For more information on Hofstra Summer Camps, and details on transportation and lunch, visit hofstra.edu/camp.
For more than 30 years, Hofstra Summer Camps has been the setting for magical memories and the beginning of lifelong friendships. As the largest University-based camp on the East Coast, Hofstra Summer Camps features state-of-the-art classrooms; high-tech computer and science labs; professional-level athletic fields; air-conditioned indoor athletic facilities; and an indoor, heated, Olympic-size pool.

Hofstra Summer Camps offers campers entering grades K-12 an unparalleled array of programs in athletics, arts, academics, career discovery, and so much more! A summer filled with adventure, enrichment, new experiences, confidence-building, personal development and, most of all, FUN, awaits your child! That's why our campers (and staff!) return year after year.

We invite you to explore our brochure and website to learn more about the many choices available for your child. We look forward to welcoming your child to Hofstra Summer Camps this summer!

Hofstra Summer Camps Parents Say It Best!

“My daughter had a fabulous time and made new friends! I was highly impressed with the activities that they were involved in and she learned how to swim. Great experience!”

“My child came home exhausted every day from camp and enjoyed every minute of it. She even requested staying in camp longer each day.”

“My niece thoroughly enjoyed her experience even though she was visiting from Florida. She made a lasting friendship that has her excited about the possibility of returning to the camp next year.”

“Overall, I was very pleased with the camp and the experience my child had. It gave her experiences in science and STEM that she does not receive in school. She had an excellent relationship with her group leader and was happy attending every day. It is evident that your staff are knowledgeable and care about the campers.”

“This is the first time my daughter has attended any camps at Hofstra and they definitely exceeded my expectations. My daughter had a great experience.”

“My son absolutely loved it and I loved hearing about his day when he got home.”
Make the Most of Your Spring Break with Hofstra University Continuing Education!

Monday-Friday, April 22-26, 2019
9 a.m.-4 p.m.
Gain knowledge and skills, make new friends from throughout Long Island, and get a taste of college life!

SPECIALTY CAMPS

ACADEMICS
Campers enjoy a half day of their chosen specialty (grades 2-5 in the morning and grades 6-10 in the afternoon) and a half day of recreation/swim. During Session 4, some specialties enjoy a range of recreational activities in the afternoon, including karaoke, movies, scavenger hunts, and ice cream parties.

AMERICAN SIGN LANGUAGE (ASL)
Session 1
Grades 2-10 as of September 2019.
Half day of American Sign Language and half day of recreation/swim
In a fun, educational, and language-rich environment, campers start to learn or build on their American Sign Language (ASL) skills through instruction, interactive games, and songs. They learn more than 100 signs to use in everyday life, including recommended first signs. ASL vocabulary covered in the class may include everyday words, family, food, animals, emotions, opposites, and play signs.

GENETICS
Session 3
Grades 2-10 as of September 2019.
Half day of Genetics and half day of recreation/swim
Do you want to learn about your future and the future of science? Then this is the course for you! Genetics helps explain a lot of things, like what makes you unique, why you look like other members of your family, and why some diseases run in your family. Taking time to learn about genetics can help you understand your own health and make healthy choices. Genes that do not work correctly can cause problems. Some rare diseases are caused when a single gene stops working normally. Many more common diseases come from multiple genes that do not work correctly and the combination of how these genes interact with the environment, such as your lifestyle and habits. Investigate your family health history, manipulate genes, discover the foundations of biotechnology, and, most importantly, learn about you! The more you know, the easier it is to make the right decisions.

JOURNALISM
Session 2
Grades 2-10 as of September 2019.
Half day of Journalism and half day of recreation/swim
Breaking News! The Journalism Specialty Camp is looking for campers who have a love of writing and want to share how to DIY, communicate their valued opinions with a review of a popular book, or educate others on the latest technologies! Here we will research, write, and present the stories that are most important to our campers. By applying a wide range of strategies and writing process elements, campers can improve their writing, editing, proofreading, and computer skills. The end result is the publication of a newspaper that highlights current events, feature articles, human interest stories, and more!

MARINE BIOLOGY
Session 2
Grades 2-10 as of September 2019.
Half day of Marine Biology and half day of recreation/swim
Campers are introduced to being a marine biologist in this hands-on program that takes place both on our campus and at some off-site facilities. They learn about various marine plants and animals, study the environments, take part in anatomy dissections, learn about coastal and marine conservation, and participate in many exciting hands-on activities. Guest speakers talk about various careers opportunities within the marine biology field.

SCIENCE DISCOVERY LAB
Session 1
Grades 2-10 as of September 2019.
Half day of Science Discovery Lab and half day of recreation/swim
In its simplest form, science is the idea of solving a problem or answering a question. Campers engage in fun hands-on experiments and are exposed to many areas of science, including physics, chemistry, and biology. This interactive camp program challenges students to think, learn, and grow.

ADVENTURE EDUCATION
ADVENTURE EDUCATION
Sessions 1, 2, 3
Grades 2-10 as of September 2019.
Half day of Adventure Education and half day of recreation/swim
Modeled after the popular Project Adventure and Outward Bound programs, this camp teaches participants to face mental, physical, and emotional challenges safely and confidently. Personal and social responsibility, trust, effective communication, problem solving, teamwork, and cooperation are emphasized as campers sequentially work through ground-level, low-level, and high-climbing challenges such as climbing walls, catwalks, space loops, multivine, islands in the sky, and cargo net. With the resulting sense of accomplishment and a newfound recognition that seemingly impossible situations can indeed be overcome, successful adventurers feel like they’re on top of the world!
ARTS – PERFORMING

DANCE
Sessions 1, 2
Grades 2-10 as of September 2019.
Half day of Dance and half day of recreation/swim
Campers learn a wide range of dance styles, including ballet, jazz, theater, hip-hop, and lyrical, and have many opportunities to show off their moves. A final dance production allows campers the opportunity to be involved with selecting the music, developing choreography, and making staging decisions.

HOFSTRA MUSIC EXPERIENCE
Session 4
Grades 4-12 as of September 2019.
This one-week, full-day camp is designed to provide young musicians with the opportunity to experience exciting music of all styles, while working hard, having fun, and building lasting friendships. The camp is open to musicians and/or singers of any experience level, with the goal of guiding every camper on a path of individual and creative growth. Campers work on skills such as reading music, vocal or instrumental technique, and tackling repertoires in group and ensemble settings. All rehearsals take place in Hofstra’s state-of-the-art facilities, and there is an end-of-session performance to which all family and friends are invited.

MUSICAL THEATER INTENSIVE
Session 4
Grades 2-12 as of September 2019.
This exhilarating one-week, full-day program is the place for actors of all calibers — from those who have only dreamed about performing on stage to experienced thespians. Campers explore Broadway history, learn theatrical techniques, hone their performance skills, develop stage presence, and work in an ensemble environment. The program culminates in a cabaret-style performance — open to family and friends — composed of songs ranging from traditional musical theater to contemporary pop/rock musicals.

ARTS – STUDIO

CARTOONING WORKSHOP
Session 4
Grades 5-10 as of September 2019.
Bang! Zap! Pow! Creating cartoons is seriously fun business, and there’s a lot that goes into it. Successful cartoons have succinct, punchy writing; great pencil lines; and excellent inking. In this full-day camp, participants learn the complete cartooning process, as they create their own characters, write and draw their own stories, and create full-size art for reproduction. The final project, a class-produced anthology comic book, lets campers show off their new cartooning skills. No experience necessary!

HOFSTRA ART EXPERIENCE
Sessions 1, 2, 3
Grades 2-10 as of September 2019.
Half day of Hofstra Art Experience and half day of recreation/swim
Through small-group and individual instruction, campers learn to express their artistic vision through a wide range of media, methods, and techniques. Using clay, campers create sculptures and decorative masks, vases, artistic jewelry pieces, and mosaics. They learn various painting techniques, including watercolor, tempera, acrylic paints, and multimedia paint projects, and create their own stories through cartooning.

TAKE YOUR BEST SHOT: PHOTOGRAPHY
Session 4
Grades 4-10 as of September 2019.
The best way to become a better photographer is to get out into the world and take photos ... of people, places, and things. In this weeklong session, campers learn the basics of how to take great photos, from choosing the subject matter to composition, lighting, and camera control. Then we look at the photos together and talk about them. Whether your child has digital SLR, a point-and-shoot camera, or a smartphone, this program will teach them how to take their best shot!
ATHLETICS AND RECREATION

Campers enjoy a half day of their chosen specialty (grades 2-5 in the morning and grades 6-10 in the afternoon) and a half day of recreation/swim. During Session 4, some specialties enjoy a range of recreational activities in the afternoon, including karaoke, movies, scavenger hunts, and ice cream parties.

For more detailed descriptions, visit hofstra.edu/camp.

AQUATICS
Session 4
Grades 2-10 as of September 2019.

Campers get moving with activities like diving and swim instruction, personal water safety instruction, team sports, water basketball, water polo, relays, and other games. Our certified water safety instructors tailor all activities to the age and skills of the campers so that everyone is sure to have fun in a safe and supportive environment.

BASKETBALL
Sessions 1, 2, 3
Grades 2-10 as of September 2019.

Half day of Basketball and half day of recreation/swim

Our basketball camp, staffed by knowledgeable high school and college-level players and coaches, helps players of all levels improve their basketball skills. Age-appropriate foundational drills help players with dribbling, shooting, passing, and offensive and defensive strategies.

