

**Agenda of the 87th Senate
Student Government Association
Hofstra University
April 20, 2023**

Call to order

Meeting Called to order at 6:35PM EST

A. Quorum Call

- a. Quorum set at 19

B. New Business

- i. Chair Jackson moves to open the gallery
 - 1. Motion seconded
 - 2. Motion passed
- b. Budget Appeals
 - i. Ice Hockey
 - 1. Chair Jackson moves to hold a straw poll
 - a. Motion seconded
 - b. Motion passes
 - i. Chair Jackson: I want to have a straw poll about how people feel about funding from 50% to 75%
 - ii. Chair Pandit moves for a 10 minute unmoderated caucus
 - 1. Motion seconded
 - 2. Motion passed
 - a. Senator Egolf: Do you know how many hours of rink time that they currently have and what they would have with 75% of their budget?
 - i. Chair Giovanangelo: They would have 23 hours of practice at 50% and to go up to 75%, it would add an additional 7 to 8 hours.

- ii. Comptroller Fountain: For reference, the second highest club got half of what they currently have. Their club has a large amount of income that could possibly cover all these costs. If we fully funded this we would be over what SGA can properly fund. There are multiple factors we took into consideration, but we also had a reason to cap it due to all the clubs on campus.
- iii. Chair Stadeker: I do not know if they do pay a fee but in the majority of the club sports I have participated in, I have had to give money towards the club.
- iv. Senator Barone: There were a lot of issues, but we were good this semester with saving money. I recommended not going above 25000, just because they got a lot more than other clubs.
- v. Senator Egolf: Can you clarify what you mean by a club's income?
 - 1. Comptroller Fountain: Income is something that we have no control over, it never goes away or rolls back like SGA funds. And a club can use it on whatever they want.
- vi. Senator Egolf: In their own income, do you have all if not close to the money they need in income?
 - 1. Comptroller Fountain: I can not say an exact number but it is close.
- vii. Chair Atlas: What would it be if we funded 60% of the budget?
 - 1. Chair Giovangelo: It would be an additional \$3,188.09 for 60%.
- viii. Senator Greenlaw: It's a lot of money and it was more than we originally wanted to allocate. That took away opportunities for other clubs.
- ix. Comptroller Fountain: My recommendation is to keep it at this.

1. Chair Stadeker moves to extend speaking time by 5 minutes
 - a. Motion seconded
 - b. Motion passed
- x. Comptroller Fountain: Like previous speakers mentioned, we spent hours talking about these budgets. My recommendation is to keep it at this and have some of the largest amount allocated compared to other clubs.
- xi. Chair Stadeker: They have income to cover it so I would be alright with this. I think getting them more money would be harmful to other clubs in the long-run who want to do events.
- xii. Chair Giovanangelo: I know some seem skeptical about giving them money. They can always come back for money and ask for extra money and we would maybe have a better gauge of what would be the best amount. It's not an end all be all.
- xiii. Comptroller Fountain: There are still a lot of clubs that didn't ask for money or get a full budget, and clubs who put on events that a lot of students enjoy.
- xiv. Chair Atlas: Has this club marked any reservations over using their income?
 1. Comptroller Fountain: They have spent some of it but we are not in charge of it at all so it
- xv. Senator Egolf: With the way the contracts work, do they have to pay now or can they add later?
 1. Comptroller Fountain: The contract is for very specific dates, they can ask for more or less games but that was what they asked for.
- xvi. Chair Pandit: What would 55% look like?

1. Chair Giovanangelo: 55% would be \$1617.20 and it would be an additional game and practice hour.
2. Senator Livingston moves to hold a straw poll
 - a. Motion seconded
 - b. Motion passed
3. Senator Egolf: How much would 60% be again?
 - a. Chair Giovanangelo: 60% would be \$3134.75
4. Chair Stadeker: I want to emphasize that they do have a large amount of money and in turn, it could be going towards another clubs
5. Senator Egolf: Why are we not allowed to know how much money SGA has left?
 - a. Comptroller Fountain: It is just how it's written in the policy series. We don't have to give out everything, because there are many other ways clubs can get money with appropriations. We are 57% of all clubs that have gotten money, and we want to see how clubs will use this money and if it is needed.
 - b. Senator Barone: The only one who knows the budget is Justin, we follow him when he says that we need to cut back on funds.
 - c. Chair Atlas: What was the 55% amount?
 - i. Chair Giovangelo: It was 1,567.19
 - d. Chair Jackson moves to not fund Ice Hockey

