## PROJECTS

---

- Actively manage personal trading account with gains in excess of 150% for 2009. Interpret fundamental and technical indicators to engage in both long and short term trades.
  - Developed and tested a proprietary trading model using statistical analysis as well as other quantitative methods and money management techniques to trade value opportunities between various leveraged ETF's and their underlying asset class (index, commodity spot price, exchange rate). Model has generated back tested results of more than 35% annually.
  - Created business plan for the formation of a private equity group implementing the above proprietary model in various assets covered by ETF's.
  - Perform due diligence and financial evaluation of various foreclosed and distressed properties in Nassau and Suffolk Counties for potential purchase and development.
- 

## EXPERIENCE

---

**Harding Weaton.,** Stony Brook, N.Y.

Acquisitions and Securities Analyst (2008-Present)

- Design transaction structure and exit strategy for the purchase of a unique Real Estate investment.
- Mitigated various issues regarding valuation and negotiated agreeable terms for purchase.
- Generated financial models, comparable comparisons and forecasts for profitability and valuation purposes.
- Actively involved in risk management and due diligence investigations for a series of foreign investors. Experience with private equity due diligence as well as other alternative asset due diligence techniques.
- Consulted with corporate clients regarding Securities Exchange Commission investigation and relevant financial issues.
- Developed pro-forma estimates and corporate structure for a foreign "green energy" investment, directly resulting in the securing of a \$300MM line of credit .
- Designed project funding schedule to minimize interest expense while providing ample construction capitalization.

**Darwin Rosingdale Affiliates,** Great Neck, N.Y.

Valuation and Franchise Development Intern (Summer 2007)

- Formulated analysis for use in business valuation and strategy.
- Experience in high level sales and marketing
- Responsible for implementation of a prospect management system for a nationwide sales campaign.
- Thrived in high paced office environment with a vast array of clients.
