A. Quorum Call

- a. Quorum is set at 25

B. Special Business

a. Compass Dining

- i. Chair Cote moves to open the Gallery
 - 1. Motion Seconded and passed
- ii. Bruce Bechtle and Lisa Ospitale
- iii. Have had a small group meeting with some members of SGA and other students
- iv. Architect and designer walked around and took measurements of the Student Center in order to put things discussed in the Group Meeting into effect
- v. Wants to start construction on May 18th
- vi. Questions
 - 1. Chair Osner
 - a. Dining Hours posted this semester, Main student center is only open till 9 even though Starbucks is open till 10, what happened with the hour changes?
 - i. Something in the original arrangement back in 2017, negotiations at the time said that the times would revert back to 9:00 PM. Many opportunities to eat on campus after 9:00, so it shouldn't be an issue. Mainly a labour issue. ABP in the Axinn was part of that agreement, ABP is not as big as Starbucks or Dunkin, fewer fans, therefore, it doesn't make sense for them to operate as long.
 - 2. Senator Cady
 - a. Is this in the compass agreement in the hours?

- i. Yes
 - b. Has there been any discussion to offering more options?
 - i. There hasn't been any at this point, And yes we are always open to discussion
- 3. Senator Khandelwal
 - a. A lot of student groups sell beverages in the Atrium, how was the decision to ban selling beverages taken?
 - i. Limit of beverages is from the Nassau County Health Department. If beverages are sold for a profit they would fine you, because it is a Nassau County Health Code violation.
 - ii. There was a case given to IEI at a community meeting and it came from bringing off campus food to Hofstra.
 - iii. If someone brings in perishable food it needs the proper licensing and needs the proper rules and transportation needs, If someone brings food and gets sick they will say they got sick at Hofstra not from Chick-Fil-A.
- 4. Senator Fletcher
 - a. Is there not any exception on campus, is there any openness for negotiation?
 - i. I don't think so, you would have to contact Nassau County.
- 5. Chair Alameda
 - a. The Meal plan dining options we can choose from, do you set those, or does Hofstra set them?
 - i. It varies a lot to the venue.
 - b. How much does an average meal cost?
 - i. Usually \$5 to \$6
 - c. By setting an average of \$7.50 per meal, a semesterly cost is around \$2,362.50, and this is a lot of money. Has there been any discussion regarding this?
 - i. I think it comes down to budgeting and how much the students are eating, there are a lot of students that do not go home on the weekend and it depends on how much they eat, and depends on throughout the day. We are in line with other costs to other campuses.
 - ii. I think compass should work with the school to get better prices for compass, and if you get student choice twice in a day you are going more over than the "\$7.50 per meal limit"
 - 1. All retail pricing is approved by Hofstra before it comes to us in the Student Center. For starbucks It also comes into with the prices

already on it especially when the students are buying mugs.

6. Gallery Student

- a. The other day in line for Einstein Bagels, the menu price differed from the Receipt price, could you explain why?
 - i. We will check on the menu boards and fix the prices and the cashiers are just pressing the button when programming

7. Chair Cote

- a. Prices have been steadily increasing, and I do recognize you take inflation into account, but is Compass taking any steps to ensure food remains accessible and affordable to students?
 - i. In the agreement from the university and the price comes the CPI from the government and it shows the max increase that can be added in the fall. The maximum price increase was 2.8%. Coke and Pepsi increased their prices 4.5% and 4.25% respectively. We do not change the price mid year. Last year on bottled beverages went down 1.7%. Items such as Peanut butter is considered a convenience item and when you have more items the bigger the items and more in stock the cheaper the price, Hofstra is charged a higher price due to a limited stock. We have to pay a higher cost. We sell it for your convenience if you buy it from somewhere else we understand because they are buying it in bulk.
- b. In short nothing can be done
 - i. Yes, but some things don't change prices at all, but others may go up the full 2.8%, fruit prices change all the time,

8. Senator McDonough

- a. You increased Coke prices up by 2.3%, why didn't you do the full increase?
 - i. This was last year, and Coke and Pepsi changed it in the middle of the year, so we took a huge hit.
- b. How come not every price increased?
 - i. Sometimes we take the price hit to move items off shelves, we try to keep things as reasonable as we can. If there's no substantial item increase, we won't increase the price.

9. Gallery Student

- a. I have a really big problem with Compass, I have food allergies, specifically, dairy, peanut and treenut. However, here I have had several problems with cross-contamination, however, about a

month ago, the instagram for Hofstra Dining posted something about vegan cream cheese, and your post about it insinuated it had no dairy or nuts. I ingested it, and almost died as a result of that.

- i. I apologise about that, and I know it was life or death, but once we found out, we changed all the signage for everything. We can talk separately about that if you'd like. We will have people serving at the G8 station soon, due to the potential for cross-contamination.
- b. I know there are marks for gluten free and certain other allergies but can there be better and more clearer labels.
 - i. Items are getting more labels and we are going to get better at that.
- c. I know you are doing more labels on the baked goods now and I just have issues with that because of the issue of missing ingredients that are obviously in the item.
 - i. We have a database that has all the ingredients, if you have any questions, please check on dineoncampus.com/hofstra.
- d. For people that have allergies there are not really breakfast options.
 - i. G8 is not going away, it is going to get expanded!