- i. Motion seconded
- ii. Motion passed

c. Hofstra FIT

- i. Chair Pandit: What does your club membership look like?
 - 1. Right now it's about 40 members.
- ii. Chair Jackson: Would you describe them as sufficient funds?
 - 1. Chair Anniballi: I would say it is.
- iii. Chair Jackson: What would the price be based on their membership numbers?
 - 1. I would go based on what they requested in their request form.
 - 2. Chair Jackson moves to allocate \$1677.50 to Hofstra Fit
 - a. Motion seconded
 - b. Motion passed
 - c. 12-0-7

d. Hofstra Women's Rugby

- i. Comptroller Fountain moves for a 5 minute moderated caucus
 - a. Motion seconded
 - b. Motion passed
- ii. Comptroller Fountain: The majority of the things we did not allocate are on the bottom because we go based off of the most important things on top and then go to the rest. For equipment, we gave them the amount that felt right due to it not being important to them.
- iii. Chair Anniballi: I will schedule a meeting with them afterwards to go over these things.
- iv. Senator Guenfond: She mentioned how they are borrowing safety equipment from men's rugby and it's a very difficult contact sport, so I believe that at the very least, we should take into consideration equipment.
- v. Chair Jackson moves to allocate \$260 to Women's Rugby for equipment
 - 1. Motion seconded
 - 2. Motion passed
- vi. Chair Jackson moves to allocate \$449.85 for uniforms
 - 1. Motion seconded
 - 2. Motion passed
- vii. Senator Egolf moves to allocate \$335.04 for merchandise
 - 1. Motion seconded
 - 2. Motion passed

e. NAFME

- i. Chair Jackson: I think if we are going to fund them, then the most important thing should be towards the conference, as the goal of the club should be about networking in the music world.
 1. Comptroller Fountain: It would be about 40 dollars a person for a ticket.
 2. Chair Jackson: Do they have a club income?
 - a. Comptroller Fountain: Yes they do.
- ii. Chair Jackson moves to allocate \$2608.33 for Hotels
 1. Motion seconded
 2. Motion passed

f. LEAF

- i. Chair Jackson moves to allocate \$36.34 for Travel
 1. Motion seconded
 2. Motion passed

g. Makin' Treble

Call to order

Meeting Called to order at 6:39PM EST

A. Quorum Call

- a. Quorum set at 18

B. New Business

- a. Chair Jackson moves to open the gallery
 - i. Motion seconded
 - ii. Motion passed
- b. Chanda Washington Visits Senate!
 - i. I have been here for about 2 months now and want to share who I am and how I got here! I am originally from Mississippi and I always had a vision to work at the Washington Post. Along the way, people urged me to consider other plans and I had an amazing teacher who inspired me. I majored in journalism at Arkansas State and I did end up at the Washington Post. I spent 16 years there and worked through multiple departments and I left due to the internet changing the journalism I knew. I did get to have an opportunity to work with the community while doing journalism as well. I reinvented myself and worked in the DC government. I was a career through one administration and then demoted when the new administration came in. I used the demotion to close a gap, the gap that I filled was the Washington Post. 8 years later, I was still the mayor's communication point. Hofstra then knocked on my door and asked me to do government affairs, and Dr. Poser offered me the position and here I am now. In this role, I feel like there has to

be a connection between my office and the students, whether it is governmental affairs or community. We want our voices to matter and to have our community feel safe. When I leave, I want an establishment that is left behind where administration and students have a strong bond.

