Minutes of 5//2/17 were corrected and accepted.

Chair welcomed new members of the committee and recapped the activities and accomplishments of the Committee for the 2016-17 academic year, and noted the 'carry-over' issues from 2016-17. The two major issues unresolved from 2016-17 are the repeat course option and its relationship to acts of academic dishonesty on the part of students, and the status of UNIV1 as a required course for probationary students.

The Committee discussed the repeat course option and ultimately voted to reaffirm its support for its initial proposal on the matter. The vote was 5 -0-1 among voting members of the committee and an advisory "No" vote from the Provost's representative. It was understood that that vote would be conveyed to the SEC at its next meeting.

The Committee then began to review the issue of UNIV1. It was decided to continue discussion at the next meeting in October.

Meeting was adjourned at approximately 2:30pm.
