

Introducing SPEAK OUT!®

SPEAK OUT!® and LOUD Crowd® are now offered at Hofstra University's Speech-Language-Hearing Clinic.

SPEAK OUT!® Program: The participant and speech-language pathologist complete speech, voice, and cognitive exercises together, to emphasize *speaking with intent*. This converts speech from an automatic function to an intentional act.

LOUD Crowd®: Upon completion of the SPEAK OUT!® Program, participants will continue *speaking with intent* in a weekly group setting, which provides a supportive environment and encourages continuous practice.