BOWLING
Session 2
Grades 2-10 as of September 2019.

Half day of Bowling and half day of recreation/swim

Campers learn about proper ball grip, pin movement, and tips and tricks for being a better bowler—all in an air-conditioned facility! Campers strengthen both their physical and mental knowledge of the game while bowling four or five games per day.

CHEERLEADING
Session 3
Grades 2-10 as of September 2019.

Half day of Cheerleading and half day of recreation/swim

In a safe and fun environment, instructors work with campers individually and in groups to help hone cheerleading strengths, skills, and ability to work well in groups. Age-specific games, fundamentals training, jumps, dances, and exercises get participants moving in the direction of their goals. The session concludes with a short choreographed performance for friends and family.

FLAG FOOTBALL
Session 1
Grades 2-10 as of September 2019.

Half day of Flag Football and half day of recreation/swim

Campers learn the fundamentals of football, from first downs to touchdowns, in a safe and encouraging environment. Non-contact drills, games, and scrimmages improve participants’ skills and knowledge, while helping them move from the bleachers to the field.

ICE SKATING
Session 3
Grades 2-10 as of September 2019.

Half day of Ice Skating and half day of recreation/swim

Whether for ice hockey or figure skating or just skating for fun, campers improve their skills at Northwell Health Ice Center at Eisenhower Park, Long Island’s premier skating facility. Their professional coaching staff is led by former NHL and international players. The program boasts a comprehensive lesson and evaluation system that helps campers maximize their development and enhance learning in a safe environment.

RECREATION CAMP
Session 4
Grades 2-10 as of September 2019.

Campers enjoy an exciting week of diverse activities, including swimming, sports, arts and crafts, and special events. As always, participants can expect top-notch instructors and a safe and supportive environment for all activities. A wide range of adventures and fun awaits campers!
TENNIS
Sessions 1, 2, 3
Grades 2-10 as of September 2019.
Half day of Tennis and half day of recreation/swim

Campers beginning to play tennis are introduced to the sport through the new USTA program Net Generation. Players learn the basics of tennis using scaled-down equipment such as a smaller court, shorter racket, and lower-pressure tennis balls. The program also has a character-building component focused on confidence, respect, responsibility, cooperation, and much more. More advanced players use traditional equipment, with instruction based on individual levels. All aspects of tennis are introduced and taught, including scoring, strokes, and strategy, and all in a fun and entertaining way!

COUNSELOR APPRENTICE
COUNSELOR APPRENTICE PROGRAM (CAP)
Sessions 1, 2, 3 (MUST ENROLL IN ALL 3 SESSIONS)
Optional: Session 4 (additional fee applies)
Grades 10-11 as of September 2019.

The full-day Counselor Apprentice Program (CAP) is designed to teach teens how to build meaningful relationships with peers and campers. Participants are taught CPR; learn about the challenges and rewards of working with children with special needs; and gain a comprehensive understanding of what it means to be a successful counselor at Hofstra Summer Camps. CAP is an amazing learning experience that will help prepare teens for college and careers. After successfully completing CAP, 15- and 16-year-olds may apply for a position at Hofstra Summer Camps for the following summer (job assignments are based on availability).

CUB CAMP
CUB CAMP
Sessions 1, 2, 3, 4
Grades K-1 as of September 2019.

Cub Camp offers a summer of fun and learning in an enjoyable and nurturing atmosphere. Under the guidance of certified early education teachers, young campers engage in activities such as physical play, outdoor activities, academic skills, swim, arts and crafts, story time, and field trips. Throughout the program, there is a focus on helping campers develop independence and social skills and building lasting friendships. Cub Camp is an ideal opportunity to introduce young campers to an amazing camp experience, while they explore many of the specialty camps available to them in future years.
READING/Writing LEARNING CLINIC
SUMMER LITERACY PROGRAM:
INSPIRING CONFIDENT READERS AND WRITERS
Sessions 1, 2, 3
The summer literacy programs are taught by literacy specialists at Hofstra's Saltzman Community Services Center. Campers spend a half day in the literacy clinic and a half day in recreation/swim.

Grades 2-5 as of September 2019.
Summer is an ideal time to nurture the joys of reading and writing in your child. Through books, readers enter new worlds, explore their interests, and fuel their imaginations. Through writing, young authors create their own worlds and discover their own voices. Strengthening literacy skills over the summer months builds learners' confidence and interest in reading and writing and prepares learners for the challenges of the upcoming school year. New York state-certified literacy specialists carefully craft unique learning experiences based on the interests of the learners, ensuring that reading and writing remain fun and meaningful. Taking campus field trips to inspire writing, utilizing the computer labs, or visiting the Hofstra University Museum of Art are just some of the ways that your child will tap into the rich resources of the University during this specialty program. Puppet shows, reader’s theater, and published poems or short stories are just a few examples of final writing projects children will produce. Whether you are looking to inspire and motivate your reluctant reader or writer or you are seeking enrichment for your bookworm or budding author, the Summer Literacy Program at the Reading/Writing Learning Clinic offers something special for every child.

Grades 6-10 as of September 2019.
School is out, and summer is finally here! Now is the perfect time for reading and writing according to your own interests and goals, with no school assignments and no homework. Can’t get enough of graphic novels and want to write your own graphic story? Looking for a chance to slip between the pages of a good story and find inspiration for your own tales? Perhaps a special interest will drive your research on our iPads or in our computer lab. There are no limits to your imagination and creative potential when reading and writing. New York state-certified literacy specialists will guide you through your journey in a supportive and engaging environment. Whether you are looking for an opportunity to develop your skills and strategies to successfully address the challenges of the New York State English Language Arts curriculum, or you are looking for an opportunity to explore the joys of reading and writing, there is something for every learner in the Summer Literacy Program.

MATH SKILLS
Session 3
Grades 2-10 as of September 2019.
Half day of Math Skills and half day of recreation/swim
Our certified teachers review and reinforce the concepts students need to approach the next school year’s math challenges with greater confidence. We apply math skills to real-world situations, such as shopping trips, preparing dinner, and going on vacation, and show campers how they can use those everyday interactions to keep their math skills sharp. Whether participants are straight-A students, struggling to keep up, or somewhere in between, they are sure to benefit from this fun and comfortable learning environment.

CODING, PROGRAMMING, AND APP DEVELOPMENT
SCRATCH PROGRAMMING
Session 1, 2, 3
Grades 2-5 as of September 2019.
Half day of Scratch Programming and half day of recreation/swim
Scratch’s puzzle-like design prevents young coders from getting frustrated and allows them to learn programming in a hands-on environment. Students program games and activities by snapping together code blocks instead of writing lines of code, as they gain the knowledge and skills needed to learn traditional programming languages such as Python, Java, and C++. Students also learn programming logic, improve math skills, and create games and activities using Scratch.

PYTHON: INTRODUCTION TO CODING
Session 1
Grades 6-10 as of September 2019.
Half day of Python and half day of recreation/swim
Python, used by companies such as Google, is a great language to learn. Students gain an understanding of what coding and programming is as they create, test, and build their own programs – and see how they can use coding in their everyday lives by building games and programming software to help with tasks such as homework!

AUGMENTED REALITY: CODE THE WORLD AROUND YOU
Session 2
Grades 6-10 as of September 2019.
Half day of Augmented Reality and half day of recreation/swim
Augmented Reality (AR) has many applications, ranging from learning software to mobile games. Students create a digital manipulation of the real world and other AR experiences using Android SDK. Students gain an understanding of object-oriented programming as they use an API to interact with a camera, are exposed to location-based programming, and learn the algorithms needed for image recognition and object detection.

JAVASCRIPT: WEB APPLICATION DEVELOPMENT
Session 3
Grades 6-10 as of September 2019.
Half day of JavaScript and half day of recreation/swim
Students construct interactive webpages using HTML, JavaScript, and CSS. In addition, they are exposed to analytics, search engine optimization, and web development. Class projects build communication and collaborative skills, and emphasize student interest – matching students who prefer the technical side with those more engaged in visually creative work.
FASHION DESIGN

FASHION DESIGN RUNWAY

Session 1
Grades 4-10 as of September 2019.
Half day of Fashion Design Runway and half day of recreation/swim

In this style-savvy course, budding fashion designers of all kinds learn about the latest trends in the fashion industry as they design their own unique line of garments and accessories. Using both traditional sewing machines and couture, as well as cutting-edge 3D printing and CAD technology, campers work with color, style, and pattern to create a variety of pieces, such as dresses, shirts, belts, bags, pillows, 3D printed buttons, and jewelry. As campers design and have fun together, they gain insight into the growing fashion industry, all culminating in a full-on fashionista runway show for invited family and guests, showcasing each camper’s unique finished fashion line.

COSTUME DESIGN STUDIO

Session 2
Grades 4-10 as of September 2019.
Half day of Costume Design Studio and half day of recreation/swim

Whether seen on television and in movies, the latest Broadway musical, or even New York Comic Con, the world of costume design has never been bigger. In this exciting new course, campers dive into this growing industry as they design their own real line of costumes, props, and accessories. Using a wide variety of modern and traditional tools, such as sewing and 3D printing, campers design their costumes inspired by their favorite characters in movies and games, famous historical figures, or something completely unique and original. Campers learn what it takes to be a successful costume designer, and will showcase their finished work at the end of the course for invited family and guests to see.

WHAT’S NEXT?

