B. Special Business
   a. Cornell Craig, Chief Diversity and Inclusion Officer
      i. Cornell is here to help the students with diversity on campus there are changes to
         the pronoun selection which is now on the portal and it will show up on class
         rosters going further.
      ii. Online reporting is up and reporting you can find it on the provost page the title
         IX also on the provost page, it is on many different websites to find and it is there
         to help it be found everywhere so it can limit the time before a report is being
         submitted or during the time it happened. You can report
      iii. Questions
         1. Chair O’Brien: Public Safety Rebranding
            a. We are still moving forward, working with Public Safety is a big
               Step and we are still working on it and Cornell will be the chair
               of this. It is a way to be safer on campus, it needs to be improved
               on both sides whether it is the student or the faculty side, Public
               Safety cant be what it was before but a new job in addition to
               what they have now.
            b. How will you chose the students to serve on the committee
            c. There are going to be positions based on roles of students they
               serve on campus and We are working on getting a larger groups
               between the small to larger group
         2. Senator Fletcher
            a. What plans do you have to develop the African American
               studies?
            b. We started working with HCLAS and we have formed a task
               force pre covid and we are adding more to help them and the
courses they are taking. We are working with the faculty we have and adding more also by adding more diversity within the faculty. We want to attract students to take those classes.

c. I have already begun working with the departments to get the diversity training and also working with Human Resources and to make sure there are expectations set. To make sure the expectations guidelines have been taken

3. Chair Connolly-Sisk: Can you explain the online reporting system

   a. This would be a one stop shop. The reporting system has been altered and we did that so there is a person behind each report general reports will go to Cornell and he will share when needed the information.

   b. If a report goes to Title IX or biased general complaint

   c. Any report will go to each person that it should go to and they will get a confirmation email also you can report anonymously but if you report with your information there will be a follow up. We are trying a way to manage each report and we are working on them. There are many people that can work on the report for each one so you do not need to keep bringing it up.

   d. Who is Public Safety working with

   e. If it is an emergency then call 911 for an immediate response but for non emergency please call Hofstra Public Safety. We will work with students if they don't want to work with public safety.

4. Chair Mobley: There are other schools on LI to help the long term goals at Hofstra

   a. We are working on the foundation right now and we are in the state of transition on campus. I am not doing much until the new president comes in right now as well as an economic crisis. We will have a new president in 12 months and a way to reshape Hofstra. My interest is to make sure everyone is safe on campus. We are working on a plan. No new plan yet just because of president change

   b. We do have a process that we are working on now with faculty and staff to make sure everyone is comfortable and similar to make sure that there is diversity of course we are not doing any hiring now but we are working on the process so when we start hiring we are ready to go with that. No matter who joins or campus we want everyone to be ready. There is a process and everything happens in a certain way.

   c. We need to make sure we are staying accessible on campus and those need to change

5. Senator Fletcher

   a. Will you know who the report is going to?
b. No, but it will specify who or which department it is going to. Being a third person they can give a report of the reports being reported. No reports will come back to haunt you if you are being retaliated to that is a reportable offense.

6. Chair Aquino
   a. The Black Student Lounge from the BLAC Committee
   b. I am setting up a meeting with the president and we are starting to plan where this space can be. There is a lot of planning and organization going towards this. I am hoping to bring good news to this soon. I think having the space can improve the experience of the space. We have been meeting with the BLAC a lot.
   c. We have brought Barkwill into this because he can manage the spaces better

7. Chair Connolly-Sisk
   a. Have you gotten any reports or is it working
   b. We are hoping this will be a functioning tool that we can do. I have not seen many reports yet. As of now we do not have any reportable incidents
   c. I know students that have not seen the reporting system do you know what other locations to find this
   d. I will take this feedback back to the faculty and staff to see what we can do.