10. Senator Cady

- a. I know about the Student Choice, but what else does Compass offer in regards to budget meals?
 - i. We are offering combo meals, includes a beverage, a side, and an entrée, but generally that is where the discount is.
- b. Is there any conversation about increasing these?
 - i. That can be something we can look at
 - ii. If you go to the deli you can go right there as well.
- c. Is there any data available to students about the prices so they can look at and compare the prices themselves?
 - i. We have lists if you want to look at the thousands of items we can look at. Anything that comes prepackaged from an outside company will never be on a combo deal.

11. Chair Firooz

- a. I know you're saying that the price increase was set in the summer, but up until a few weeks ago, the prices were incorrectly listed. Could you please keep the pricing updated?
 - i. The team didn't update the signage, and someone mentioned that the price was wrong.

- b. Do we know the amount that is taxed on food, because price listing is usually different from what we're charged?
 - i. Meal plans are not taxed, and a few weeks ago all the labeling was put up in the Student Center. If there is an issue please self identify and talk to a manager so you can get the proper amount.

12. Senator Fletcher

- a. I think the bottom line is that everything is far too expensive here, as Senator Cady said, a sandwich and Lays chips are \$9, and nowhere off campus would charge as much for that much. Because students don't eat on campus and are using the Pride Pantry more and more, and as far as signage, yes that is important, but it seems as if the underlying problem is that it is far too expensive. I would like to see some kind of communication between admin and students about somehow lowering prices.
 - i. We can look into it and work with the university, in the long run you should stay away from the set prices and and eat with foods on campus and made on campus.

13. Gallery Student

- a. Last year the price of the Pasta was brought up, and this year the size was decreased but the price remained the same? I could go to the store and get the ingredients myself for a 1/3 of the price, so where does the price come from?
 - i. The price is coming from what it costs us to make to product, the cost is staying the same and the price stayed the same. I compared it myself and saw a difference.
 - ii. I will go back and look at the data for the pasta station
- b. There have questions already about procol on how we catch the prices
 - i. Humans are humans and we do make mistakes. But I do make more concerns for the Allergens parts because that is more important. We have to go back and check the ingredients list, we need to look at the positives in the student center. What is more important the equipment goes down or the sign is wrong.
- c. Is there a system that is going to be designated for the allergens area.
 - i. Yes the system will grow and the staff is being trained. We try to accommodate as many students as possible. We are trying as hard as we can.

14. Senator Fletcher

- a. Why not have two different sizes of Pasta, but it's so much that I can never finish it, I feel like if we can have two sizes that would be extremely helpful.
 - i. Yes we will look into it.

15. Senator Ortiz

- a. What efforts are being done to bring more ethnic food onto campus?
 - i. One of the big problems we have had is bringing more halal foods on campus with more ethnic varieties. If our chefs are not comfortable with that cuisine, then they will refuse to cook it, and we accept that.

16. Gallery Student

- a. Why were we not allowed to film this?
 - i. Anytime we are being recorded all questions need to be brought forward before the meeting. That comes straight from the university. If you need anything you can always see Bruce or Lisa in their office. We are always here to listen to the students

17. Senator Battipaglia

- a. I didn't know that we weren't taxed every time, so I just wanted you to be aware that every time I buy a sandwich, the kiosk says that it is \$4.07, but I'm charged around \$5.50
 - i. We have all the information online and you can add money to your meal card and you do save money from tax.

18. Chair Osner

- a. I've seen the amount of outreach that you've been doing, and it helps for students to put a face to the name, which is really good because otherwise compass seems like a big domineering force.

19. Senator Hotaling

- a. Moves to close the gallery
 - i. Motion Seconded and passed

D. Approval of Cabinet Minutes from November, 6 2019

 - i. I'm not sure, different organizations do, but not Hofstra University
 - 3. Senator Stark
 - a. I know I brought this up in the Hempstead Initiative, I think I'd love to have us go to speak to High School SGAs

 - i. Chair Alameda: the culture has changed with senators over the years, I think we should have the questions already done and that way it will make it easier to keep it organized.
 - ii. Senator Khandelwal: I agree with the previous speaker, A lot of the answers were the same
 - iii. Senator McDonough: I am not sure if Hofstra can get a better deal with Compass maybe we can look forward. I asked why they didn't adjust the price overall. But they only increased for parts of food options
 - iv. Senator Stark: I think it went very well and that we are aware of what happened
 - v. Chair Firooz: Lisa is the Marketer and doesn't have any information about the policy she is very proactive and a great admin to work with
 - vi. Senator Connolly-Sisk: I'm not sure what exactly we can do post this meeting.
 - vii. Senator DeBiso: I think we can follow up with them and help them budget for the following year
 - viii. Chair Alameda: I think we can help, because it isn't just compass it is Nassau county as well and find what they can work on and what they cant work on
 - ix. Senator Stark Moves to extend by 5 minutes
 - x. Senator Stark: I want to reiterate the part where we thank them for being here
 - xi. Senator Mcdouonugh: I'm glad anecdotes weren't brought, we should compile them and have them presented as a group