Continue your fashion design journey and expand your skill set in Costume Design Studio!
GIFTED PROGRAM
GIFTED PROGRAM
Sessions 1, 2, 3
Grades K-7 as of September 2019.
Full day of the Gifted program
Hofstra’s Gifted program is a full-day academic program designed to serve the educational needs of gifted students entering kindergarten through grade 7. This enrichment program employs inquiry-based learning techniques, independent study, group projects, and various other hands-on activities, making the experience different from a typical school curriculum. Throughout this program, campers receive enrichment in various academic areas that make their learning experience exciting and fulfilling. While campers are grouped based on age, classes are designed so that each camper can reach their full potential. Children are grouped with their intellectual peers and exposed to challenging and enriching curricula. Campers may participate in the Gifted program for two, four or six weeks each summer. Campers attending the Gifted program participate in four classes per day. Two classes are taught in the morning, and two classes are taught after lunch. Two recreational periods are held outdoors, and campers can use this time however they choose, with the participation and suggestions of counselors and teachers. Each camper receives instruction in the humanities (which may include classes such as, but not limited to, foreign language, American Sign Language (ASL), creative writing, and history), the sciences, and mathematics. Each course is taught by a teacher who is New York state-certified in that content area. Courses run for two weeks and are coordinated with the regular camp sessions. Course topics are not repeated from session to session. Assessments of student performance are an integral part of the program.

VIDEO PRODUCTION
YOUTUBE STUDIO
Sessions 1, 2, 3
Grades 6-10 as of September 2019.
Half day of YouTube Studio and half day of recreation/swim
Learn the skills to become a YouTube sensation! YouTube is the largest, most successful video platform on the web, and in this beginner-level course designed for first-time video makers, campers go from being YouTube viewers to YouTube creators. Campers learn the fundamental skills and techniques of video recording, editing, lighting, screen capture, and audio production, and create their own videos ranging from “How-To” videos to commentary or “Let’s Play” videos, and even basic animation. Along with a bevy of technical skills and finished products, campers come away reinforced in their public speaking and presentation skills. Student work is not published to YouTube during camp. Students receive instructions on how to publish their work at home with a parent’s permission.

REACH PROGRAM
REACH
Sessions 1, 2, 3, 4
Grades K-10 as of September 2019.
The REACH program is an exciting opportunity for campers with special needs to experience Hofstra Summer Camps with peers. It provides a safe and positive setting for campers with disabilities to be included in camp activities and enjoy peer interactions, with support and/or modifications when necessary (not applicable to Sports Academy Camps). The REACH program provides a perfect setting for ongoing interventions during the summer break. Campers have ample opportunities to socialize and enhance social and daily living skills.

REACH FOR TEENS
Sessions 1, 2, 3
Grades 10-12 as of September 2019.
Transitioning from teenager to adult is challenging for everyone, and individuals with autism or other special needs may struggle more with this already difficult transition. The focus of the Hofstra Summer Camps REACH for Teens program is on helping individuals with special needs become increasingly independent, develop better social skills, and improve daily living skills. Campers gain knowledge and confidence by taking field trips to local establishments such as the post office and the bank, and by participating in structured social activities. In the first year, participants explore various job fields and learn about general job and social skills, such as writing resumes and practicing for job interviews. The second and third years of the program focus on more specific job exploration in a field of interest to the participant and provide campers with opportunities to work on and off campus. Throughout the program, Hofstra Summer Camp staff assess how well campers work in a group, and their interest in and comprehension of various tasks. Each camper is also assigned a knowledgeable coach/mentor dedicated to the camper’s happiness and success.
ROBOTICS

LEGO EV3 ROBOTICS
(Grades 2-10) Session 1
(Grades 2-5) Session 3

SPHERO ROBOTICS
(Grades 2-10) Session 2

LEGO AND LABVIEW ROBOTICS
(Grades 6-10) Session 3

Half day of Robotics and half day of recreation/swim

Campers build and program their robots to move, spin, throw, react, and compete. In Session 1, campers use the renowned Lego Mindstorms EV3 robotics kits to build and program their robots. Campers work in small teams of two to four, strengthening their teamwork and cooperation skills. Together, they program their robots to see, hear, and perceive their surroundings using the light, touch, and ultrasonic sensors. In Session 2, campers use the cutting-edge Sphero Robotics kits (the same technology used in the new Star Wars BB-8 droid) to program their motorized robots with custom remote controls, reactive collision detection, color lighting effects, and much more! In Session 3, campers use the professional, industry-grade LabVIEW robotics software in conjunction with Lego Mindstorms to build and program advanced robots. Campers put their newly acquired skills to work in exciting class challenges, including obstacle courses and races.

STEAM (Science, Technology, Engineering, Arts, and Math)

SUPER HERO STEAM CLUB
Sessions 1, 2, 3
Grades 2-5 as of September 2019.

Half day of Super Hero Steam Club and half day of recreation/swim

Super hero fans: ASSEMBLE! In this top-secret, classified course, campers are immersed in the universe of their favorite Marvel and DC super heroes, and take part in exciting new science, art, and technology projects each and every day! While making friends and allies, campers have the opportunity to use cutting-edge technology as they design their own digital interactive super heroes and villains; create original 3D printed logos; design unique trading cards, costumes, and gadgets; construct a virtual super hero headquarters, and so much more! Along with creating their projects, campers learn about the real science behind popular super hero characters and abilities, participate in daily trivia challenges and activities, and even discover the super hero inside themselves! Students take home all of their creative projects for friends and family to enjoy. All super heroes and sidekicks are invited to learn and have fun together this summer!

POKÉMON STEAM CLUB
Sessions 1, 2, 3
Grades 2-5 as of September 2019.

Half day of Pokémon STEAM Club and half day of recreation/swim

Pokémon have invaded Hofstra Summer Camps! In this exciting course, young campers and Pokémon trainers take part in daily STEAM (Science, Technology, Engineering, Arts, and Math) projects revolving around the fantastic world of Pokémon! Campers have the opportunity to work with state-of-the-art technology, including 3D printers, drawing tablets, and game design software as they design their own Pokémon characters, cards, and games, learn about Pokémon types and statistics, and even create a custom working Pokéball! As campers share their excitement for the world of Pokémon with their classmates and newfound friends, they are making important connections to the real world around them, becoming naturally excited about learning, and coming away with several finished projects to share with family and friends. All Pokémon fans are invited to learn and have fun together this summer!

For more detailed program descriptions, visit hofstra.edu/camp, call 516-463-CAMP, or email ce-camps@hofstra.edu.
LEARNING INSTITUTE

VIDEO GAME DESIGN

Game Builders Academy (GBA) provides a wide array of Video Game Design courses for all ages and skill levels. While developing their games, campers apply and strengthen their math, logic, communication, concentration, and critical thinking skills, as well as gain a great deal of self-confidence! By the end of each course, campers acquire a working knowledge of the technical and artistic concepts necessary for designing video games, and receive their own finished game to bring home for friends and family to play! Campers who complete three Video Game Design courses earn a special video game designer certificate and business card.

3D PRINTING AND ANIMATION

Sessions 1, 2, 3
Grades 2-10 as of September 2019.
Half day of 3D Printing and Animation and half day of recreation/swim

Campers have an incredibly fun time creating their own 3D art, including 3D characters, environments, and animations – with no prior drawing or art experience required – and bring their creations into the real world using cutting-edge 3D printers! Whether they’ve seen it in video games, at the movies, or on TV, 3D animation is everywhere, and campers will be breaking into the industry using state-of-the-art software, MAXON’s Cinema 4D – the same software used by professionals to create many of the animated films they see on the big screen! By the end of the course, each camper will have created a multitude of digital 3D models and animations complete with textures, lighting, and other effects, as well as one or two 3D printed models to bring home for friends and family to see. Also, upon completion of the course, each camper has the opportunity to take home an exclusive student copy of the powerful Cinema 4D software for free!

MOTION CAPTURE ANIMATION

Sessions 1, 2, 3
Grades 6-10 as of September 2019.
Half day of Motion Capture Animation and half day of recreation/swim

Using state-of-the-art face-tracking motion capture technology, campers not only design their own characters, but have them animate in sync with the camper’s own real-life movements and facial expressions. While learning about this revolutionary movement in the animation industry, campers gain a great foundation in the history of 2-D animation, from Disney classics all the way to the cartoons and animated films of today, including projects in character design, voice acting, lip syncing, and physics simulation. Along with the new Adobe Character Animator software, campers have the opportunity to work with additional art software, including Adobe Photoshop and professional Wacom drawing tablets to bring their ideas to life. By the end of the course, campers will have created multiple finished animated shorts and cartoons to take home for friends and family to enjoy.

VIDEO GAME DEVELOPMENT

VG1: GAME DESIGN FOUNDATIONS

Sessions 1, 2, 3, 4
Grades 2-10 as of September 2019.
Half day of Game Design Foundations and half day of recreation/swim (except Session 4, which is a full-day program)

In this introductory-level course, campers learn the foundations of video game development using industry-standard GameMaker software! Campers design and program a fully functional video game from start to finish, complete with unique characters, levels, backgrounds, and a wide array of custom features. Through the development of their games, campers learn about the artistic and technical aspects of creating video games, and apply basic math and science concepts to code their games to life in an extremely fun way! Each camper comes away with a finished PC video game able to be shared with friends and family, as well as a huge boost in self-confidence knowing that they can make games themselves!

WHAT’S NEXT?

