

Parent: Mrs. Madeline Maisano

When my son Charlie Maisano began taking classes here at Hofstra when he was an 8th grader, he was very shy and reserved. Today he is set to graduate high school and he is a changed person.

His love for sports has only grown and the program has helped him instrumentally.

All the programs are incredible and with the hard work of the many who are involved in the program I am certain it will only get better in the future.
