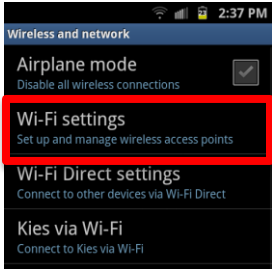

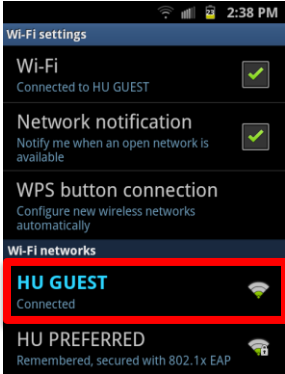

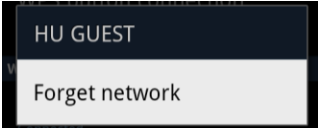

iOS:

<p><b>Step 1:</b> Tap on <i>Settings</i></p>	 The image shows the Settings application icon on an iOS device, which is a grey gear with a white gear inside, set against a dark background.
<p><b>Step 2:</b> Tap on <i>Wi-Fi</i></p>	 The image shows the Settings app on an iPad, with the Wi-Fi section selected. The Wi-Fi toggle is turned on, and the network 'HU PREFERRED' is selected.
<p><b>Step 3:</b> Tap on the arrow next to <i>HU Guest</i></p>	 The image shows the 'Wi-Fi Networks' screen in the Settings app. The 'HU GUEST' network is selected, and a red box highlights the blue arrow icon to the right of the network name.
<p><b>Step 4:</b> Tap <i>Forget This Network</i></p>	 The image shows the 'HU GUEST' network settings screen. A red box highlights the 'Forget this Network' button at the top of the screen.