In the following VGX camps, campers learn to design and code their own brand-new game each session using three of the most high-end, industry-revered game engines: Unity 3D, RPG Maker MV, and Unreal Engine 4. In addition to taking home their finished games, each one of these courses will vastly expand the skill set of any young professional looking to break into the industry.

VGX: VR/AR UNITY GAME DESIGN

Session 1
Grades 6-10 as of September 2019.
Campers code their own fully 3D games with Unity 3D’s powerful C# language, the same software used to make games such as Cuphead and Pokemon Go! As they develop their games, campers learn to utilize the revolutionary virtual reality (VR) and augmented reality (AR) features of the engine, and test their games using real Oculus Rift VR systems and other cutting-edge technology.

VGX: RPG MAKER GAME DESIGN

Session 2
Grades 6-10 as of September 2019.
Campers use the popular RPG Maker MV engine to create one of the most critically acclaimed genres of video games: role-playing games. Analyzing the rich stories of games such as Undertale and the Final Fantasy series, campers create games with sprawling maps and tile sets, story-driven characters with dialogue, sophisticated battle systems, event-based coding, and more.
VGX: UNREAL ENGINE GAME DESIGN

Session 3
Grades 6-10 as of September 2019.
Half day of VGX: Unreal Engine Game Design and half day of recreation/swim
Camper work in the powerful Unreal Engine 4, the same software used to make the groundbreaking Battle Royale game, Fortnite. The latest Unreal Engine 4 provides unmatched high-end graphical capabilities and cutting-edge physics systems, which campers take full advantage of as they design and code their own games with dynamic 3D terrain, lighting, textures, and more.

VGP: VIDEO GAME DESIGN PROFESSIONALS

Sessions 1, 2, 3, 4
Grades 8-10 as of September 2019 (Grades 8-12 for Session 4).
Half day of Video Game Design Professionals and half day in another program of your choice (except Session 4, which is a full-day program)
A new game design course each session! For young professionals who are serious about creating their own video games and breaking into today’s video game industry, this in-depth course offers students an unprecedented opportunity to learn the skills and techniques needed to succeed, and results in each student designing and coding multiple finished games across four sessions of camp. Each session offers a brand-new game engine to learn about and experience, enabling campers to repeat VGP all summer or jump in for any session. During Sessions 1, 2, and 3, campers must choose an additional afternoon program; there is no recreation or swim during these sessions.

RMC: ROBLOX AND MINECRAFT CREATORS CLUB

Sessions 1, 2, 3, 4
Grades 2-10 as of September 2019.
Half day of Roblox and Minecraft Creators Club and half day of recreation/swim (except Session 4, which is a full-day program)
Creators unite! In this course, campers utilize the groundbreaking Roblox and Minecraft creation tools to build and code amazing things together in their own connected virtual space. Campers develop their own games, interactive objects, vast 3D worlds and more, utilizing the LUA programming language of Roblox Studio and the collaborative building tools of Minecraft. Education Edition. Working both individually and as a team, campers participate in daily challenges, coding activities, and building competitions as they have fun and learn together with new like-minded friends.

VPA: VIRTUAL PAINTING AND DIGITAL ARTS

Sessions 1, 2, 3
Grades 2-10 as of September 2019.
Half day of Virtual Painting and Digital Arts and half day of recreation/swim
In this innovative new course, young artists get a crash course in the most cutting-edge digital tools and technologies available today, including the explosive new field of virtual reality art. Using state-of-the-art Oculus VR technology, campers paint wondrous works of art within a captivating virtual 3D space, which must truly be seen to be believed. In addition, campers work with a plethora of industry-leading tools and mediums, such as Adobe Photoshop, Google Tiltbrush, Paint3D, Wacom drawing tablets, TinkerCAD, and Pixel/Voxel art. Whether they aspire to be a classic artist, graphic designer, cartoonist, game artist, or 3D designer, campers will gain great insight into the industry as well as receive a digital portfolio of all their finished works.

For more detailed program descriptions, visit hofstra.edu/camp, call 516-463-CAMP, or email ce-camps@hofstra.edu.
HOFSTRA PRIDE — The exciting action and competitive spirit of Hofstra Pride athletics is a significant part of campus life. Hofstra sponsors 17 NCAA Division I intercollegiate sports and competes in the Colonial Athletic Association and the Eastern Intercollegiate Wrestling Association.

Hofstra's winning coaches and players host our Sports Academy Camps for serious young athletes who want to spend the full day immersed in the sport of their choice. Our Sports Academy Camps will teach your child the skills needed to succeed in elementary school, middle school, high school, or collegiate sports programs. Campers are grouped by age and ability.

All Sports Academy Camps are now one-week programs with discounted pricing and optional transportation for an additional fee. Lunch is included.

Sports Academy Camps are open to any and all entrants (limited only by number, age, grade, and/or gender).

JASON PASION TENNIS CAMP

Grades 7-12 as of September 2019: August 12-16

This intensive training week is designed for players competing in or striving to compete in USTA regional, sectional, and national tournaments; those interested in playing tennis in middle school, high school, college, and beyond; and players at any level who want to be the best they can be. Hofstra Tennis Head Coach Jason Pasion directs this week’s programming and is joined by his staff of current and former NCAA collegiate players. Players have an opportunity to compete in a USTA-sanctioned junior tournament to be held at Hofstra University the same week.

Highlights:
• Athletic and Performance Training
• High-Intensity Drills
• Footwork
• Mental Toughness Training
• Point Strategy
• Video Analysis
• Match Play
CHRISTINE A. NOWIERSKI (CAN) CHEER CAMP

Grades 2-12 as of September 2019: July 1-5, July 8-12, August 12-16

This summer, new and experienced cheerleaders have the opportunity to train with Christine A. Nowierski, head coach of Hofstra Cheerleading, and her coaching staff. Campers learn dances, jumps, stunts, pyramid building, and gymnastics.

About the Hofstra Cheerleading Team:

- 10-time UCA Small Coed Division I National Champions
- In years past, first-place finisher in national Cheer and Chant Competition and awarded Best Overall and Most Collegiate by UCA.
- Two-time International and six-time World University champions

Kelly Olsen Dance and Kickline Academy teaches a variety of dance styles, including jazz, hip-hop, and kick, with an emphasis on style, technical execution, flexibility, jumps, turns, and performance. All dancers are evaluated by the staff and assigned to a level based on experience and skill.

About the Hofstra Dance Team:

- National Champions in 2018
- Nationally ranked for over 22 years
- Five-time National Champions
- World Champions in the Double Pom and Team Pom divisions
- Nationally ranked #1 in Pom and #3 in Jazz
- Ranked #1 among college dance teams on Long Island

For more detailed program descriptions, visit hofstra.edu/camp, call 516-463-CAMP, or email ce-camps@hofstra.edu.
DENNIS PAPADATOS BOYS WRESTLING CAMP

“Emphasis on fundamentals and instruction”

Grades 2-12 as of September 2019: July 15-19

Our Boys Wrestling Camp is geared toward wrestlers who strive to learn the fundamentals of the sport. We teach and practice essential drills and techniques for beginning and advanced wrestlers. The camp takes place at Hofstra’s Teague Ryan Wrestling Complex, one of the finest facilities in the Northeast.

About the Hofstra Wrestling Team:

• Hofstra Wrestling sent two wrestlers to the NCAA Championships at Madison Square Garden and produced a 2018 All-American Wrestler.
• Coach Papadatos is a former Hofstra Pride wrestler and two-time NCAA national qualifier.
• Coach Papadatos is a former assistant wrestling coach with the North Carolina Tar Heels.
• Former UFC middleweight champion Chris Weidman was a two-time Division I wrestling All-American at Hofstra.

EMILY MANSUR VOLLEYBALL CAMP

Grades 2-12 as of September 2019: July 15-19, July 22-26, July 29-August 2

Taking place in the air-conditioned Mack Physical Education Center, this camp helps players improve their age-specific fundamental volleyball skills, such as passing, setting, attacking, serving, defense, and blocking through games and competition. Participants receive individual and team instruction to help them build a strong foundation of volleyball skills and techniques while having fun and making friends in a positive, healthy atmosphere.

About the Hofstra Volleyball Team:

• 2018 CAA Champions
• 2018 NCAA Tournament participants
• Emily Mansur was named 2018 CAA Volleyball Coach of the Year.
• Coach Mansur is the owner and director of Club Ace Long Island (CALI), one of the top club volleyball programs on Long Island.
• In 2018, 14 Pride players were named to the CAA Commissioner’s Academic Honor Roll.
JOE MIHALICH BOYS BASKETBALL CAMP
“A camp for instruction and fundamental training”

Grades 2-7 as of September 2019: July 1-5, July 8-12, July 15-19, July 22-26, July 29-August 2
Grades 2-12 as of September 2019: August 5-9, August 12-16

Taking place in Hofstra’s state-of-the-art, air-conditioned Mack Sports Complex – the same arena that our NCAA Division I teams use – this basketball camp is excellent preparation for basketball season, getting players in shape and improving their competitive skills. Players focus on defense, dribbling and ball handling, reading screens, passing, shooting, moving without the ball, one-on-one jab series, and developing a routine. Daily competitions allow players to put new techniques to work.

About the Hofstra Men’s Basketball Team:
• Head Coach Joe Mihalich has been a head coach for 21 seasons, six of them at Hofstra, and has led the team to over 350 wins, and has produced multiple CAA Players of the Year.
• Assistant Coach Speedy Claxton was an NBA champion with the San Antonio Spurs.
• Camp Director Colin Curtin, special assistant to the head coach, is the two-time head coach of Overseas Elite-The Basketball Tournament champions.
• Hofstra Men’s Basketball has 15 former players playing professional basketball.

