      i. Cornell is here to help the students with diversity on campus there are changes to
         the pronouns selection which is now on the portal and it will show up on class rosters going further.
      ii. Online reporting is up and reporting you can find it on the provost page the title IX also on the provost page, it is on many different websites to find and it is there
t         to help it be found everywhere so it can limit the time before a report is being
         submitted or during the time it happened. You can report
      iii. Questions
         1. Chair O’Brien: Public Safety Rebranding
            a. We are still moving forward, working with Public Safety is a big
               Step and we are still working on it and Cornell will be the chair of
               this. It is a way to be safer on campus, it needs to be improved
               on both sides whether it is the student or the faculty side, Public
               Safety cant be what it was before but a new job in addition to
               what they have now.
            b. How will you chose the students to serve on the committee
            c. There are going to be positions based on roles of students they
               serve on campus and We are working on getting a larger groups
               between the small to larger group
         2. Senator Fletcher
            a. What plans do you have to develop the African American studies?
b. We started working with HCLAS and we have formed a task force pre covid and we are adding more to help them and the courses they are taking. We are working with the faculty we have and adding more also by adding more diversity within the faculty. We want to attract students to take those classes.

c. I have already begun working with the departments to get the diversity training and also working with Human Resources and to make sure there are expectations set. To make sure the expectations guidelines have been taken

3. Chair Connolly-Sisk: Can you explain the online reporting system
   a. This would be a one stop shop. The reporting system has been altered and we did that so there is a person behind each report general reports will go to Cornell and he will share when needed the information.
   b. If a report goes to Title IX or biased general complaint
   c. Any report will go to each person that it should go to and they will get a confirmation email also you can report anonymously but if you report with your information there will be a follow up. We are trying a way to manage each report and we are working on them. There are many people that can work on the report for each one so you do not need to keep bringing it up.
   d. Who is Public Safety working with
   e. If it is an emergency then call 911 for an immediate response but for non emergency please call Hofstra Public Safety. We will work with students if they don't want to work with public safety.

4. Chair Mobley: There are other schools on LI to help the long term goals at Hofstra
   a. We are working on the foundation right now and we are in the state of transition on campus. I am not doing much until the new president comes in right now as well as an economic crisis. We will have a new president in 12 months and a way to reshape Hofstra. My interest is to make sure everyone is safe on campus. We are working on a plan. No new plan yet just because of president change
   b. We do have a process that we are working on now with faculty and staff to make sure everyone is comfortable and similar to make sure that there is diversity of course we are not doing any hiring now but we are working on the process so when we start hiring we are ready to go with that. No matter who joins or campus we want everyone to be ready. There is a process and everything happens in a certain way.
   c. We need to make sure we are staying accessible on campus and those need to change
5. Senator Fletcher
   a. Will you know who the report is going to?
   b. No, but it will specify who or which department it is going to.
       Being a third person they can give a report of the reports being
       reported. No reports will come back to haunt you if you are
       being retaliated to that is a reportable offense.

6. Chair Aquino
   a. The Black Student Lounge from the BLAC Committee
   b. I am setting up a meeting with the president and we are starting
       to plan where this space can be. There is a lot of planning and
       organization going towards this. I am hoping to bring good news
       to this soon. I think having the space can improve the experience
       of the space. We have been meeting with the BLAC a lot.
   c. We have brought Barkwill into this because he can manage the
       spaces better

7. Chair Connolly-Sisk
   a. Have you gotten any reports or is it working
   b. We are hoping this will be a functioning tool that we can do. I
       have not seen many reports yet. As of now we do not have any
       reportable incidents
   c. I know students that have not seen the reporting system do you
       know what other locations to find this
   d. I will take this feedback back to the faculty and staff to see what
       we can do.

