September, 2010

To Hofstra University Students and Parents:

In 1987, Sigma Sigma Sigma's ("Tri Sigma's") Epsilon Lambda Chapter was installed at Hofstra University. For many years the chapter prospered and benefited from the core values of our organization: friendship, character and conduct. We have many dedicated and successful alumnae from this chapter.

In 2008, for a variety of reasons, Hofstra University suspended this chapter for two years and thus the Executive Council of Sigma Sigma Sigma suspended the charter of our Epsilon Lambda chapter as well with plans to return to the campus at some point in the future. And this fall, the chapter charter was removed and the chapter officially closed.

Currently, there is not an established chapter of Sigma Sigma Sigma on your campus. We encourage any women that are interested in a sorority experience to contact the University's Student Activities Office to get information on the Panhellenic sororities that are recognized by the university.

Women who were members of the Epsilon Lambda Chapter of Sigma Sigma Sigma and matriculated in the 2009/2010 academic year at Hofstra University have had their membership terminated. They are not recognized as a collegiate chapter by the national organization, Hofstra University or the Hofstra College Panhellenic. They are not covered by our national insurance policy.

If you have additional questions, please feel free to contact me or the University's Student Activities Office.

Sincerely,

Kaye Schendel
National President

friendship | *character* | conduct
