A workstation must have Java 1.6.0_07 up through 1.6.0_17 to run eTime. To determine if the version of the JRE installed on your computer is at a high enough version for eTime, please do the following:

1. Go to Start, Settings, Control Panel

			-	0.,		
	i	Programs	Þ			
onal	Ì	Documents	۲			
essid	<u>-</u>	Settings	Þ	🚱 Control Panel		
Profe	P	Search	۲	Network Connections Printers and Faxes		
ХP	?	Help and Support		📜 Taskbar and Start Men		
adows		Run				
Wir	0	Shut Down				
🛃 start 🔰 🔅 🗞 🧷 😂 🕼 📾 🔄 🗐 😂 🔗						

2. Double-click the JAVA coffee cup (JAVA control Panel) and you will be brought to the general tab

- 3. Click ABOUT
 - a. If the version displayed is Version 6 Update 7 or higher (as displayed below), you do not need to do anything else
 - b. If the version displayed is lower than Version 6 update 7, follow steps 4-8

	About Java	<u>×</u>
	Java [™] Platform, Standard Edition 6	Java [®]
<	Version 6 Update 7 (build 1.6.0_07-b06) Copyright 2008 Sun Microsystems, fire, All rights reserved. Use is subject to license terms.	
	applications, visit <u>http://www.java.com</u>	

4. Maximize the NAL (Novell-delivered applications) from your desktop

5. Select All on the left and Scroll on the right until you see JRE 1_6_17

- 6. Double click JRE 1_6_17. This will begin the installation of JRE Version 6 Update 17. The installation will occur automatically without any intervention. You will not receive notification that the installation has completed, please wait a few minutes before verification.
- 7. Verify the new version was installed. It should be displayed as Version 6 Update 17
 - Go to Start, Settings, Control Panel (see step 1)
 - Double-click the JAVA coffee cup (see step 2)
 - Click About (see step 3)

- 8. The last step is to disable the Auto Update from the Java Control Panel
 - Go to Start, Settings, Control Panel (see step 1)
 - Double-click the JAVA coffee cup (see step 2)
 - Select the Update tab
 - UNCHECK the "Check for Updates Automatically" box shown below

You will receive a warning - select "NEVER CHECK "

🅌 Java Control Pa	nel 📃 🗖 🔀					
General Update Java Security Advanced						
Update Notification The Java Update mechanism ensures you have the most updated						
version of the Java platform. The options below let you control how updates are obtained and applied.