1. Senator Guenfound: What are more ways for Hofstra to get involved with our local community? Are there any new ideas?
 - a. I personally am learning the area around Hofstra right now, so I am going to meet the Long Island association and more people to gauge where we can aid and how far we can reach. I know you all have classes and are students but I want to make sure that we can get out there and marry it with students to make an impact.
2. Chair Pandit: Could you describe how you want your next few years in this position to look like in a few words?
 - a. I would use the words, “learn”, “engaging”, “chill”, “successful”, “excited”. I want to be able to learn and grow here and have you grow along with me. I want to be engaging to allow our students to talk to me. I also want to be chill because I want to be calm for people and our university. I want to be successful in creating more and more connections and I do not want to be bored. When I become bored, I need to hop and do something.
3. Senator Tauro: What message do you have for people who are trying to grow and reinvent themselves?
 - a. Don’t be afraid to just try. Don’t put yourself in a box where people say this is what you’re supposed to do. Do not let others bring you down and do not let others tell you what you are capable of or what you can do. Take the chances. Whatever it is you believe in, hold on to it.
4. Senator Egolf: what’s your favorite thing that you ever wrote about?
 - a. I was actually an editor at the Washington Post, not a reporter. But I have written things. I actually was in a program where there was a session in Florida to improve your skills. There was a detailed writing

assignment and mine was about the day I went to the Washington Post but the cliffhanger was that it was also the day I met my husband. We were paired up to read our writing and I loved doing that.

5. Senator Egolf: What's the most valuable lesson you learned at each of your past jobs?
 - a. I held on to my convictions through much of my jobs. At the Post, I learned how to be a better manager, and I had a writer that wrote something with an extreme error made to it, but I learned that now when I manage, I advocate for my people extra hard and I go past what the policy says. The DC government taught me the value of partnerships and to be responsive and a good person to others. Hofstra, I will get there.
6. Senator Wong: What are some tips that helped you in your journalism career?
 - a. For tips in journalism you need to know how to write. The best way is to just keep writing no matter what. Also read other writers and learn how they craft their stories. Also I would recommend gaining an internship.
7. Senator Wong: What is the best piece of advice you could give based on every position you have held?
 - a. It is all in keeping and maintaining relationships and connections. You have to be honest and straightforward.
8. Chair Jackson: How did you get into Sports Media?
 - a. There is this program called Sports Media Institute and it was a 2 week bootcamp, that program is still around today. I would love to tell you more about it and we can set up a meeting.
9. Chair Jackson: Favorite memory of Maryland?
 - a. I don't know if I have a favorite memory but it is home. My kids are there, my husband, and it is my home above all.
10. Associate Bell: How can students reach out to you?
 - a. I can be reached by email
chanda.washington@hofstra.edu

11. Vice President Singh: What has been your favorite moment of Hofstra so far?

- a. It was when I met with the students including Will and Julie, Steven and Ashley. In all fairness, I haven't had a bad experience yet.

c. Alumni Panel

i. With: Thomas Doherty, Bernice Aquino, Calob Congdon, and Afsah Shareef

1. Afsah: I graduated in May of spring 2022, my favorite memory of SGA was the formal. Currently I'm working as a paralegal in NYC, and if anyone has any questions, reach out to me.
2. Calob: I'm still a student at Hofstra, i will be graduating this semester, I used to be the programming chair. My favorite memory in SGA was the evening with Trevor Noah. I was so happy that the event happened. And I'm teaching right now.
3. Bernice: I was last year's VP of the 86th Senate, I was the facilities and operations chair. My favorite memory of SGA was the evening of Trevor Noah, and just the overall experiences I've had. I'm in grad school getting my MBA, and I'm working currently.
4. Thomas: I was a senator in the 85th Senate and Comms chair in the 86th Senate. My favorite memory is a snap cup that I still have with me now. I graduated in May of 2022 with a B.A. in PR and I'm working at a firm right now.

ii. Chair DeCrescenzo: What are some things you learned through SGA?

1. Afsah: I feel like SGA has helped me with confidence and getting comfortable with speaking to different authorities.
2. Calob: I would say advocacy, and it made me be able to advocate for my career. Also management skills as well and learning how to be a good resource.
3. Bernice: I would say leadership skills are the best thing I learned. Also to stay true to yourself and stick to your guts.
4. Thomas: I learned that I was not fit at that point to be a leader. But taking the opportunity to put yourself in a leadership position is great and was something I learned through SGA.

iii. Senator Egolf: Can you read your favorite snap?