- i. Survey questions presented by Chair Osner, we put questions in proposed by other Senators. The program will be used by software done by Hofstra so format will be all fixed
 1. Senator Ortiz
 - a. Asks about Question 4
 - i. Senator Stark responds I think the issues should be addressed based on the college you are in and it takes away from what classes you want to take. This was brought up by a guest from last year because Hofstra requires a lot from distribution courses.
 2. Chair Osner moves for a 20 minute unmoderated caucus at the table
 - a. Motion seconded and Passed
- ii. Chair Osner talks about question 1 Smoking ban on campus
 1. Senator Fletcher
 - a. Thinks it is invasive asking questions about smoking on campus to other students
 2. Senator Cady
 - a. It is against school rules to smoke on SOuth Side
 3. Chair Firooz
 - a. It is a cultural aspect to smoke on campus
 4. Chair Alameda
 - a. There are effects from people who don't smoke
 5. Chair Osner
 - a. Issue about this question is the rule about the ban and is Public Safety going to enforce it and how will it be enforced
 6. Senator Stark
 - a. I think asking it is hard but why
 7. Chair Firooz
 - a. We asked this question previously and it is hard to defend it
 8. Senator Khandelwal
 - a. Second hand smoke has been linked to people who smoke
 9. Senator Cady
 - a. They had an asthma attack because people were smoking on the south side near the Public Safety Building
 10. Chair Osner
 - a. Talks about the location of the ban it states that it is anywhere on the Hofstra University property
 11. Senator Fletcher
 - a. I think putting this on the whole question is hard
 12. Chair Alameda
 - a. I think that it is too late and we should give feedback back and have them make the question better and put it in another survey
 13. Talks about the Meal Point Question

- a. Is the GoFeedMe going to be a good idea or not and if other students were going to share their meal plan
- 14. Senator Connolly-Sisk
 - a. I think that wording the question about with the meal plans is hard
- 15. Chair Alameda
 - a. I think that this question is misleading
- 16. Senator Ortiz
 - a. I think going from a big plan to no plan is hard and we should have an in between question
- 17. Senator McDouough
 - a. I think that this question isn't important
- 18. Senator Fletcher
 - a. I tried to ask about a venmo system for meal point but I will try again with VP Fibiani
- 19. Senator McDonough
 - a. I think question 11 should be struck
 - b. I don't think this column is good
- 20. Senator Fletcher
 - a. I put it in the question because i had this previously and wanted to pursue it again based on the fine of not carrying your ID
- 21. Senator Cady
 - a. I think the argument is good because it shows that fine is a bad idea unless we have something that is backing up the data
- 22. Senator Battipaglia
 - a. I think that it is good because it is based on the results of people having the ID and leaving it somewhere else
- 23. Senator Cady
 - a. Is the A/C units also there for heating?
- 24. Chair Alameda
 - a. I think that this is confusing and we should have an example part.
- 25. Senator Cady
 - a. I think it is a commitment that it hasn't been signed yet
- 26. Chair Osner
 - a. This questions was added by SGA Advisor Denise if you want to strike it you can
- 27. Senator Ortiz
 - a. There are all these classes that need to be changed but I don't know if the question is related to the amount of classes
- 28. Senator Mcdounougn
 - a. How is the wording done for the question
- 29. Senator Stark

- a. Why would you strike that questions
- 30. Senator Jack
 - a. Mainly because it the liberal arts college
- 31. VP Dimes
 - a. These surveys have come out over time and they were not answered and making changes to the schedule and adding a new common hour and how to make classes overlap with each other on Monday, Wednesday, Friday or Tuesday, Thursday. Mainly because it is hard to get across campus when you have classes back to back
- 32. Senator Cady
 - a. Moves to extend unmoderated caucus by 7 minutes
 - b. Motion seconded and passed

- 35. Senator Khandelwal
 - a. I think we can merge 2 questions because they are very similar
- 36. Chair Osner
 - a. I think the classes are hard for distribution
- 37. Chair Firooz
 - a. The state manages what distribution you need to get the degree you want also if I study something, the states is the one that finalizes the degree I don't know how the class and the program will be counted
- 38. Senator Stark
 - a. I think we can fix the wording
- 39. Chair Firooz
 - a. I think we can fix it by asking what classes you're taking
- 40. Senator Stark
 - a. I think we can move away from that question
- 41. Chair Osner
 - a. We have a survey again in the spring and we can put these in the survey
- 42. Senator Ortiz
 - a. I think that it is a case by case need and you will not fill the needs of other student s
- 43. Senator Stark
 - a. I think that HCLAS is so big that it is hard to modify it
- 44. Chair Alameda

- a. The states mandates it and it is hard to work with the requirements
- 45. Senator Stark
 - a. I think it is hard based on my major and how we work with it.
- 46. Senator Ortiz
 - a. How do we handle it if people don't take that many courses
