

The 5-day **Advanced Executive Protection program** is an integrated academic and practical training curriculum in executive protection, dignitary protection, personal protection, celebrity protection and advanced security tactics.

The objective of the Advanced Executive Protection course is to prepare the National Protection Training Center (NPTC) Hofstra graduate for a career in executive, corporate, celebrity and dignitary protection. Other career alternatives include asset protection, surveillance operations, advanced security assignments, chauffeur, courier services, hotel and casino security, escort services and residential protection services. Our graduates will receive a certificate and course transcript from Hofstra University Continuing Education department. This Advanced Executive Protection program offers students over 50 hours of industry-leading protection training.
