In the words of junior Christine Hickey, “Being a student-athlete at Hofstra has been both a challenging and rewarding experience.” Field Hockey goalie and speech-language-hearing sciences major, Ms. Hickey is pursuing a career as a speech pathologist.

Ms. Hickey was named the 2001 Second Team All-American for the Mideast Region by the National Field Hockey Coaches Association. Through her determination and impressive 400th career save, the team finished the 2001 season with a 12-8 record.

An Academic East Honor Roll member, Ms. Hickey is also an active volunteer for Monmouth Medical Center in her hometown of Tinton Falls, New Jersey. She consistently incorporates hard work and tremendous dedication on the field and in the classroom. She is truly a well-rounded student-athlete.

Christine Hickey is one of more than 8,000 full-time undergraduate students at Hofstra who take full advantage of all the University has to offer, including approximately 100 different undergraduate majors in the liberal arts and sciences, business, education and communication. There are seven theaters, several art galleries, an FCC-licensed FM radio station, an on-campus television station, 13 campus restaurants, an Olympic-sized swimming pool, a recreation center and a computer network with terminals throughout the campus. The 240-acre, park-like campus is a registered member of the American Association of Botanical Gardens and Arboreta.

In addition, the University holds many prestigious national accreditations, including the Educational Standards Board of the American Speech-Language-Hearing Association (ASHA), and has a chapter of the national honor society Phi Beta Kappa.
