How to perform an autoscan on an LG TV

**NOTE:** The steps to perform this procedure may be different depending on your TV model. **ALWAYS refer to the User’s Guide for your specific TV for complete information.**

1. Press the *Home* or *Menu* button on the remote
2. Select *Setup* or *Settings*
3. Select *Channel*
4. Select *Auto Tuning* or *Auto Program*
5. Select *Start*

Note: It is important to allow the device to completely scan to 100%. If the device is not allowed to search for all available stations, some could be missing from the channel list.