8. Senator Cheng
   i. Have you gotten any feedback from student organizations about certain locations on campus.
      1. I will find some more information and bring something back to you. There should be no excuses to students who do not feel comfortable sitting in any location
   b. President Stark
      i. Is there a major takeaways to blast out or inform the students about
         1. I think the Online reporting system is the biggest. The area of focus is that. So, if there is anything you can do to help with that. Also, I will tap into SGA about feedback and the Public Safety and on ways to help I have had lots of meetings with Public Safety and they are not always reliable but I want to enhance that and what the perspective is also from the students.
         2. I want to get the transition up and running nice and smooth when we get the new president and I do not know the final people but there are
expectation that the Search committee knows what is needed

c. Secretary Greenberg
   i. Is there a way the reporting system can be added to the portal box as a tab because SGA has its own section
      1. I will look into this

C. New Business
   a. S.A.2020.85.005
      i. There have been some major and minor changes to the Appropriations Policy Series that have not been updated for two years. An organization is allowed to attend only two semesterly meetings unless otherwise stated due to certain circumstances. If an item purchased with SGA funds is lost or destroyed, that fund will not be available for the next academic year. There are now specific definitions for both “retreat”, “social outing”, and “conference”. Please refer to the document for stricken statements and changes in wording.
      ii. Chair Aquino: What was the reason behind not allocating any funds greater than 28% of the bi-annual budget?
         1. No club typically goes above the 28% anyways unless they are a sport, but we want to be able to support all clubs and organizations and evenly distribute the funds throughout the different categories.
      iii. Senator Behm: I believe the wording for the policy on allocated funds for apparel should be re-thought.
         1. You are absolutely welcome to come up with a proposed change in the wording, but a formal debate would need to be held.
      iv. Chair Connolly-Sisk moves to strike the 28% percent policy
         1. Motion Seconded, Motion Objected
            a. Chair Sisk: I want this to be unstuck I don’t think a club should be given that much money.
               i. Chair Khandelwal: That is a lot of money
            b. Senator Welch: That is a lot of money and then the committee gets hesitates to allocate that money
            c. Chair Aquino: The Committee does see a lot of clubs but there are clubs that have a lot of money and we want to have a cushion in case someone does request
               i. Senator Fletcher: I think there should be a limit.
            d. Comptroller Cote: The 28% allocates to around 7x,xxx dollars and in my three years with Appropriations I haven’t seen that much money given out a once
               e. By a vote of 17-11-0, the motion passes

   i. When thinking about the possibility of returning to campus next semester, we thought it would be responsible of Hofstra to provide assistance to any students who need to reserve hotel rooms or other accommodations in the name of adhering to the two-week quarantine period per NYS travel guidelines.
Chair Aquino: Are you specifically asking for these accommodations for the foreseeable future, or for another specified time? What specifically does the grace period refer to?

1. We’re only asking for assistance when reserving accommodations is needed to adhere to travel guidelines in these extraordinary circumstances.
2. The grace period refers to paying for student housing. Our hope is that students will not have to pay for their student housing until they are physically on campus.

Comptroller Cote

1. Have you brought this resolution to the attention of any administration?
   a. Our hope is that by bringing it to the Senate's attention first, we will then be able to bring it to the attention of the necessary administration.
2. Would you be open to tabling this resolution?

   A. Joe Barkwill emailed back. He took a tour of the student center with Dean Gaby, and drawings and plans were developed. They are under review with Dean Gaby and probably the whole Student Affairs department. Plans included reallocation/relocation of admin offices, SGA, and other clubs. Nothing is final, but he feels confident that they will find a space that meets their needs.

C. Should we think about a way to streamline student COVID concerns? Maybe via a Google form, or we can encourage admin to create an email or something?
   a. I can’t believe there’s not already a streamlined way to communicate COVID concerns. I think there should be and we can propose how and who it goes to to be read and delegate.-Ben
   b. Committee is very supportive of this idea. Need to get data to support it. Needs to be easily accessible; need to figure out how we get the feedback to the specific departments
   c. Can advertise Safe start more with communications, can also create a graphic with different emails to reach out to, can try to do some work with the portal to make info more accessible.