Boys and Girls Basketball Camps: “Skill of the Day” focuses on a different fundamental skill each day, PLUS, each week, players enjoy a skill development clinic from a Division I Hofstra coach.

KRISTA KILBURN-STEVESKEY GIRLS BASKETBALL CAMP

Grades 2-9 as of September 2019: July 22-26
Grades 2-12 as of September 2019: July 29-August 2, August 5-9

For our Girls Basketball Camp, the Hofstra University Women’s Basketball team and our NCAA Division I coaches demonstrate techniques and help develop campers’ individual and team skills in a fun, supportive, and positive environment. We encourage all participants to become better players by improving fundamental basketball skills and learning what it takes to reach the next level.

Highlights:
• Stretching and warm-up exercises
• Stations – breakdown of fundamental skills
• Small groups, divided by grade level
• Position breakdown/free throws
• Swim sessions
• Guest speakers
• 5-on-5 games and competitions (hot shot, knockout)

For more detailed program descriptions, visit hofstra.edu/camp, call 516-463-CAMP, or email ce-camps@hofstra.edu.
HOFSTRA UNIVERSITY SOFTBALL CAMP

Grades 2-12 as of September 2019: July 29-August 2, August 5-9

Under the direction of Hofstra Softball Assistant Coach Julie Meyer, campers learn age-appropriate techniques for hitting, fielding, throwing, catching, base running, and team play while having fun and improving their self-confidence in a friendly team environment. Campers come away with a solid foundation of tried-and-true softball techniques to bring to the field.

About the Hofstra Softball Team:
• Hofstra Softball is a nationally recognized program.
• Camp Director Julie Meyer was part of the NFCA Northeast region’s Coaching Staff of the Year.
• Coach Meyer was previously on the softball staff at the University of Mississippi and the University of Memphis.
• Hofstra Softball has compiled 29 consecutive winning seasons, and the 2018 team set records for home runs, RBIs, and runs scored.
• In 2017, Pride Softball produced the CAA Scholar-Athlete of the Year and a member of the CAA All-Academic team.
• The Pride 2018 team won the CAA Softball Championship and advanced to the NCAA Regional Tournament.

RICHARD NUTTALL AND SIMON RIDDIOUGH SOCCER CAMP

Grades 2-12 as of September 2019: July 1-5, July 8-12, July 15-19, July 22-26, July 29-August 2, August 5-9
Grades 7-12 as of September 2019: August 12-16*

This challenging camp helps players understand the fundamentals of soccer using a vast array of game situations. Campers train with not only Hofstra Men’s Soccer Head Coach Richard Nuttall and Hofstra Women’s Soccer Head Coach Simon Riddiough, but also many of Hofstra’s Division I players. The training doesn’t stop there – many expert coaches from all over the United States and Europe are on hand as well. These coaches believe that development occurs by doing, encouraging soccer instincts through enjoyable, small-sided games and game-related learning in a positive environment.

*This week of camp (August 12-16) is a speed and agility jump start for players’ school/travel team tryouts. Coaches emphasize increasing psychological game preparation skills while highlighting ball-related fitness with small-sided game play. Players will be challenged both technically and tactically to reach their full potential.

About the Hoftra Men’s and Women’s Soccer Teams:
• Coach Nuttall has coached at Hofstra University for the past 30 seasons.
• Coach Riddiough has guided Hofstra University to three CAA Championships.
• Coach Riddiough was ECAC 2017 Coach of the Year.
• Nuttall and Riddiough have more than 45 combined years of college soccer coaching experience.
• The Hofstra Soccer Stadium features a 120-yard x 74-yard turf field.
• Both Nuttall and Riddiough have had careers as professional soccer players.
SETH TIERNEY BOYS LACROSSE CAMP
“Top-level instruction and teaching”
Grades 2-12 as of September 2019: July 15-19, July 22-26
With full use of James M. Shuart Stadium and the famed Howdy Myers Pavilion, this camp teaches the fundamentals of individual, group, and team lacrosse skills while stressing the importance of sportsmanship, teamwork, and a strong work ethic. Campers are placed on teams based on age and ability, but are then adjusted according to size, maturity, and skill level. Players learn the fundamental aspects of dodging, passing, catching, shooting, individual defense, goalie play, and face-off technique, as well as team skills like team offense, team defense, riding, clearing, and transition play.

About the Hofstra Men’s Lacrosse Team:
• The 2018 Pride defense ranked second in the country.
• Coach Seth Tierney is in his 13th season and has led the Pride to four NCAA championship playoff appearances.
• Coach Tierney has coached seven all-Americans and two dozen all-conference players.
• Shuart Stadium was the site of the 2017 and 2018 NCAA Men’s Lacrosse Quarterfinals.

SHANNON SMITH GIRLS LACROSSE CAMP
“Full fundamental instruction”
Grades 2-8 as of September 2019: July 8-12
With full use of James M. Shuart Stadium and the famed Howdy Myers Pavilion, this exciting camp helps players improve their fundamental lacrosse skills with individual instruction, team practice, and games. Hofstra coaches and players help campers improve their catching, throwing, stick handling, dodging, shooting, draws, goal keeping, transition, groundballs, defensive and offensive strategies, and other techniques in a challenging, fun, and positive environment.

About the Hofstra Women’s Lacrosse Team:
• Coach Smith was inducted into the Suffolk Sports Hall of Fame in 2018.
• In 2017, Coach Smith was inducted into the Northwestern University Hall of Fame.
• Coach Smith received the 2011 Tewaaraton Award – given annually to the top American college lacrosse player – while she was a student at Northwestern.
• Smith was a three-time All-American and won three national titles.
• The Pride have been to three CAA Championship Tournaments during Smith’s tenure.
• Margiotta Hall has a theater used for film screenings and group meetings.

For more detailed program descriptions, visit hofstra.edu/camp, call 516-463-CAMP, or email ce-camps@hofstra.edu.
John Russo, Director • Bob Hirschfield, Founder

Players ages 7-17

July 8-12 • July 15-19 • July 22-26 • July 29-August 2 • August 5-9 • August 12-16

(One through six weeks of ability-level instruction)

9 a.m. to 4 p.m. daily
Hofstra University’s Baseball Complex, North Campus

Now in its 44th year and ranked by Baseball America as one of the top 5 baseball schools in the country, NYBA’s summer program has launched the collegiate and major league careers of hundreds of outstanding players.

NYBA features:
• Outstanding facilities, including a recently updated turf field and the 80-square-yard Hofstra Indoor Practice Facility for use in inclement weather
• Multiple batting cages, teaching stations, and practice areas
• Expert guest instructors from collegiate and professional ranks
• A coach-to-player ratio of 1-to-6

Players are initially grouped by age, evaluated by the staff, and then regrouped based on their ability. Daily instruction stresses the fundamentals of hitting, throwing, fielding, base stealing, speed development, and reaction training. Players select and take part in a daily position workshop (pitching, catching, and infield). Players also participate in daily instructional games. Emphasis is placed on defensive and offensive play and, most important, team effort.

NYBA “Little Tots” Baseball for players ages 4-6

Monday, Tuesday, and Wednesday, July 1-3; 10 a.m.-1 p.m.
Hofstra Indoor Practice Facility, North Campus
Coach: John Russo, Hofstra Baseball Head Coach
Instructional Coordinator: Michael McCabe

Fee for three-day session: $125 (includes snacks and beverages)

Introduce your young athlete to the great game of baseball — America’s pastime! This program emphasizes the fundamentals of baseball, including coordination and motor development, as well as physical fitness, hand-eye coordination, teamwork, and developing positive self-esteem. Coaches cover the basics of catching, fielding, batting, and throwing. Parents are welcome to stay and observe.

NYBA camps are open to any and all entrants (limited only by number, age, and grade level).

For more detailed program descriptions, visit hofstra.edu/nyba, call 516-463-CAMP, or email ce-camps@hofstra.edu.
OVERNIGHT AND TRAVEL CAMPS

Our Overnight and Travel Camps offer campers the opportunity to expand their horizons, increase their independence, and experience new things. All camps are carefully supervised by experienced camp directors and staff.

OVERNIGHT CAMP
Session 4
Grades 4-10 as of September 2019.

When the camp day ends, the fun continues with our popular Hofstra Overnight Camp. All campers in grades 4 through 10 who enroll in a Session 4 program can experience the fun of staying overnight in Hofstra dorms. Campers enjoy an extended experience – including a DJ party, scavenger hunt, video game night, movie night, and barbecue – and have the opportunity to make even more new friends, while creating lifelong memories in a safe and nurturing environment. Note: Campers must register for a Session 4 program to be eligible for this exciting experience.

TRAVEL CAMP
Session 4
Grades 2-10 as of September 2019.

Each day, the Hofstra bus leaves to explore a different exciting destination in the New York metropolitan area. Past trips have included great locations such as Luna Park, Lake Compounce, Country Fair Amusements, Atlantis Marine World, New York Hall of Science, Fire Island, Boomers Amusement Park, Dave & Buster’s, fishing, and Adventureland. Experienced camp directors and staff guide the trips, and the tuition includes all admission fees, materials, lunch, and round-trip transportation from Hofstra. Note: All trips are subject to change.