8. Senator Cheng
   i. Have you gotten any feedback from student
      organizations about certain locations on campus.
      1. I will find some more information and bring
         something back to you. There should be no
         excuses to students who do not feel comfortable
         sitting in any location
   b. President Stark
      i. Is there a major takeaways to blast out or inform the
         students about
         1. I think the Online reporting system is the
            biggest. The area of focus is that. So, if there is
            anything you can do to help with that. Also, I
            will tap into SGA about feedback and the Public
            Safety and on ways to help I have had lots of
            meetings with Public Safety and they are not
            always reliable but I want to enhance that and
            what the perspective is also from the students.
2. I want to get the transition up and running nice and smooth when we get the new president and I do not know the final people but there are expectation that the Search committee knows what is needed

   c. Secretary Greenberg
      i. Is there a way the reporting system can be added to the portal box as a tab because SGA has its own section

C. New Business
   a. S.A.2020.85.005
      i. There have been some major and minor changes to the Appropriations Policy Series that have not been updated for two years. An organization is allowed to attend only two semesterly meetings unless otherwise stated due to certain circumstances. If an item purchased with SGA funds is lost or destroyed, that fund will not be available for the next academic year. There are now specific definitions for both “retreat”, “social outing”, and “conference”. Please refer to the document for stricken statements and changes in wording.

      ii. Chair Aquino: What was the reason behind not allocating any funds greater than 28% of the bi-annual budget?
          1. No club typically goes above the 28% anyways unless they are a sport, but we want to be able to support all clubs and organizations and evenly distribute the funds throughout the different categories.

      iii. Senator Behm: I believe the wording for the policy on allocated funds for apparel should be re-thought.
          1. You are absolutely welcome to come up with a proposed change in the wording, but a formal debate would need to be held.

      iv. Chair Connolly-Sisk moves to strike the 28% percent policy
          1. Motion Seconded, Motion Objected
             a. Chair Sisk: I want this to be unstuck I don’t think a club should be given that much money.
                i. Chair Khandelwal: That is a lot of money
             b. Senator Welch: That is a lot of money and then the committee gets hesitates to allocate that money
             c. Chair Aquino: The Committee does see a lot of clubs but there are clubs that have a lot of money and we want to have a cushion in case someone does request
                i. Senator Fletcher: I think there should be a limit.
             d. Comptroller Cote: The 28% allocates to around 7x,xxx dollars and in my three years with Appropriations I haven’t seen that much money given out a once
             e. By a vote of 17-11-0, the motion passes

v. Chair Liebowitz moves to unstrike the expenditure under reimbursements

i. When thinking about the possibility of returning to campus next semester, we thought it would be responsible of Hofstra to provide assistance to any students who need to reserve hotel rooms or other accommodations in the name of adhering to the two-week quarantine period per NYS travel guidelines.

ii. Chair Aquino: Are you specifically asking for these accommodations for the foreseeable future, or for another specified time? What specifically does the grace period refer to?
   1. We’re only asking for assistance when reserving accommodations is needed to adhere to travel guidelines in these extraordinary circumstances.

A Resolution to Provide Financial Aid to Students in wake of the COVID-19 Viral Crisis

*Whereas* the Hofstra Student Government Association implores Hofstra to facilitate the reservation of hotel rooms by students in order to abide by the New York, New Jersey, and Connecticut travel advisory currently in effect that mandates a two-week quarantine before entering campus this fall semester. SGA requests Hofstra to reserve rooms at the lowest possible cost to students, in order to maximize the number of students that will thereby have the ability to return to campus.

*Whereas* SGA requests that Hofstra allow the students who require this help be given a short grace period in reserving these rooms in which students may have some time to reformat their schedules to allow for these reservations, given the short period of time before the semester begins i.e. one week.

*Whereas* many students do not meet the criteria to quarantine on campus and due to the economic and housing hardships SGA encourages Hofstra to help students with the cost of the rooms especially students who would otherwise not be able to return to campus. During this time where students with economic hardship due to the COVID 19 Virus we The Student Government Association, ask that Hofstra help these such students return to some semblance of normalcy in their lives.

*Whereas* we The Student Government Association call for Hofstra University to financially support and reimburse students who have with, the express purpose of utilizing campus residence halls, Campus dining, and services, purchased hotel rooms to quarantine in accordance with Hofstra and New York state travel advisory guidelines.

*Whereas SGA encourages Hofstra University to provide aid to students who do not meet criteria to quarantine on campus, and provide assistance in their return. Due to economic hardship experienced by many students, SGA requests Hofstra’s help in returning a semblance of normalcy in the lives of the student body.*