1. Thomas: I have a bunch of snaps in a box that are my favorite.

iv. Chair Jackson: What is your favorite memory from Hofstra?

1. Afsah: For me it was creating the identity-based club Nari. And SGA really helped me in getting confident in making it.
2. Calob: For me it was being in the orientation staff, I met so many new people, and had great experiences.
3. Bernice: My favorite memory was my last Fall Fest which was T-Pain
4. Thomas: I think it was Spring Fest of my senior year, and I was able to see how everyone had grown in all different positions and I had lots of fun with those friends. Also anything before the pandemic.

v. Chair Jackson: What is your best piece of advice for post-graduation?

1. Afsah: Apply early! It is always good to apply early and apply to multiple places if you can!
2. Calob: Practice interview skills, it could come down to who was better prepared to sell themselves.
3. Bernice: Please do not compare yourself to others because you should just focus on you and your employment. You all have your own path!
4. Thomas: I feel like being able to give yourself space and expectations is one of the most important things. Your life will not always be due dates but it is about finding yourself after graduation.

vi. Senator Geunfound: Did you ever regret not having another position of leadership on campus or was SGA something that was your final position?

1. Afsah: I think the best thing to do is to focus on what you can do with the position you hold. You can still gain skills from the experience that you've had. If you take time with your positions you can explain things very strongly.
2. Calob: You never know where your talents are going to lie best and if you aren't chosen for a position all you have to say is that it wasn't the right time and you move on.
3. Bernice: I would say that you shouldn't look at leadership positions as just something to add to your resume. SGA added value to my college experience. Make sure it's

something that you could excel in but also have a good experience.

4. Thomas: I think my advice would be similar to Bernie's. I think you need to have purpose behind your position. SGA is a resume builder but what resume are you curating, what could the positions you hold do for your resume. I also think knowing what the position does and how you would put your own passion into it. I would also say think about how much you can take on.

vii. Vice president Singh: What are some challenges that you faced? And what did you learn from it?

1. Afsah: Not everything will go your way and you need to be able to come to terms with this. And be grateful for everything that you have.
2. Calob: My biggest challenge was building excitement and motivation with new initiatives but even if they aren't going well, you need to market what you are trying to do and you need to make it seem to be very beneficial.
3. Bernice: I think being on E-Board during the 86th Senate was sometimes difficult. Engaging with people and building excitement was difficult. Also learning how to work with other people can be challenging as well. It teaches you how to collaborate with others.
4. Thomas: A lot of the challenges I faced were with time management. That was hard to come to terms with, also understanding that not everything will go your way. It is helpful to not have everything go your way so you can learn to navigate and manage the emotions that come with it.

viii. Bernice: I would like a highlight reel of anything happening with SGA members currently.

1. Chair Jackson: I am personally very proud of my committee for keeping me afloat and I am so proud of how far the @Hofstra series has come.
2. Chair Giovannello: I am very proud of pushing the 18th credit even farther than before.
3. Senator Greenlaw: We started a Constitutional review group.
4. Chair Stadeker: My biggest thing that we were able to accomplish was finally bring the free menstrual products to

campus, we have been fostering relationships between students and Public safety, and creating even more events on campus.

5. Chair Jackson: I am very proud of how far our new senators have come so far and they have flourished and grown.
6. Chair Pandit: For CR highlights have been meeting with clubs and helping them flourish. Reassigning office spaces, and changing the club recognition process. It feels like the community is truly coming together.
7. Chair Jackson: I'm proud of how SGA's relationship has grown with President Poser, and how we have a connection with her.
8. Vice President Singh: Our Facilities and Operations chair is not here, but he has gotten clocks in places all across campus. He also works a lot with Compass and advocates for food equity and is doing an overall great job. Also my favorite moments have been with the E-Board.
9. Senator Greenlaw: We also went to a Brooklyn Nets game together and it was a great night.
10. President Germaine: Seeing everyone grow and seeing how many of our leaders have started in their first years and then keep growing, is amazing.
 - a. Thomas: I did write some more notes and I want to say do not be afraid to admit your mistakes and being able to correct yourself is a good growth. Also do not be afraid to admit that you do not know something! I think SGA is very special and I am looking forward to the changes and evolutions that you will experience!