TRAVEL PLUS CAMP
Session 4
Grades 6-10 as of September 2019.

Travel Plus Camp stretches the boundaries of trips, fun, and imagination. With early drop-offs and late returns (and the option to stay overnight in Hofstra dorms), campers in grades 6 through 10 can explore new places farther away from campus. Past trips have included locations such as Medieval Times, Madame Tussauds, Liberty Science Center, Six Flags Great Adventure, Bronx Zoo, Statue of Liberty, and a Major League Baseball game. Experienced camp directors and staff guide the trips, and the tuition includes all admission fees, materials, lunch, and round-trip transportation from Hofstra. Note: All trips are subject to change.

For more detailed program descriptions, visit hofstra.edu/camp, call 516-463-CAMP, or email ce-camps@hofstra.edu.
PRECOLLEGIATE PROGRAMS

Attention Teens: Make the Most of Your Summer!
Can’t decide what to do on your summer break? Consider Hofstra Continuing Education’s exciting and distinctive Precollegiate Career Discovery Institute programs. Make the most of your summer as you gain knowledge and skills, explore possible career choices, make new friends from throughout Long Island, and get a taste of college life! Participants who satisfy the program requirements receive a certificate of completion.

Unless otherwise indicated, all programs take place from 9 a.m. to 4 p.m. Discounts are available for some precollegiate courses. NOTE: There are no classes on July 4.

All classes marked with an asterisk (*) take place at Nassau BOCES locations.

For more information or to register, visit ce.hofstra.edu/precollege, call 516-463-5373, or email ce-precollegiate@hofstra.edu.

AVIATION

AVIATION ACADEMY*
July 1-12
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.
Soar into the exciting field of aviation! Practice flying in our state-of-the-art flight simulator. Learn about weather data, flight planning, and air traffic control, as well as employment opportunities.

BUSINESS

BUILDING AN EMPIRE: THE TEEN ENTREPRENEUR STARTUP ACADEMY
July 22-26
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
Through our cutting-edge curriculum, students are mentored on how to successfully start a business from the ground up. To create a comprehensive business plan, students learn how to perform both industry and competitive analyses, generate a name, brand, customer profile, and marketing plan for their businesses, and learn about finances. Students tour local businesses and speak with company executives. On the final afternoon of the program, the new “teen entrepreneurs” present their business ideas to a panel of Hofstra instructors and industry professionals.

CONSTRUCTION TRADES ACADEMY:
INTRODUCTION*
July 1-12
Grades 7-11 as of September 2019.
Transportation and lunch are included in program tuition.
Campers learn the basics of the carpentry, tiling, plumbing, and electrical trades, including how to use basic tools in each of these areas. For the carpentry aspect of the program, campers work together to build, deliver, and install needed structures for the Double D Bar Ranch, a nonprofit organization dedicated to helping abused or unwanted farm animals. Students also complete personal projects to take home that showcase their new talents and incorporate skills they have learned. This is the perfect camp for students who want to work with their hands and test out the trades while providing a service to the community.

CONSTRUCTION TRADES ACADEMY:
PROJECT-BASED*
July 1-12 and July 15-26
Grades 7-11 as of September 2019.
Transportation and lunch are included in program tuition.
Campers learn skills necessary for residential carpentry, including rough and fine work. These skills allow students to perform basic home repairs either to save money or to make money. Interior carpentry work combines hand-eye coordination, reading comprehension, and math skills. Students use the skills they have learned to construct a folding portable table and an Adirondack chair.

INTRODUCTION TO FINANCE AND INVESTMENT FOR TEENS
July 2 and 3
Grades 8-12 as of September 2019.
Lunch is included in program tuition.
This program introduces teens to the world of finance, including basic financial concepts and analytical techniques. The course also discusses how the stock market functions in our economy and how a business’s financial goals can maximize shareholder wealth. To gain an understanding of financial markets and learn how to interpret accounting statements and understand investment theory and strategy, students manage their own portfolio of stocks using a stock market simulation game.
CULINARY ARTS

CULINARY ARTS ACADEMY: INTRODUCTION*
July 1-12 and July 15-26
Grades 7-11 as of September 2019.
Transportation and lunch are included in program tuition.

Begin your culinary adventure! Explore culinary cuisine from around the world while learning proper cooking techniques, including safety, knife skills, and food preparation. Practice chocolatiering and pastry arts with a professional pastry chef.

CULINARY ARTS ACADEMY: INTERMEDIATE*
July 1-12 and July 15-26
Grades 7-11 as of September 2019.
Transportation and lunch are included in program tuition.

Campers expand on the fundamentals of cooking, learn skills and cooking techniques, and explore both regional and international dishes. Students learn to make Italian, Mexican, Chinese, German, and American cuisine.
Prerequisite: Culinary Arts Academy: Introduction

CULINARY ARTS ACADEMY: ADVANCED*
July 15-26
Grades 7-11 as of September 2019.
Transportation and lunch are included in program tuition.

This is an advanced class for students who have completed the Culinary Arts Academy: Introduction and Intermediate programs. Students learn a variety of skills, including methods for mixing and accurate measuring, baking science, and artisan bread baking; how to make yeast dough, breakfast pastries, and more; and how to prepare various fillings and icings.
Prerequisites: Culinary Arts Academy: Introduction and Culinary Arts Academy: Intermediate

LAW AND CRIMINAL JUSTICE

CRIMINAL JUSTICE ACADEMY: INTRODUCTION
July 22-26
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.

You have the right to remain educated! Discover how to process a crime scene and learn proper procedures, including fingerprinting, handcuffing, and accident reporting using the latest technology.

PRECOLLEGIATE LAW INSTITUTE
August 5-9
Grades 6-12 as of September 2019 • 9:30 a.m.-3:30 p.m.
Lunch and field trips are included in program tuition.

This exciting weeklong course exposes young adults to some of the careers available in the field of law. Students work as prosecutors or members of a defense team on a criminal mock trial. The course teaches and reinforces writing, organizational, presentation, and collaboration skills. In addition, presentations are given by guest speakers, including a former assistant district attorney and a retired police arson detective.

The week concludes with students participating in a “behind-the-scenes” morning tour of the Nassau County Supreme and County Courthouses, as well as learning about jury selection and how the courtrooms are designed. Students see firsthand the variety of positions required to staff the New York State Unified Court System.

After lunch, students present their criminal mock trial, which is presided over by a retired justice of the Supreme Court. The mock trial is videotaped, and an edited copy is mailed to each participant.

For more information or to register, visit ce.hofstra.edu/precollege, call 516-463-5373, or email ce-precollegiate@hofstra.edu.
PHOTOGRAPHY, GRAPHIC DESIGN, MUSIC, AND COMPUTER HARDWARE

DIGITAL PHOTOGRAPHY WORKSHOP
July 22-26
Grades 6-11 as of September 2019. • 9:30 a.m.-3:30 p.m.
Lunch is included in program tuition.
No matter what their skill level in photography, this five-day workshop helps students get to the next level. Students learn about history, subject matter, composition, lighting, camera functions, lens selection, Photoshop, printing, and presentation. The beautiful Hofstra campus inspires students to find their photographic eye.
Note: Students must bring a digital camera to each class.

GRAPHIC DESIGN*
July 1-12
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.
The Graphic Design program is an introduction to the career paths of a graphic designer. Campers will learn the basics of the areas of design: printing processes, principles of design, color theory, typography, and logo designing. They will discover career options available in the graphics and advertising industries while having fun creating their own projects.
Campers will be introduced to Apple computers and Adobe Creative Cloud design programs.

INTRODUCTION TO COMPUTER HARDWARE AND ESSENTIALS*
July 1-12
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.
Students learn the basics of computer components, repair, upgrade, maintenance, operating systems, and virus protection. Students also learn about information technology (IT) career paths and how computers are an essential tool in our daily lives. This course is a combination of hands-on and lecture-based activities, including the exploration of popular word processing applications.

SPORTS JOURNALISM
SPORTS WRITING, BLOGGING, AND SOCIAL MEDIA
July 9 and 10
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
In this workshop, students learn how to write national and local radio updates, organize stories, use reliable websites, write on deadline, compose a script for a television sportscast, compose words to fit with video, and utilize shot sheets during a highlight-driven show. Students experiment with blogging as they learn to blog effectively and creatively. The workshop also discusses both the effectiveness and potential pitfalls of Twitter, Facebook, Instagram, Periscope, and other social media tools.

PREPARING AND CONDUCTING SPORTS-RELATED INTERVIEWS
July 2
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
It takes organization and preparation to conduct a great interview. In this workshop, students learn how to formulate good questions – and follow-up questions – and how to organize their interview notes. Using memorization techniques, students gain the confidence to be flexible during the interview.

SPORTSCASTING RESEARCH AND PREP
July 8
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
During this workshop, students engage in searching sports websites (college and professional) for information as they craft information sheets and build charts for sports broadcasts. They also learn how to conduct professional phone interviews and how to obtain additional information on players, teams, and programs.

TELEVISION SPORTS REPORTING
July 11 and 12
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
Being a sports reporter may just be the most difficult on-air television job. Asking the right questions in order to elicit the answers viewers are looking for takes skill and practice. Most sports reporters get only a minimal amount of TV air time . . . so they want to make it memorable. We discuss the different career opportunities as a television sports reporter, including as a sideline reporter or network sports reporter.

