Imagine Learning Science at Home!

THROUGH THIS NEW RESEARCH PROJECT, WISE KINDERGARTEN KIDS -STUDENTS, PARENTS AND TEACHERS AS WISENGINEERING STEM LEARNERS

Your Child's Name:

- Everything you need will be provided for you.
- You will be guided through the activities with step-by-step directions that you view on app on your smart device or computer.
- You will be able to record your findings (What happened), upload pictures of what you do, video yourself doing it and text comments to others. There will even be voice recognition, so no typing is necessary.
- Best of all, family and friends who live anywhere in the world will be able to see what you and your child have been exploring together and post comments that you can read.
- This is our goal! To help make this happen, please complete the following

1) Do you have a smart device (phone or tablet) or computer at home?					
Do you have a smart device (phone or tablet) or computer at home? Yes 1 No 2					
2) On the weekend could you or a family member work with your Kindergartener for about 30 minutes to do a fun engineering/science activity together?					
Never Sometimes Always					
1 2 3 4 5					
3) How interested would you be in sharing your work with family members (grandparents, aunts, etc.) or friends who do not live nearby?					
Not interested Somewhat interested Very interested					
1 2 3 4 5					
4) How interested are you in participating in this project? Not interested Somewhat interested Very interested					
1 2 3 4 5
