2. Parent University
   a. Feel like you are learning math for the first time all over again? Having been thrown into distance
      learning overnight, we know many parents are struggling to find ways to help their students grow and
      master concepts taught in a way unfamiliar to them. Saturday Classes for Young People would like to
      offer special seminars on ways to help your learner with difficult concepts in elementary education. We
      will be offering individual or group tutoring seminars covering topics in the areas of Math, Science,
      Social Studies and ELA. Whether you would prefer to have some one-on-one questions answered or get
      a few friends together for a group session, our NYS certified teachers are available to offer support and
      guidance in these complex times via Zoom sessions. Let us help you support your child's learning at
      home!
   b. $75 per hour for private session, $200 for a 3 hour package (save $25) OR group session- $175 for a 1
      hour group session with up to 5 friends.
   c. Contact Jessica Dease at jessica.dease@hofstra.edu or call 516-463-7400 for further details
