

HU Museum of Art Support for Remote Learning

The Hofstra University Museum of Art and its professional staff are available to support students, staff and faculty as we transition to virtual learning. While in-person visits to the Museum's exhibitions are not possible at the moment, we will work with you to bring a comparable experience to your virtual classroom.

Suggested activities and resources are available on the Museum's Education page for University faculty (https://www.hofstra.edu/community/museum/museum_education_hufaculty.html). We will continue to update this webpage as more resources become digitally available. Other suggestions include scheduling a Zoom visit with a museum educator to discuss "How to Look at Art" or with a museum curator to discuss either an exhibition or an aspect of the collection. Contact us with your ideas and we will work together to enhance the remote learning experience.

In addition, the Museum website (<https://www.hofstra.edu/community/museum/index.html>) includes information about:

- Current exhibitions with interactive PDF catalogs (essays and illustrations)
 - Uncharted: American Abstraction in the Information Age

 - Nevertheless She Persisted

- Searchable collections database
 - PastPerfect Online
