- v. Future events will include care packages, domestic violence workshops, speaker events, and self-care events with the Muslim Student Association.

  - 1. Chair Anniballi: We have been doing it on an email basis and will set up a time with them to supplement it

- ii. Senator Egolf: If there was a problem with the budget that was submitted, but they did not come, what would happen?

    - a. Comptroller Fountain objects
      - i. Formal debate:
        - 1. For: Chair Jackson: This does set a clear set of rules and it is important to say that this is at the discretion of the appropriations chair. You do have the ability to reschedule and make sure that you are doing the proper thing for your club.
          - a. Senator Egolf: This ensures that there are multiple opportunities for them to get their budget and it would lead it at the discretion of the chair.
        - 2. Against: Comptroller Fountain: I want to say that I do enjoy the treasure trainings, the only thing that I have an issue with is 1. I would like to change the wording a bit as right now it seems like every treasurer has to come but some have treasurer that are veterans. I also am considering tabling this as we might be joining this with the idea of changing recognition. I don't think it is necessary if it is a veteran treasurer or someone whose budget is perfect.
        - 3. For: Chair Giovangelo: This codifies everything we have been doing previously. Allows the appropriations chair to state that

it is in the policy series. Also it makes it easy to remind treasurers about what are the proper ways to make a budget.

- a. Chair Anniballi: I wanted to be careful with this language and I wanted it to be more so that treasurer training is going to happen semesterly, but I also want to confirm that this is just a base level power for the appropriations chair.

4. Chair Jackson: Is this a normal majority vote?

- a. VP Singh: Yes this is

5. Chair Staderker moves to pass S.A 006

- a. Motion seconded
- b. Motion Passe 10-1-2

d. Public Safety Visits Senate!

i. Gerri Hart and Giovanni Ortiz are here to speak with us!

1. We are going to be introducing HOFSTRA SAFE. This is an app that is going to be an essential tool to enhance safety and campus experience

a. We have safe walk at public safety when you can walk but the app will serve as a mobile blue light

b. We also have some general things on there that include events, LIRR, shuttle bus, communication and more

2. We have been doing Heart to Heart meetings, we are planning volleyball games, we are doing a lot to engage and do more outreach in the Hofstra community, we are doing breast cancer awareness

a. 400 followers on social media!

i. Chair Anniballi: I have noticed that a lot of the blue lights are off and seem very distantly separated

1. Some of the lights are different colors, they have been checked over the summer to make sure they are working

ii. Chair Jackson: Is the painting ongoing?

1. It is ongoing

iii. Chair Pandit: I was wondering if the app is able to connect to the students device, such as in an instance of lockdown?

1. There are apps for both major phones and the notifications will be pushed in the app and through a text message
- iv. Senator Perez: How many PSAFE officers do we have?
  1. We have about 60 at the current time and we go through a process of starting as part-time and then if it is a good fit, we move them to a full-time position
- v. Senator Egolf: What buildings are the student safety officers stationed at and what is their role?
  1. They are called Student Safety officers, they help with Safe walk, shuttle dispatch, events at fall fest and HOFUSA. They have gone through a lot of change within their positions. They go on patrols around the library, Student center, and the residence halls.
- vi. Senator Siegel: What is the “HICK”?
  1. It is the PSAFE hub/office
- vii. Chair Atlas: I have class in CV Starr and there was an officer directing traffic once and then another time not. Is there going to become a thing that keeps going?
  1. I'm not sure what was going on at that time- There was a utility pole down that we were assisting with. We step in when we
  2. need to. We will look into this since you found it helpful having someone there.
- viii. Chair Stadeker: I have noticed they have been closing a lot of RSR booths that are now empty, was that a choice you made or through RESLife.
  1. The decision was made in the beginning of the Semester. C-Square was limited to one booth for now. We are pulling down on the coverage in certain areas where RSR's are not technically needed.
- ix. Senator Seigel: I am an RSR and it is difficult because we work late shifts, and there is no out time and there are issues getting their ID's break. There

