## ***Employment Statistics – School of Education Undergraduate***

---

The career outcomes rate of Hofstra’s 2014-2015 job seeking School of Education undergraduates is 100%<sup>1</sup>.

<b>Career Outcomes Rate *</b>	<b>100%</b>
Employment Rate	92%
Graduate School Rate	47%
Employment + Graduate School Rate	39%

*\*Career Outcomes Rate = (employed + graduate school) / (total survey respondents + other reliable data sources – not job seeking)*

**92% of School of Education undergraduate respondents reported being employed** and 33% accepted their position before graduation. Another 60% reported that they were employed within six months after graduation.

Among those who reported salary (38%), a self-reported figure volunteered by the undergraduate respondent, **the median annual salary for these undergraduate alumni was \$33,500**, the mean was \$37,637, and the middle 50% range was \$30,150-\$50,000.

**47% of these undergraduate respondents have reported that they are attending another institution or applied for an advanced degree** within the next semester of graduation. Forty-five percent of these undergraduate students attending graduate school are attending full-time and the most popular program is education (70%).

Of the 89 School of Education undergraduate students who graduated between August 2014 and May 2015, data was collected via a survey from 44 students for a 49% response rate. Data was gathered on another 7 students from LinkedIn resulting in knowledge about the outcomes for 57% of the graduates. The data collection period for the 2014-2015 Hofstra graduates was between December 2014 and May 2016.

This report uses the best practices recommended by the National Association of Colleges and Employers’ (NACE) First Destination Survey Standards in January 2014. Many of the tables have been created from different sources, therefore the base size used to calculate percentages is varied. The source for each table is noted throughout. See the notes for further clarification on the methodology.

***The economy is constantly changing, and employment for past classes is not an accurate predictor of employment for future classes. In addition, a degree from Hofstra or any other school is not a guarantee of employment in any field.***

## **NOTES**

Due to the number of resources used to gather outcomes data, many of the tables have been created from different sources, therefore the base size used to calculate percentages is varied. The source for each table is noted throughout. This report is largely based on the responses of graduates completing Hofstra surveys, not the total number of graduates, and may not be representative of the total graduating population. LinkedIn was used to track employment information on survey non-respondents and National Student Clearinghouse and Hofstra enrollment files were used to track graduate school enrollment for all of our students.

This report uses the best practices recommended by NACE in January 2014. In accordance with those practices, this report uses multiple data sources to understand our graduates' outcomes. The sample sizes are detailed in the table below.

Some tables may not sum to 100% due to rounding.

<b>Total Population</b>	<b>89</b>	<b>100%</b>
Survey	44	49%
LinkedIn	7	8%
<b>Total Response Rate</b>	<b>51</b>	<b>57%</b>

## **GLOSSARY OF TERMS**

**Career Outcomes Rate** – calculated as the percentage of students who are employed full or part time or enrolled in another degree program full or part time divided by the total number of graduates for which we have career outcomes information minus students not seeking employment (employed + grad school) / (total survey respondents + other reliable data sources – not job seeking)

**Employed full-time** – employed 35+ hours per week (including freelance work, consulting, performance or other hours worked)

**Employed part-time** – employed less than 35 hours per week (including freelance work, consulting, performance or other hours worked)

**Employment Rate** – employed full or part time (sources: Hofstra surveys, LinkedIn and faculty feedback)

**Graduate School** – students who indicate they are already enrolled in another degree program, been accepted to another degree program, or applied to another degree program for next semester

**Grad School Rate** – enrolled in another degree program full or part time (sources: Hofstra surveys, National Student Clearinghouse and Hofstra enrollment files) + reported planning to start another degree program after graduation (sources: Hofstra surveys)

**Job Seeking** – students who are not employed, but are seeking full-time employment

**Not Job Seeking** – students who are not employed and are not seeking full-time employment

**Knowledge Percentage** – the percentage of students on whom we have information from the Hofstra surveys and other reliable data sources

**National Student Clearinghouse (NSC)** – a service that tracks student enrollment. NSC was used to see if students who graduated from Hofstra were enrolled into another degree program.

**Outcomes** – refers to student placement post-graduation, including employment and further study

**Response Rate** – the percentage of students responding to the Hofstra surveys

**Salary** – annual base salary reported by students employed full or part time