SPORTS TELEVISION HOSTING AND ANCHORING
August 5 and 6
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
In this hands-on seminar, students learn how to read from a teleprompter; how to be comfortable doing a live interview, whether in-studio or via satellite; and how to look into a camera and have a conversation with viewers – and how to make it seem natural. Students learn all this and more by writing copy, reading it on-camera, interviewing guests, and having it all recorded in a professional television studio. Students leave with a complete video for their demo reel.

Want to earn a certificate in sports journalism?
To learn more, visit ce.hofstra.edu/sportscasting or call Michael Chisena at 516-463-5909.
INTRODUCTION TO SPORTSCASTING FOR TEENS
July 15-19
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
Taught by professional sportscasters with decades of experience in New York television and radio broadcasting, this interesting and fun course teaches students the fundamentals of sportscasting, including interviewing, writing, announcing, commentary, and professional presence. In this course, students receive hands-on experience and in-depth critiques of their work in the classroom and in the field, as they hone their skills in TV and radio play-by-play, anchoring, and reporting. Upon completion of the course, students receive an honest evaluation of their potential, recommendations for next steps, and a demo reel of their on-camera work.

INTERMEDIATE SPORTSCASTING FOR TEENS
July 29-August 2
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
In this course, students take the next step and learn more advanced techniques, such as “backpack journalism” – where they report, shoot, edit, and appear on camera in their own field report. They learn professional research techniques and how to develop their own unique writing style and “voice,” produce in-depth stories about sports controversies and current events, and create moving human interest features about sports heroes. They also learn about the different roles involved in staffing a sports broadcast, and what career options are available. Guest speakers and field trips add to the experience, and students leave the course with a demo reel of their work.

INTRODUCTION TO SPORTS JOURNALISM FOR YOUNG WOMEN
July 25 and 26
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
This program will be taught by seasoned journalist, host, and broadcaster Amanda Pugliese. Students learn the fundamentals of sports journalism and broadcasting such as research and preparation, writing, basic interview techniques, game and show preparation, and on-camera presentation. Students work with the instructor and our staff to hone their reporting skills for both TV and radio. Upon completion of the course, students receive an honest evaluation of their potential and recommendations for next steps, and they leave with a complete video for their demo reel.

VOCAL COACHING FOR TEENS
July 22
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
Students have the opportunity to fine-tune their on-air voice as they develop their broadcast personality. The class focuses on inflection, projection, clarity, and emphasis, all while working to deliver a message in a convincing, powerful, and clear way. Understanding that becoming a sportscaster is far more than just being knowledgeable about the game is the first step in becoming a true professional.

HOSTING PREGAME AND POSTGAME SHOWS FOR RADIO AND TELEVISION
July 23 and 24
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
In this seminar, students learn all the ins and outs of pregame and postgame shows, for both radio and television. The importance of preparing for their show begins with research about the teams that will be playing and knowing all the details about the players and coaches, as well as having knowledge about recent and past history. Often, pregame and postgame shows are driven by one specific team. Students need to learn how to be an authority on “their team” while also sounding like an expert on the “road team.” To successfully host a postgame show, students must learn how to interact with a winning or losing coach, recap the game, throw to a soundbite, and more. This class helps students develop the skills and techniques necessary to one day make that dream come true.

SPORTS RADIO HOSTING
July 25 and 26
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
In this course, students learn how to create a rundown for a talk radio show, research topics, determine the theme of a show, work with a co-host, and interact with callers. In the final class, they have the opportunity to take their newfound knowledge into a radio studio and record a mini-show.

SPORTS ROUNDTABLE HOSTING
August 16
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
In this seminar, students learn how to host a roundtable discussion as well as participate on a panel of experts. It is important to be open-minded while having debates, but also to be strong in our convictions, and learning to ask the right questions is a necessary first step. This seminar is designed for students who are ready to hop in the chair and lead a group of sports reporters.

SPORTS PRODUCING AND EDITING
August 7-9
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
Students learn what goes on behind the scenes and have the chance to do it themselves. Students learn how to produce their own sports television segment and television show, edit highlights, produce and edit a radio package, and much more! This course also prepares them for many possible off-air roles. Students leave with a complete video for their demo reel.

SPORTS PLAY-BY-PLAY FOR TELEVISION AND RADIO
August 13-15
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
This program teaches students the methods of play-by-play for both television and radio for many different sports. They learn the fundamentals and record play-by-play segments for baseball, basketball, football, hockey, lacrosse, soccer, and more!

SPORTS FANTASY PREPARATION, DRAFTING, AND DEBATING
August 16
Grades 7-12 as of September 2019.
Lunch is included in program tuition.
One of the fastest growing ways to learn about sports is through fantasy leagues. Through fantasy leagues, your child learns ALL the players, their stats, and why those players can help teams win. They get educated on a business model of having a salary cap and how to disperse “fake” money and build a roster.

National fantasy football expert Keith Irizarry teaches this course. You can watch Keith on Sundays during the NFL season on That Other Pregame Show on CBS Sports Network.
Your child will learn fantasy sports lingo, draft strategies, team management, and much more.

For more information or to register, visit ce.hofstra.edu/precollege, call 516-463-5373, or email ce-precollegiate@hofstra.edu.
**STEM/STEAM (Science, Technology, Engineering, Arts, and Math)**

**COASTAL EXPLORATIONS**
*July 29-August 9*
Grades 6-11 as of September 2019.
Location: Caumsett Environmental Education Center
Transportation and lunch are included in program tuition.
Join us for an in-depth exploration of marine life. Explore diverse marine habitats and engage in daily observations, and data and specimen collection to gain new insights on how the marine world works. Activities include canoeing, surfacing, seineing, salt marsh hike, plankton and horseshoe crab studies, and snorkeling. NEW for this year will be an added excursion to the Sunken Forest on Fire Island.

**DISCOVER WILD LONG ISLAND**
*July 15-19*
Grades 6-11 as of September 2019.
Location: Caumsett Environmental Education Center
Transportation and lunch are included in program tuition.
Journey with us to discover the unique habitats of Caumsett State Historic Park Preserve. We will explore the pond, a north shore beach and salt marsh, fields and forests, and even an estuary by canoe! You’ll learn map reading skills, and how to use a compass and GPS to aide you in your explorations.

**EARTHQUAKES AND STRUCTURES**
*August 12-16*
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.
People who design buildings to resist strong seismic shaking are called structural engineers, and their designs are rooted in basic principles of earthquake engineering and structural dynamics. Participants in this exciting camp learn the fundamentals of both of these topics in a fun, hands-on environment. Students spend a half day exploring topics such as seismology, free and forced vibrations of structures, seismic ground motions, seismic-resistant structures, seismic shake-table testing, and much more. The afternoon consists of fun indoor and outdoor camp activities, like movies, karaoke, ice cream sundaes, and scavenger hunts.

**HIKING LONG ISLAND**
*July 22-26*
Grades 6-11 as of September 2019.
Location: BOCES Caumsett and Brookville Environmental Education Centers, and other Long Island locations
Transportation and lunch are included in program tuition.
Get your hiking boots ready for this five-day adventure! Each day will find us exploring a different Long Island site. We will start the week with a grand tour of the five habitats at Caumsett State Historic Park Preserve. The rest of the week will find us at special places like Shu Swamp, Garvies Point, Brookville Environmental Education Center, Tackapausha Museum and Preserve, Oceanside Marine Nature Study Area, and Norman J. Levy Park and Preserve.

**MARINE EXPLORER**
*July 8-12*
Grades 6-11 as of September 2019.
Location: Caumsett Environmental Education Center
Transportation and lunch are included in program tuition.
Each day will find you “submerged” in activities designed to expand your understanding of Long Island’s marine ecosystem. Our “home base” is Caumsett State Historic Park Preserve, a wonderful site with a 96-acre salt marsh and over 2 miles of coastline along the north shore of Long Island. We spend the week collecting and identifying marine organisms and using sampling equipment to understand how they adapt to changes in their environment. It is a perfect high-tide week to explore the estuary by canoe, too! This program is the perfect introduction to Session 3: Coastal Explorations.

**MECHANICAL AND AUTOMOTIVE INSTITUTE: INTRODUCTION**
*July 1-12*
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.
Students gain an understanding of how a car engine works. Using Nassau BOCES’ state-of-the-art automotive facilities, students learn the safe and proper use of equipment and maintenance techniques, including tire repair, brake maintenance, and how to check and change automotive fluids. By the end of the program, students walk away with a functional model of an engine that they build themselves.

**MECHANICAL AND AUTOMOTIVE INSTITUTE: INTERMEDIATE**
*July 15-26*
Grades 6-11 as of September 2019.
Transportation and lunch are included in program tuition.
With the technological advancements of today’s automobiles, even routine maintenance procedures require analytical thinking, dexterity, and patience. In this fast-paced course, campers are introduced to state-of-the-art diagnostics, machining, and hydraulic test equipment. The course begins with tool and equipment safety, automotive fundamentals, and an introduction to hybrid cars. Other topics include brake system theory, accessory drive belt systems, and an overview of the eight A.S.E. vehicle subsystems. Upon completion of this course, campers will have had a look into the real-world work experience of an automotive technician.

