Connecting to the eduroam wireless network on OSX

Click on the Airport icon towards the top right of the screen.

Select eduroam from the list of available wireless networks.

You will be prompted to enter your username and password. Your password will be the same password you use for the Hofstra Portal. For your username,

If you are primarily a student enter: students\YourPortalUsername@hofstra.edu

If you are primarily an employee enter: employees\YourPortalUsername@hofstra.edu

Once entered, click Join to continue.
Connecting to the eduroam wireless network on OSX

Click *Continue* to the *Verify Certificate* prompt.

After clicking *Continue* you may be asked for your computer username and password. Enter your credentials and click *Update Settings*.

You are now connected to the eduroam wireless network.
