Minutes of 9/18/18 were accepted.

Jean Peden-Christodoulou, Student Affairs, provided an update on the system that replaced UNIV 1 for students on probation.

The committee then discussed the HPHS grade appeal policy for review. The committee found general consistency between the HPHS document and FPS #42 but noted some of the timing specified in FPS #42 was absent from the HPHS policy and recommended including this timing in the HPHS document. This was followed by discussion of the role of separate grade appeal policies among the different schools/units as well as issues with visibility of these policies.

The Midsemester Advisory was discussed, specifically on the two year review of the policy as specified when it pass the full faculty. There was discussion of appropriate data and how the committee could conduct the review. This will be an on-going discussion.

In new business, Evan Koegl (Registrar) introduced the issue of total credits required for students taking two degrees / two majors. The committee will take up this issue in subsequent meetings.

Meeting was adjourned at approximately 2:30 pm.