**OUTDOOR ADVENTURE CHALLENGE**
*August 12-16*
Grades 6-11 as of September 2019.
Location: Brookville and Caumsett Environmental Education Centers
Transportation and lunch are included in program tuition.
Take the Outdoor Adventure Challenge and bring your high energy for an action-packed week! You will develop teambuilding and outdoor skills while you:
- Navigate our low ropes course while practicing problem-solving and leadership skills.
- Traverse our high elements ropes course: whether it is the Giant Swing Shot, Flying Squirrel, Catwalk, or High Multi-Vine (to name a few!), campers will use new skills to support each other and step outside their comfort zone.
- Learn about survival, building shelters, making fire with a bow and drill, finding your way with map and compass, and geocaching with GPS.
- Learn canoeing skills

**MARINE EXPLORATION TECHNOLOGY: DESIGN IT! BUILD IT! DRIVE IT!**
*August 12-16*
Grades 6-11 as of September 2019.
Location: Hofstra University
Transportation and lunch are included in program tuition.
You and your teammates will design and build an underwater remotely operated vehicle (ROV), test your design in Hofstra’s pool, and master a series of challenges for the final day’s competition. You will also participate in an antique “helmet dive”!
SUMMER CREATIVE WRITING RETREAT
July 29-August 2
Grades 8-12 as of September 2019.
Lunch is included in program tuition.
Do you dream in screenplays? Do you have stories that you yearn to share with the world? Do poems appear in your head unbidden? Then it's time to put your thoughts on paper and share them with your fellow writers! You will get to explore different genres — poetry, narrative fiction, memoir, screenplays, and graphic novels — and transform your ideas into major works.

SUMMER NOVEL WRITING RETREAT
July 15-19
Grades 8-12 as of September 2019.
Lunch is included in program tuition.
This hands-on workshop offers the opportunity to work on that novel you’ve always wanted to write. Guided by a published author, you will learn how to improve your structure, characterization, pacing, grammar, dramatic tension, and voice. You will also gain confidence in your writing and storytelling abilities as you read your pages aloud and exchange well-meaning critiques with fellow writers.

COLLEGE PREPARATION

TEST PREPARATION
We offer the following courses in spring 2019:
- Algebra I Regents
- Algebra 2 Regents
- Chemistry Regents
- Earth Science Regents
- Global History Regents
- Geometry Regents
- Living Environment Regents
- U.S. History Regents
- SAT/ACT at Hofstra

For more information, visit ce.hofstra.edu/testprep or call 516-463-7400.
How to Register

All correspondence will be communicated via email, so when registering, please be sure to include an email address.

If you are registering multiple children for Hofstra Summer Camps, you must create separate student accounts and submit different registration requests. If your child already has a Hofstra Continuing Education Student Portal account (i.e., from Saturday Classes for Young People registration), there is no need to create another account. After your child’s account is created, please print their user ID and password and retain for your records. For future registrations, kindly utilize the same account information. If you create multiple student accounts, you will have a user ID and password for each account.

With your new student login ID and password you can now:
• Register for camps
• Add camp sessions
• Access your current balance due
• Make tuition payments
• View your child’s schedules
• View completed programs
• View and print your camper’s record and payment history
• Update your profile (i.e., contact information)
• Print a paid-in-full receipt

When registering via mail or in person, a user ID and password will be emailed to you once your registration is processed. You may update your password after you receive the instructions via email. Want to add a session after your initial registration? No problem! There is no need to change your password. You may update your child’s account and register for the session you wish to add. Your password will be emailed to you once your registration is processed. You may update your password after you receive the instructions via email. Want to add a session after your initial registration? No problem! There is no need to change your password.

You can make additional online payments at any time. Please note that full payment is required for registrations after May 15, 2019.

Tuition for our two-week camps includes transportation, lunch, the American Red Cross instructional swim program (American Red Cross instructional swim program not included in Sports Academy Camps or any of our BOCES programs), and insurance.

• Deposit: When registering before May 15, 2019, a $125 per week nonrefundable deposit is required using a check or credit card. Deposit must accompany this registration form.
• Payment in full is due by May 15, 2019.
• Full payment is required on all registrations received after May 15, 2019.
• We accept MasterCard, Visa, and American Express.
• Cash is not accepted.
• Please make checks payable to Hofstra University, and include your child’s name on the check.

Discounts
• Discounts do not apply to any one-week sports camp.
• Only one discount per camper may be applied.
• Discounts may not be combined.

One-Week Sports Camps:
• Early Tuition Discounts are available until February 3.
• Group/Team Discounts for five or more campers – registrations MUST be submitted together, and each camper will receive $50 off per week.
•Sibling Discount is $50 off tuition for each additional child per week. Two-Week Programs:
• Early Tuition Discounts are available until February 3.
• Hofstra Alumni Discount is 15 percent off any two-week Specialty Camp or Learning Institute program. (The alumnus must be the parent/guardian of the camper.)
• Union Discount is 15 percent off any two-week Specialty Camp or Learning Institute program. (The union member must be the parent/guardian of the camper and must provide a current copy of a union ID card.)

•Sib ling Discount is $100 off tuition for each additional child per two-week session – this discount is NOT available with the Early Tuition Discount.

Note: The Counselor Apprentice Program is available for six-week enrollment only. Tuition for the full program is $3,200, plus a $50 application fee. No discounts apply.

To register by mail or in person: Return the completed registration form, along with the nonrefundable deposit, to: Hofstra Summer Camps, 255 Hofstra University, Hempstead, NY 11549-2550, or drop it off at the Hofstra Camp Office, 101 Oak Street, Uniondale, NY 11553.

To register online: Visit hofstra.edu/camp.

Refund Policy
• Tuition is refundable prior to May 15, 2019, less the deposit and application fee.
• No refunds after May 15, 2019, for any reason, including illness, injury, personal matters, missed days, transportation delays, etc.
• No refunds for surcharges after May 15, 2019.
• Any cancellations must be received in writing.
• It is understood that no credit will be given for camp closings, absences, family vacations, transportation delays, or withdrawals.
• We reserve the right to cancel any registration if fees are not paid in full by May 15, 2019.

Summer Camp Registration Agreement

Camper’s Name: ____________________________

By registering my child(ren) to attend Hofstra Summer Camps 2019 (“Camp”), I agree to the following terms and conditions:

• I am the parent or legal guardian of the child(ren) being registered.
• A nonrefundable deposit of $125 per week, paid by check or credit card, must accompany this registration form.
• We accept Visa, MasterCard, American Express, bank check, or money order. No personal checks accepted after June 14, 2019. **Cash is never accepted.**
• Payment in full for all camp sessions is due by May 14, 2019. Any registrations received after May 14, 2019, must be paid in full immediately.
• Any cancellations for a camp session **MUST** be received in writing.
• Any tuition paid before May 14, 2019, will be refundable less a $125 deposit per week for all programs.
• No refunds after May 14, 2019, for any reason, including illness, injury, personal matters, missed days, transportation delays, etc.
• Hofstra University reserves the right to cancel any registrations if tuition is not paid in full by May 14, 2019.
• I give permission for my child to participate in off-campus trips and activities, including any that involve swimming and water activities. I understand that scheduled off-campus trip destinations may change due to weather conditions or administrative needs.
• Enrollment in Hofstra Camps establishes permission for a child to engage in all programs (including instructional/recreational swim) except as noted by the examining physician on the child’s Physical Examination Form submitted to the Camp Infirmary.
• I hereby acknowledge that I, on behalf of my child, myself and my family, understand that risks are involved in Camp and assume all risks incurred from my child’s participation in Camp.
• I understand and agree that my child will comply with the University’s rules, standards and instructions. I understand that the University and its agents and employees have the right to enforce its standards and may at any time terminate my child’s participation in Camp for failure to maintain these standards or for any conduct which the University or its agents consider to be incompatible with the interest and welfare of the other Campers or the University. I understand that I will not be entitled to any refund if my child’s participation in Camp is terminated as described in this paragraph.
• I understand that I am solely responsible for any and all expenses related to injuries and/or loss or damage of personal property incurred in connection with my child’s participation in Camp.
• In consideration of my child being allowed to participate in Camp, on behalf of my child, myself and my family, I hereby release and agree to hold Hofstra University, its trustees, directors, officers, employees, servants, representatives and agents harmless from and against any and all claims, losses, damages, expenses (including attorneys’ fees, and all court and litigation costs) and liability (including statutory liability), resulting from injury and/or death of any person or damage to or loss of any property arising out of or in any way connected with the Camp and my child’s participation therein.
• I agree that photographs, whether still or action, videos, film and/or motion pictures (hereinafter “Pictures”), and/or audio recordings (“Recordings”), may be taken of my child by or on behalf of Hofstra University and in connection with Camp, and, without any compensation or further notification or approval by me or my child, grant to Hofstra University, its agents, employees, and others working on Hofstra University’s behalf ("Hofstra") the unlimited, perpetual, worldwide, unconditional and irrevocable right and license to use, distribute, publish, exhibit, digitize, broadcast, display, reproduce, make commercial use of and otherwise use directly or indirectly the Pictures, Recordings and/or my child’s image, voice, likeness and/or video footage in any form, format or media (“Media”), for any purpose, including, but not limited to, advertising or trade or University-related activity in promoting or providing information about the University and its educational and summer camp services and agree that all rights therein shall irrevocably, exclusively, unconditionally and perpetually belong to Hofstra University.
• I hereby agree on behalf of myself and on behalf of my child, to release and discharge Hofstra University, its officers, representatives, employees, agents, licensees, successors and assigns from any and all claims, demands or actions that I or my child may now have or may hereafter have for libel, defamation, invasion of privacy or right of publicity, infringement of copyright or violation of any other right arising out of or relating to any utilization of the Pictures, Recordings, or Media.

I have read and agree to the above:
