2010 ANNUAL SECURITY AND FIRE SAFETY REPORT

The federal **Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act** and other federal laws require colleges and universities to publish and distribute an annual security and fire safety report containing policies and procedures as well as campus crime and fire safety statistics. The 2010 report follows.

SECTION I PUBLIC SAFETY AT HOFSTRA UNIVERSITY

The safety of the campus community is a 24-hour-a-day, 365-day-a-year operation. Hofstra University's Department of Public Safety boasts a team of administrators and officers who are among the best at any university in the United States. Training for these officers and other security personnel on campus is extremely intense; in fact, security training at the University has become the model for the New York State Security Guard Act.

Prior to employment, all officers are required to complete at least 40 certified hours in private security training. In addition to certification training, officers receive 120 hours of in-service and specialized training in first aid, defensive tactics, legal updates, evidence gathering investigation techniques and firearms specific to the needs of the University. The Public Safety team consists of the director, four administrative directors, a supervisory staff of eight, 38 full-time officers and 19 part-time officers.

Hofstra University's Public Safety officers are licensed by the state of New York. These officers are not sworn and do not carry firearms, nor do they have police powers. All officers receive yearly training in public and community relations, listening skills, sensitivity and diversity, report writing, patrol techniques, and fire prevention and control. Augmenting the efforts of the administrators, staff, and Public Safety officers are more than 400 student safety representatives. Depending on their individual assignments, these students also receive appropriate and intensive training.

The Department of Public Safety maintains a professional relationship with local, state, and federal law enforcement agencies. The department works closely with the Nassau County and Hempstead Police Departments and does not utilize written memoranda of understanding with these agencies. Public Safety personnel report all incidents requiring police assistance to the appropriate law enforcement agency and obtain any pertinent information from the local police for the Annual Security and Fire Safety Report. Information is exchanged on a daily basis to ensure that the University is aware of all incidents that occur on or off campus, in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. In the event that a serious crime occurs on or off campus that may impact the Hofstra community, the Department of Public Safety will issue a timely warning notice. Depending on the particular circumstances, a timely warning may

be disseminated by using one or a combination of the following: notice of the crime is printed in *The Chronicle*, the weekly student newspaper; e-mailed to all persons with a Hofstra University e-mail account; and/or posted in academic buildings and residence halls.

Even with the model training efforts of the Public Safety staff, the key to preventing crime is awareness on campus. Information on safety awareness and crime prevention is available at the David S. Mack Public Safety and Information Center, located on Hofstra's south campus at the corner of California Avenue and Hempstead Turnpike. Detailed information on campus safety is also available in *The Living Factor* and on the Department of Public Safety website (hofstra.edu/publicsafety). Additionally, *The Chronicle*, the student newspaper, publishes reports of incidents involving Public Safety on a weekly basis.

The director of Public Safety urges the campus community to take advantage of the various services offered by the Department of Public Safety. These services include student escorts, campus transportation, victim assistance program, safe haven program, residential security, motorist assistance program, lost and found office, medical assistance/first responder, campus patrols, orientation programs, safety seminars, crime prevention pamphlets and information, emergency telephones, and the Campus Alert Notification Network (CANN). POLICIES

Access to Academic and Administrative Buildings

Access to University facilities is limited to members of the Hofstra community. All academic and administrative buildings are locked in the evening and on weekends, according to the

scheduled use of the facilities. Access to these facilities is limited to Hofstra students, faculty and staff, as well as guests and visitors conducting official University business.

Access to Residence Halls

Hofstra University provides student housing in traditional-style residence halls, apartments and suites. Access to the residence halls is limited to resident students and their guests. Resident students must carry Hofstra University ID (HofstraCard) at all times and swipe their card in a card reader in order to enter their residence hall. Resident students visiting another residence hall must provide their Hofstra ID (with a color-coded housing sticker) and be signed in when entering another residence hall. Persons who do not live on campus must provide valid photo ID, register at the security booth, and be announced to their host. Entrances to residence halls are monitored by Resident Safety Representatives (RSRs) 24 hours a day.

Maintenance Services

The Physical Plant Department maintains the University buildings and grounds with an emphasis on safety and security. It responds immediately to reports of potential safety and security hazards such as broken windows and locks. Public Safety assists Plant Department personnel by reporting possible hazards. Community members are encouraged to report any possible hazards by calling **516-463-6622**.

Alcoholic Beverages

Hofstra University encourages and sustains an academic environment that respects individual freedoms and promotes the health, safety, and welfare of all community members. In keeping with these objectives, the University has set a policy governing the possession, sale, and consumption of alcoholic beverages on the Hofstra campus, which conforms to federal and New York state laws. Underage possession or consumption of alcoholic beverages is not permitted on property owned or controlled by Hofstra. A full statement of the University's alcohol policy is published in the *Guide to Pride* and *The Living Factor*. Both publications may be downloaded from the Hofstra website; copies are available upon request from the Dean of Students Office. For more information, call **516-463-6913**.

Illegal Drugs

Any person found responsible for illegal possession, distribution, sale, or consumption of any controlled substance is subject to disciplinary action by the University and may be referred to the appropriate external authorities. Under federal and New York state laws, these violations may result in penalties ranging from fines to imprisonment.

Missing Student (Resident Students)

It is the policy of the Office of Residential Programs at Hofstra University to investigate any report of a missing student living in one of the University's residence halls. All students residing in a campus residence hall are requested to complete a Confidential Contact Information form, available upon check-in to their residence hall. The resident student is asked to identify the name and contact number of the individual(s) who is (are) to be contacted in the event the student is determined to be missing, as set forth below. This contact information is registered confidentially and may not be disclosed, except to law enforcement personnel in furtherance of a missing person investigation and authorized Hofstra University officials, including Public Safety officers.

Hofstra understands that students may make arrangements to stay outside of the residence halls, and as such, the location of students in the halls is not monitored by Resident Assistants or other University staff. If a student intends to leave his or her residence hall for an extended period of time, the student is strongly encouraged to advise the residence hall staff before leaving, to avoid the student being reported "missing." If, however, there is reason to believe a resident student is missing, all reasonable efforts will be made to locate the student to determine his or her state of health and well-being. These efforts, which are done in conjunction with the Department of Public Safety, include, but are not limited to, checking the student's room, speaking with friends and/or roommates, checking ID access, locating the resident student's vehicle and calling the student's cell phone number or other known contact.

Where a student has been missing for 24 hours, students, employees, or other individuals should make a report to the Office of Residential Programs, the Dean of Students Office, or the Department of Public Safety. All missing student reports are referred immediately to the Department of Public Safety. If, upon investigation by the Department of Public Safety, the resident student is determined missing, staff from Public Safety and/or Student Affairs will contact the resident's designated "Confidential Contact" within 24 hours. For any resident student under the age of 18, Hofstra will notify a custodial parent or guardian, in addition to any other individual designated on the Confidential Contact Information form, within 24 hours after the time the resident student is determined to be missing by the Department of Public Safety. Public Safety will continue to investigate, utilizing established investigative procedures in collaboration with staff from Residential Programs, other campus offices and local law enforcement agencies. Where a Confidential Contact cannot be located or has not been assigned, Public Safety will inform the appropriate law enforcement agency and/or make contact with the student's parent or legal guardian. In all cases where the Department of Public Safety determines that a student is missing, Public Safety will notify the appropriate law enforcement agency within 24 hours of that determination.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

In the event of an emergency, please contact the Department of Public Safety immediately by calling **516-463-6789** or by using any of our emergency telephones. Once the Department of Public Safety confirms that there is a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or staff occurring on the campus, the Department of Public Safety, through the Campus Alert Notification Network, will notify the campus community, which includes students, faculty, and staff. Hofstra University will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of the Department of Public Safety or senior administration, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Campus Alert Notification Network (CANN) is a comprehensive notification network used to disseminate emergency information to the campus community in the event of an emergency. Hofstra University community members can sign up online at **my.hofstra.edu** by providing personal telephone contact information. The CANN utilizes the following methods of communication:

- ▶ A text and/or voice message to a phone number supplied by the campus community member.
- ▶ An alert posted on **hofstra.edu** and the campus alert page, **hofstra.edu/alert**.
- ▶ A voice mail is left on the campus alert hotline, **516-463-1234**.
- ▶ Emergency information is posted on the Hofcast network.
- ▶ The Hofstra television service will scroll emergency information.
- ▶ The Hofstra radio station (WRHU-88.7FM) will broadcast information.
- ▶ An instant message will be provided through the Novell System.
- ▶ A public address system will broadcast emergency information.

The CANN is utilized in emergencies when there is imminent danger to the health, safety and well-being of the entire Hofstra community, which has not been contained or controlled, and an immediate response is required by members of the community. In short, the system is used to distribute information regarding emergencies that dictate immediate action by those who receive the message. Some examples of this would be a fire or chemical spill or an ongoing criminal incident that requires community members to take action to secure their safety. Public Safety managers are trained to assess situations when the CANN may be activated. This training includes identifying what population of the campus community should be notified, the content of the notification, and how to initiate the CANN.

If the CANN has been activated, members of the community are asked to follow the directions provided in the message. These messages will follow the procedures outlined in the Emergency Response Plan. Therefore, it is important to review the emergency response and evacuation procedures. An all-clear message will indicate that the emergency is over.

The Emergency Response Plan is tested and updated on a regular basis, and emergency evacuation drills are conducted as well, as described below. Emergency response and evacuation procedures are disseminated to the Hofstra community in conjunction with testing.

Throughout the past year (calendar dates), the following exercises were conducted:

Date	Time	Name of Drill	Announced
1/13/2009	1300 hrs	Winter Nor'easter Tabletop Exercise for the Provost Office	Yes
6/26/2009	1700 hrs	Information Technology Disaster Recovery Test	Yes
7/22/2009	0900 hrs	Crisis Communication Tabletop Exercise	Yes
7/31/2009	1700 hrs	High-Rise Fire Full-Scale Exercise	No
9/16/2009	1000 hrs	Testing the Campus Alert Notification Network	Yes
10/21/2009	0800 hrs	Pandemic Point of Distribution Full-Scale Exercise	Yes

General Evacuation Procedures

Public Safety officers decide whether immediate evacuation is necessary. Evacuees will be moved to a staging area where University personnel will conduct a census to establish that the evacuation is complete.

Evacuation of Individuals With Physical Disabilities

Public Safety officers will assist individuals with physical disabilities in an evacuation, making every attempt to lead them to safety. Hearing-impaired students have TTY phone capability in their residence hall rooms, and the fire alarm system is connected to strobe lights.

If you have a disability that could impair your ability to perform any of the above evacuation procedures, please note the following:

- ▶ Inform the Department of Public Safety or the Services for Students with Disabilities Office of your circumstances upon arrival to campus and request a meeting to discuss any special emergency response accommodations needed.
- ▶ A master list of all resident students requiring assistance during a building evacuation is maintained by the Office of Residential Programs. Please contact your Resident Assistant to ensure your inclusion on that list.
- ▶ Call the Department of Public Safety at **516-463-6789** or **911**, and tell them where you are and what assistance is needed.
- ▶ Notify your professor that assistance will be needed if an evacuation is deemed necessary.

Short-Term/Medium-Term/Long-Term Evacuations

Short-Term	When students must occupy temporary quarters for a relatively short, predictable period of time, they will be moved to lounges in the nearest safe residence hall. If residence hall lounges are not available, students will be moved to lounges in the nearest non-residence hall building, Mack Student Center or Hofstra USA. Emergency workers and/or University personnel will provide services as needed (medical care, food, shower, etc.).
Medium-Term	The University will use the Physical Education Building and/or the Mack Sports Complex as a housing area when lounge space is insufficient to handle the number of evacuees. Proper bedding will be provided with the help of the Office of Conference Services. Students will be housed in lounges and other public spaces on campus that can accommodate them satisfactorily. Students will be assigned to available spaces in the residence halls.
Long-Term	When it is impossible to predict how long students will have to occupy alternative quarters, the University will take the same steps as for a medium-term evacuation, unless a substantial part of the campus is under an evacuation order. If evacuees must be moved off campus, the director of Public Safety will coordinate transportation with the use of University buses.

Drug/Alcohol Education Programs

The Dean of Students Office serves as a resource to all Hofstra University students regarding issues related to drug and alcohol intervention and education. The Office of Community Standards requires students who are referred through the conduct system for these types of violations to participate in various alcohol or drug education programs. In addition, students with drug/alcohol violations are subject to increasingly serious sanctions including: counseling, disciplinary warning/probation, residence hall removal, suspension or expulsion. Members of the Dean of Students Office are available for informal counseling with students who may be experiencing problems with alcohol and/or drugs. Students may then be referred to Student Counseling Services for a formal assessment and follow-up treatment plan. Students may also utilize Student Counseling Services or the Health and Wellness Center for assistance with alcohol and/or drug issues.

Proactive measures taken by the Dean of Students Office include supporting annual events such as National Collegiate Alcohol Awareness Week, distributing literature to students and student leaders as it relates to the topic of drug and alcohol use, and collaborating with other departments within the Division of Student Affairs to support ongoing educational efforts and nonalcoholic social programs for the entire student body. The Office of Residential Programs sponsors many nonalcoholic social programs for the 4,000 students who reside on campus, and each Resident Assistant has an opportunity to sponsor educational seminars related to the topic of drugs and alcohol. The Office of Student Leadership and Activities addresses the issue of alcohol and drug use during its New Student Orientation Program. This office also offers educational seminars to all members of fraternities and sororities.

See the Statement of Drugs and Alcohol in the *Guide to Pride* for further information about University policies in this area.

TIMELY WARNINGS/SAFETY ALERTS

To help prevent crimes or serious incidents, the Department of Public Safety, in conjunction with other departments on campus and local police departments, issues safety alerts in a timely manner to notify community members about certain crimes in and around our community. Members of the community who know of a crime or other serious incident should report that incident as soon as possible to the Department of Public Safety so that a safety alert can be issued, if warranted.

Distribution of Safety Alerts

The Department of Public Safety distributes safety alerts in various ways. Depending on the circumstances, a timely warning may be disseminated by using one or a combination of the following: notice of the crime is printed in *The Chronicle*, the weekly student newspaper; e-mailed to all persons with a Hofstra University e-mail account; and/or posted in academic buildings and residence halls.

DAILY CRIME AND FIRE LOG

The Department of Public Safety maintains a daily crime and fire log that records, by the date the incident was reported, crimes, fires and other serious incidents that occur on campus, in a non-campus building or property, on public property, or within the department's patrol jurisdiction. The daily crime and fire log is available for public inspection at the David S. Mack Public Safety and Information Center.

CRIMINAL ACTS

The victim of an alleged crime should report the incident to the Department of Public Safety. Victims of crimes will be assisted in filing their complaints with the Nassau County or Hempstead Police Departments. Public Safety will also assist the crime victim in obtaining medical and/or counseling services, if necessary. Student Counseling Services, located in the Saltzman Center, will provide counseling for students. For more information about Student Counseling Services, please call **516-463-6791**.

If a student is charged with a felony, the following guidelines apply:

- ▶ Regardless of the location of the incident or the identity of the victim, if a Hofstra University student is charged, the University retains the prerogative to summarily suspend the student pending the outcome of the trial. This action would be taken because of the potential threat the student poses to the Hofstra community as stated in the *Code of Community Standards*. Each case would be reviewed individually.
- ▶ After the case is adjudicated by outside authorities, the charges will then be reviewed under the University's *Code of Community Standards*.

CAMPUS SEX CRIMES PREVENTION ACT

The federal Campus Sex Crimes Prevention Act, enacted on October 28, 2000, went into effect October 28, 2002. The law requires institutions of higher education to issue a statement advising the campus community of where law enforcement agency information provided by a state concerning registered sex offenders may be obtained. It also requires sex offenders already required to register in a state to provide notice, as required under state law, of each institution of higher education in that state at which the person is employed, carries on a vocation, volunteers services or is a student.

The New York State Division of Criminal Justice Services maintains the state's Sex Offender Registry, which contains information about individuals convicted of certain sex offenses. This information is available by calling 900-288-3838 or visiting criminaljustice.state.ny.us.

SEXUAL ASSAULTS

Acts of sexual violence, assault or abuse such as rape, acquaintance rape or other forms of nonconsensual sexual activity are not tolerated at Hofstra University. Such acts are criminal behaviors and create an environment contrary to the goals and missions of the University.

It is important for members of the campus community to be aware that there can be serious legal consequences for certain sexual conduct. In a campus setting, sexual assault often occurs when one or both parties are under the influence of alcohol or other drugs. Therefore, it is important to understand that intercourse or other sexual activity with a person who is unable to give free and full consent (e.g., because of intoxication, substance abuse, or intimidation) may constitute sexual assault or rape. Furthermore, the offender's use of a mind-altering substance does not in any way diminish his or her responsibility for abusive behavior. There are several measures that you can take to reduce your chances of being a victim of sexual assault. (See **Safety Tips.**)

Sexual assault refers to rape, sodomy, sexual abuse and other nonconsensual sex offenses, which are serious crimes under New York state law. Rape is committed when any person engages in sexual intercourse by forcible compulsion or not by forcible compulsion when the victim is physically, mentally, or legally incapable of giving consent. Other sex offenses under New York state law involve unwelcome physical contact with a person's genitals, buttocks or breasts. In all cases, the force need not be overtly violent. The threat of force that places a person in fear of immediate death, physical injury, or kidnapping may be sufficient. Criminal penalties in New York for all such acts vary according to the circumstances, but can include prison sentences of up to 25 years. In addition, a Hofstra University student who is found to have committed rape, sexual assault, or other sexual offense is subject to disciplinary action that can include probation, suspension, or expulsion. Rape is a felony. The University retains the prerogative to summarily suspend the student pending the adjudication of those charges.

If you are the survivor of a sexual assault:

Your safety and well-being are of paramount importance. Survivors of sexual assault are encouraged to take the following actions immediately:

1. Go to a safe place.
2. Contact or have a friend contact the **Department of Public Safety at 516-463-6789**. The Department of Public Safety will assist you in reporting the crime to the police and in getting medical and counseling services. Or, you can contact the **Nassau County Rape and Sexual Assault Hotline at 516-222-2293**.
3. Do not touch any evidence or straighten up the area where the assault occurred.
4. It is strongly recommended that you do not shower, bathe, douche, brush your teeth, use mouthwash, comb your hair or change your clothes, as these actions will destroy evidence of the attack.
5. It is strongly recommended that you go to a hospital emergency room. Medical evidence for use in a criminal prosecution of a criminal offense is collected at the hospital.
NOTE: You are **NOT** obligated to press charges just because you consent to this procedure; however, this evidence is very important should you later decide to prosecute. The Department of Public Safety or the police will provide transportation if needed. Bring a full change of clothing because the clothes you were wearing at the time of the attack may be kept as evidence.
6. Do not blame yourself.

CRISIS MANAGEMENT TEAM

Crisis Management Team members respond to crisis incidents reported to the Department of Public Safety, including incidents of sexual abuse. Members of the team include the following or their representative:

1. Director of Public Safety or designee
2. Dean of Students or designee
3. Director of Student Counseling Services or designee
4. University Relations, if necessary
5. Legal Counsel, if necessary

A member of the Crisis Management Team will inform the survivor of the following:

1. Counseling services are available, both on and off campus.
2. Medical services are available, both on and off campus.
3. Options are available regarding reporting the case to the proper authorities, both on campus and to local police.
4. Assistance will be provided in notifying these authorities, if such assistance is needed.

SURVIVOR'S BILL OF RIGHTS

1. Survivors have the right to be treated with dignity and seriousness by campus personnel.
2. Survivors of crimes against one's person have the right to be reasonably free from intimidation and harm.
3. University personnel shall be encouraged to inform survivors that they are not responsible for crimes against their person.
4. Survivors shall be made aware of existing counseling and other student services that are available, both on and off campus.
5. Survivors shall be entitled to the same support opportunities the University permits the accused in a campus disciplinary proceeding, which includes the opportunity to have others present during a disciplinary proceeding (see the Hofstra University *Code of Community Standards* for further information).
6. Both the survivor and the accused shall be informed of the outcome of any disciplinary proceeding brought alleging a sex offense. This includes the final determination of the proceeding and any sanction imposed against the accused. The sanctions that may be imposed are detailed in the Hofstra University *Code of Community Standards*.
7. Any survivor who does not wish to remain in his or her present residence hall or class section may be granted a transfer to any available housing or class section, upon request, if reasonably available.

EDUCATIONAL PROGRAMS

Educational programs to promote the awareness of rape, acquaintance rape, and other forcible and non-forcible sex offenses are conducted for entering students during New Student Orientation and Welcome Week, and in the residence halls throughout the academic year. These programs are open to the entire Hofstra University community. Other programs on sexual assault are offered throughout the year. For additional information, please contact the Dean of Students Office at **516-463-6913**.

HOW TO REPORT AN INCIDENT

All members of the campus community are urged to report criminal incidents, emergencies, and suspicious activity. The Department of Public Safety is available to accept reports from students, staff and faculty 24 hours a day, seven days a week. The campus emergency number is **516-463-6789** and should be used for all fire, medical, and police emergencies. Hofstra University makes every effort to ensure that students and others can easily report criminal actions or emergencies. These reports can relate to incidents or emergencies that occur either on or off campus.

In addition, incidents can be reported at the Department of Public Safety office located in the David S. Mack Public Safety and Information Center (Hempstead Turnpike and California Avenue) or any location where a Public Safety officer is posted. Emergency telephones located throughout campus can also be used.

When reports are received, the following actions are taken:

- ▶ Students, faculty and staff are encouraged to report all crimes to the police and are assisted in doing so. Victims are referred to the appropriate offices/agencies on and off campus, including health/medical services and judicial affairs.
- ▶ A summary of reported incidents is sent to the Dean of Students Office for review and follow-up with students.
- ▶ A summary of reported incidents concerning staff and faculty is sent to the appropriate administrative or academic departments for review and follow-up.
- ▶ The Department of Public Safety distributes information on campus crime to the University community through the campus media. In the event of serious crimes on or off campus, such as robbery or assault, the Department of Public Safety immediately distributes safety alerts to the Hofstra community. In addition, the Department of Public Safety analyzes the reports, compiles crime statistics, and develops strategies to reduce criminal incidents and enhance preventive measures.

PREPARATION OF THE ANNUAL SECURITY REPORT

The Department of Public Safety compiles statistics for the annual report based on incidents reported directly to the local police, the Department of Public Safety, and other University officials *with significant responsibility for student and campus activities*. The statistics represent activity both on campus and on streets adjacent to campus property.

Reported **On-Campus** offenses include all offenses within the campus area that occur in campus buildings or property, including residence halls. A specific breakdown of offenses occurring in University-owned residence halls on campus appears under **Residential Facilities**. Incidents occurring in any campus building or on campus property that is not within the same reasonably contiguous geographic area of the campus are reported under **Non-Campus Building or Property**. Currently, the University has no non-campus buildings/property or any non-campus student organizations. Offenses occurring on public property, including thoroughfares, streets, sidewalks, and parking facilities, that is within the campus or immediately adjacent to and accessible from the campus, are reported under **Public Property**.

The University offices surveyed for this report are as follows:

- ▶ Dean of Students Office
- ▶ Office of Community Standards
- ▶ Residential Programs
- ▶ Athletics
- ▶ Office of Student Leadership and Activities
- ▶ Office of the Provost

In addition, pastoral and professional mental health counselors as well as medical professionals refer persons they are counseling to report crimes on a voluntary and confidential basis for inclusion in the annual crime statistics. Students are informed that, if they wish, they can confidentially report an incident for inclusion in the statistical report to the Department of Public Safety or to a campus security authority at one of the offices listed above.

SECTION II

ANNUAL FIRE SAFETY REPORT

In accordance with the Higher Education Opportunity Act (HEOA) of 2008, Hofstra University is required to provide two fire safety-related sources of information:

1. Annual Fire Safety Report: Institutions with on-campus student housing facilities must publish annually a fire safety report that provides information on campus fire safety practices and standards. Hofstra University complies with this HEOA regulation by issuing each year the *Hofstra University Annual Security and Fire Safety Report*. Information contained in this annual report includes: number and cause of fires at all on-campus student housing facilities; number of fire-related deaths; related injuries; value of fire-related property damage; information on evacuation procedures; fire safety education and training programs; fire safety systems in each student housing facility; number of regular mandatory supervised fire drills; and policies on portable electrical appliances, smoking and open flames.

2. Fire Log: Hofstra University keeps a fire log that states the nature, date, time, and general location of each fire occurring in on-campus student housing facilities. Hofstra University complies with this HEOA rule by including all fire-related incidents in the daily crime and fire log.

Please note that information regarding all residence hall fires and fire alarms are maintained in a database within the Department of Public Safety.

Residence Hall Fire and Life Safety Systems

Hofstra University has a total of 37 on-campus student residence halls. Each residence hall is equipped with an interior fire alarm system with detection throughout the building, including smoke and heat detectors, and pull-box stations. All residence halls are protected with a building fire sprinkler system. All fire safety and building access systems are monitored by the Department of Public Safety, 24 hours a day, 365 days a year.

Mandatory Supervised Evacuation/Fire Drills

Hofstra University conducts mandatory evacuation/fire drills during the course of the calendar year. These evacuation drills are supervised by the Department of Public Safety and conducted with a team of University employees. The drills are intended to familiarize students, faculty and staff with emergency procedures and individual roles. The Department of Public Safety performs four (4) evacuation/fire drills per year for each on-campus residential hall. All academic and administrative buildings undergo three (3) evacuation/fire drills each year.

Residence Hall Health and Safety Inspections

The Office of Residential Programs performs residential inspections throughout the year. The inspections are conducted to identify safety violations as well as conditions that may be detrimental to the health or well-being of the wider residential community.

Inspections include a visual examination of electrical cords, sprinkler heads, smoke detectors and other life safety systems. In addition, each room is examined for the presence of prohibited items such as candles, halogen lamps, unauthorized appliances, pets, etc. Rooms are also examined for evidence of prohibited activity such as smoking in the room, removal of door closers, unauthorized door locking or alarm mechanisms, removal of security screens or other equipment, tampering with life safety equipment, etc. This inspection also includes a general assessment of cleanliness of the room, including food and waste storage.

Conditions warranting follow-up are reported and documented. A re-inspection will follow. Residential Programs staff members are expected to communicate with residents, apply sanctions that can range from fines to expulsion from housing, and document follow-up.

The residents' signature on the *Residential Living Agreement*, required in order to take occupancy, signifies their acceptance of and responsibility for abiding by residential and University policies as provided through all printed publications, websites, e-mail and other vehicles. Specific health and safety policies and procedures are outlined in *The Living Factor*, the residential handbook, as well as the *Residential Living Agreement*. Per the agreement, Residential Programs and authorized University personnel may enter any room at any time for the purposes of inspection, establishment of order, maintenance, extermination, inventory correction, or cleaning, or in case of emergency or other reasonable purposes.

Education and Training Programs

Fire safety training is provided at the start of each semester for students. Students, faculty and staff participate in evacuation fire drills throughout the year. As per the current New York State Fire Code (NYSFC), information and training related to fire safety is presented to all students enrolled in higher education on an annual basis.

Fire Policies for On-Campus Student Housing Facilities

Hofstra University policies relating to fire safety are in accordance with New York state law and Nassau County ordinances. Our primary concern is the safety and well-being of the members of our community, and, as such, new policies have been created and existing policies have been modified to ensure that Hofstra University provides a safe environment and is in compliance with all New York State Fire Codes and those of the Nassau County Fire Marshal's Office. Students must comply with the specific policies listed herein as well as all other policies listed in *The Living Factor*, Hofstra University's guide to residential living. Any violation of these guidelines is considered a violation of the Student Conduct Codes:

1. Door Chocking (Propping)

A door leading out to a main hallway (common area), used as fire and/or smoke door, should not be chocked (propped) open, blocked or obstructed to prevent the normal self-closing operation of said door. [ref; NYSFC F-703.2]

2. Electric Wall Outlets

All electric cords from devices must be plugged directly into a wall outlet or an approved surge protector strip. All surge protector strips must be plugged directly into the wall outlet. No extension cords are permitted in residential halls. Furniture should not obstruct a wall outlet as to prevent an electrical plug from easily being removed from the outlet (without first moving the furniture). [ref; NYSFC F-605.5]

3. Items Suspended From Ceilings and Walls

No items shall be suspended from the ceiling or within 24" of the ceiling as to obstruct or cover lighting, smoke detectors and/or sprinkler heads. [ref; NYSFC - 901.6 and 805.1 and 315.2.1] No decorative, holiday or theme lighting shall be placed/hung on or around doors or windows.

4. Decorations

No tapestries or fabric items (including flags) shall be placed on the ceilings or walls of any room. Wall coverings may include pictures and posters, but may not exceed 50 percent of total wall space. Tapestries and/or fabric items (including doormats) shall not be placed in common areas. [ref; NYSFC 304.1] No window curtains or valances are permitted to be hung in rooms/suites/apartments.

5. Natural Cut Trees

No natural cut trees of any sort shall be erected in the common or living space of any residence hall [ref; NYSFC 804.1.1] All students must comply fully with all fire safety regulations. Violations may result in monetary, educational, and/or conduct sanctions.

6. Candles/Incense

No candles (including those used for "decoration only"), incense or anything that burns, are permitted in residence halls. No open flames of any kind are permitted in residence halls.

7. Smoking

Hofstra University is a smoke-free environment in all buildings. There is no smoking or lighting of smoking-type products in any residence hall/room or facility on the Hofstra University campus. Also, smoking is prohibited within 20 feet of all entrances/exits.

8. Malicious False Alarms

The alteration and/or destruction of fire safety equipment affects the safety of all members of the Hofstra community. Malicious damage to any fire safety equipment, including fire extinguishers, exit signs, fire doors, emergency lighting and/or the activation of a fire pull station (when the threat of fire is not present), is a crime, is not tolerated at Hofstra University and will be prosecuted to the fullest extent of the law. All students must comply fully with all Hofstra University fire safety regulations. Violations may result in monetary, educational, and/or conduct sanctions.

9. Refrigerator/Microwave

Residents may bring their own refrigerator for their residence hall room or suite. The size and number of these refrigerators are limited (one per room or two per suite) due to the electrical current they draw and the limited electrical outlets in the residence hall rooms and suites. The refrigerator must be an energy-efficient model and may not exceed five cubic feet in size. Any refrigerator larger than five cubic feet in a residence hall room and/or suite is a violation of Residential Programs policy.

Additionally, personal microwaves are prohibited in on-campus residence hall rooms and suites. The University has made arrangements with a vendor to provide both refrigerator and refrigerator/microwave rental units at competitive prices. Residents should receive by mail specific information regarding this rental service. Otherwise, information will be posted during move in at the residence hall or at the Office of Residential Programs. Although students can purchase refrigerator/freezer units of 5.0 cubic feet or less for use in residential rooms, for safety reasons, only those refrigerator/freezer/microwave multi-units rented through a University-sanctioned vendor are permitted in on-campus residential halls.

10. Electrical Appliances Policy

Due to safety issues, the following items are prohibited in the residence halls: hot plates, electrical skillets, toaster ovens, toasters, hot oil popcorn poppers, halogen lights, sun lamps, electric heaters, refrigerators larger than five cubic feet, microwaves, electric grills, deep fryers, coffee makers, humidifiers, multiple outlets, extension cords and any other appliances deemed by the Office of Residential Programs as inappropriate for residence hall use. Additionally, black light bulbs in University light fixtures are prohibited.

11. Cooking Policy

There is a \$100 fine, per appliance, for possession of prohibited cooking and/or electrical appliances in the residence halls. Any additional violation of this policy is grounds for further disciplinary action and/or fines. There are various food and beverage vending machines located in the lobbies or lounges of the residence halls. Report malfunctioning kitchen appliances or vending machines to the resident assistant. For refunds for vending machine purchases, follow instructions posted on the front of the vending machines.

Evacuation/Fire Alarms – What You Should Do

Evacuation is necessary when any building's fire alarm has been activated or the building becomes uninhabitable because of an event such as a fire, flooding, gas leak, contamination, pandemic flu, extreme weather conditions or the loss of critical services. The response depends on the extent of the emergency. Hofstra community members should familiarize themselves with the evacuation routes posted in the buildings in which they live or those they use frequently. If an evacuation order is issued for your building, cooperate fully with Public Safety/emergency personnel and:

- ▶ Don't panic. Stay calm.
- ▶ Take keys, wallets and essential belongings with you.
- ▶ If possible, wear weather-appropriate clothing.
- ▶ If your door feels hot, place a wet towel under it and **DO NOT OPEN IT**. Instead, open your window. While you await rescue, call Public Safety at **516-463-6789** or **911** to ascertain that they know your location. Make your presence known by waving something from your window.
- ▶ If the hallway is filled with smoke, crouch down as low as possible (smoke rises) and hug the wall. Walls eventually lead to doors.
- ▶ Use the stairs only; elevators turn into chimneys when there is a fire.
- ▶ Do NOT use elevators.
- ▶ Close, but do NOT lock, doors.
- ▶ Provide assistance to those with physical disabilities.
- ▶ Evacuate in a safe and orderly fashion to the nearest staging area (as determined by University personnel) and await additional instructions.
- ▶ Move away from the building. Do not return to the building until instructed to do so by Public Safety or a Residential Programs staff member.
- ▶ Find your RA or the RA on duty for the purpose of letting someone know you have safely evacuated the building.
