“A teacher affects eternity.”
   - Henry B. Adams

Are you considering a career as a teacher of elementary or early childhood education?

Hofstra University has programs for teaching birth-2nd grade (early childhood), grades 1-6 (childhood) and a dual early childhood/childhood program. All these programs lead to New York state certification.

From the very first courses, students work and observe in supervised field placements in local schools. Our students also enjoy individualized attention from class instructors and field supervisors.

Interested?

Make an appointment with our Undergraduate Education Program adviser Myrna Fischbach by calling (516) 463-4799 or e-mailing Myrna.Fischbach@hofstra.edu.