is also no one to relieve me if I need a bathroom break or food, etc,

1. We have ResLife helping so that the RD's can help relieve our RSRs and hopefully eliminate some of these issues.
- x. Chair Boothe: Hello! I have been sharing the app! I am just wondering about doors that have been locking, and I was wondering how this could be addressed because the mechanism seems to not be working properly- it doesn't lock properly.
1. It may be a number of things. If you call us we were certainly do our best to alleviate the problems
- xi. Chair Atlas: I was wondering about fire safety. I heard a fire alarm go off and no one responded- I was wondering what the criteria is for someone to respond.
1. We are always dispatched along with the fire department when an alarm goes off. We are required to go and turn off the alarm system and do a check. Unless there is a malfunction, there should always be someone responding and checking things out.
- xii. Maxie DiBiso: I have heard rumors of people saying students are going to get charged if they get locked out of their doors and call PSAFE to come let them in.
1. I have not heard anything of this, and we do not plan on doing this
- xiii. Shirley: Is there any way you can include GPS services within the app?
1. I don't know the answer, but I will certainly find out if that is an option.
- xiv. Senator Siegel: I have heard some students have been locked out for long periods of time and I was wondering if that is normal or if it is supposed to be a quicker response so people can get back in?
1. These students should not be waiting that long but a lock out is unfortunately pushed

to the bottom of the list depending on what is occurring during the same time period.

xv. VP Singh: Does Public Safety have a dog?

1. No, we do not have a dog.

- c. Hofstra's Chief Equity & Inclusion Officer Cornell Craig Visits Senate
  - i. Cornell Craig: Chief Office of Equity and Inclusion. We did change the name to reflect the wants of the office. Diversity is the picture where they are different shades of color but equity talks about is everyone welcome in the current picture. We have many areas that are wonderful and still areas to grow. Our job is to be more inclusive and equitable and we are currently looking to diversify our faculty so it can reflect our student population. Hofstra is now an associate Hispanic Serving Institution, there are only 500 institutions such as these.
    - 1. Chair Anniballi: In my time at Hofstra, I have not had a single POC faculty member. Are we working on initiatives for change in this?
      - a. Cornell Craig: We are currently looking at group hiring/cluster hiring. We are also looking for interdisciplinary hires where their skills cross over into sections of our school. We are focusing on this at the current moment with our Provost as well. We want to give all of our students the experience to meet with faculty that

reflect them and we want their education to be the full experience.

2. Senator Siegel: There was a post sent to JewishonCampus made about Hofstra University that could be deemed antisemitic and I believe this should be addressed. We had someone come into the Hillel office just today with concerns about the Jewish High holidays that will be observed and professors are planning exams/labs but these professors are not allowing excused absences for this.
  - a. Cornell Craig: I don't want anyone to think that just because we have not commented, it does not mean that we do not care about this incident. We do look into complaints but with this current one, as it is anonymous, it is hard to pin down this and rectify the issue. We did send out an email in the beginning of the semester about sensitivity towards religious observances that will be occurring throughout the entire year. I encourage the student, or any student to report this as it can be a learning opportunity for not only the staff but also the student. We have been working off a secular calendar for the past 4 years which we drill home to the faculty to look at the calendar
    - i. Senator Siegel: Do you think we could do training about the religious holidays that will occur and how to handle it?
      1. Cornell Craig: My office did make this calendar to give the professor a resource and we are trying to make it not only easy but to guide them in this. It can be harder when the accommodations also may make it difficult for the student (ie. taking a test 2 days earlier versus on the high holiday). We all have blind spots.
        - a. Senator Seigel: Who did we hire
          - i. Cornell Craig: We hired both Dr. Alisha Wilson Carter and Beenish Saeed.
3. Chair Jackson: We are hosting the “La Bienvenida” event next Monday and would like to see you there. I was also wondering when the institutional information will be coming out to the student population.

