6-7:30 p.m.  FILM VIEWING: UNNATURAL CAUSES
Unnatural Causes, an acclaimed documentary series broadcast by PBS, explores the root causes of the alarming socioeconomic and racial inequities in health. Startling new findings suggest there is much more to our health than bad habits, health care, or unlucky genes. The social circumstances in which we are born, live, and work can actually get under our skin and disrupt our physiology as much as germs and viruses. Although the series is four hours in length, we will show only the first episode, In Sickness and In Wealth (56 min.), which explores how the distribution of power, wealth and resources shape opportunities for health.

Discussant  Aloysius B. Cuyjet, M.D., M.P.H., FACC, FACP