- a. Cornell Craig: We can definitely share the institutional information at the event but we also want to formally get the word out as well.
- ii. Cornell Craig: My last thing to share with you is to please send in your reports. It will not have retaliation come out of it, if it does we are able to handle this. We have some limitations to reporting with the anonymous reporting but we use the information and track the information to keep up with these reports. We look at these for bias, to look for a focus to our training, if there is any insensitivity present, and we keep these things in mind so we can focus our resources.
  - 1. Senator Siegel: Do you have social media as a department? I believe it could be beneficial if you did to outline this advice that you have given to us.
    - a. Cornell Craig: We would love to create a better presence on social media and we would like to build on this. We are looking for students as well to come help us to be a voice.
      - i. Chair DeCrenasco: When is the conference for the Hispanic Serving Institutions ?
        - 1. Cornell Craig: The conference will be in October in San Diego. We are looking to fix the institution and to make sure we do not see our students not becoming successful
      - ii. Chair Pandit: What are the logistics of the tracking of student populations, and what are the logistics, are they being worked?
        - 1. Cornell Craig: They are in the current works and we have been in a transitional period for the last 3 years and we have just gotten a new head for the Office of Institution of research. We would like to look at population movement within majors, who is leaving, when they are leaving. We wanna follow trends and find out why they are happening.
      - iii. Vice President Singh: Is there any way that SGA can help your office?
        - 1. Cornell Craig: We have a student diversity advisory board. This is one of the best pipelines that we have but I will also utilize Dallas and keep an open line of

communication. I want to be challenged and to make my job better for you. Speak up please and we want to do the best we can for your success as a student. Your voices can make the difference and when students speak up collectively that is where change happens the fastest. Please do not hesitate to reach out if anything arises. Email [equity@hofstra.edu](mailto:equity@hofstra.edu) which is the office's new email address. You can also email this email if there is something you need to say as a report. We encourage you to keep an open line of communication. Our room is suite 240 in the Axinn Library on the second floor. We are going to have an unofficial office warming when we have our new furniture! Come!

1. I have composed a social media strategy and social media calendar. The new “year” of posting will officially kick off August 30th. (Link is to the strategy is [here](#), while the link to the calendar is [here](#)).
2. I have plans to do another E-Board and Cabinet countdown similar to last year, counting down to our first Senate. The form for all the information I need is [here](#). This will be due by Friday.
3. Before summer’s end I want to get the website updated with at least new language. Will and Julie, you guys can send me language as soon as possible and I’ll pass it to Sev. I reached out to Alexis Friedman to ask if she’d help out again with the photos, and she said yes.
4. I’ll also have a new portal box language ready for move-in and the start of the semester. The goal is for an update every 1-2 weeks.
5. I helped Chair Pandit with her SGA Info Session Presentation and Chair Boothe with her How-To-Hofstra revival.
6. I’m leaning towards the idea that the *Decorum For’Em* will be an end-of-year project, with certain progress quotas during the Fall Semester. I will run this by my committee during the semester.
7. I have been in touch with Mak from CR about SGA graphics to post for info sessions and elections. That will likely be approved and rolled out soon.
8. The cork board is another high priority that I plan to address when back on campus. I’m not sure how to get that going, though.
9. I want to make sure there is ample communication regarding HofCast/TW@H emails so that we advertise our SGA events right.
10. I’ve been in contact with Michelle Rabinovich from the Chronicle about continued coverage and photography support. To what extent we pursue that will be determined by committee.

      - e) Questions:
        - (1) Chair Jackson: How does your e-board work?
          - (a) There isn't an e-board because we're not a club but we have people in BLAC that we

call core members that does the more administrative and organizational work to have a collaborative experience

(2) Chair Pandit: How do you go about your initiative?

(a) We are hoping to make BLAC eats a more consistent thing and we are hoping to add a mandatory course about Race for all Liberal Arts students.
