Programs Completed:

1. Pride Expo
 - a. This semester started with Pride Expo. SGA collaborated with OSLE in order to put on Pride Expo this year with a twist. We focused mainly on involving clubs in the event. We were able to get more clubs involved because this year Pride Expo was a carnival instead of large booths. We also participated in the event. Our booth's theme was Monster's Inc and we had tons of giveaways such as shirts, mugs, pins, and phone wallets. There were many families and alumni that came by our booth and enjoyed the game. We were fortunate enough to win the second-place prize of \$1000, which we have donated to the Pride Pantry.
2. Pride Unleashed Week
 - a. Monday: SGA will be tabling and giving out different Pride-themed giveaways. We have fanny packs, pop sockets, phone wallets, and rally towels. This will be during the day. At night SGA will be participating in Res Hall Rush with Athletics to go personally invite members of the Pride to the basketball games.
 - b. Tuesday: SGA will be tabling during the day giving out basketball donuts and coffee. That night SGA will be having trivia at 7 pm in the MPR. We have some fun giveaways courtesy of the bookstore and compass. The bookstore has also allowed us to paint the window so that will be done on Sunday prior to PUW.
 - c. Wednesday: Athletics is having a pep rally in the atrium during common hour. Afterward, compass is hosting a basketball-themed cupcake competition. SGA will be participating in tabling all day with our polaroid camera and a PUW frame so that students can come and take some fun photos. The first game is Wednesday night at 7 pm. The first 500 students are getting free shirts for the Gold Rush, which is the theme of this game. The t-shirts are cosponsored by SGA.
 - d. Thursday: SGA will be tabling in the atrium with a banner for students to sign and write messages on for the men's and women's basketball team wishing them good luck on their first games. The bookstore is giving 20%-25% off some of the Hofstra apparel for people that sign the banner for that day.
 - e. Friday: SGA is tabling for the First-gen takeover day. SGA will be giving out basketball stress balls to students that come by our table.

- f. Saturday: SGA has worked with IFC and Athletics to put on a tailgate between 1-4 pm in front of the atrium. Students will get to hang out and listen to music before the game, as well as get to eat barbeque made on a live grill. After the tailgate, the game starts at 4. SGA will be attending the game after.
3. Pride Block
 - a. We have officially passed a resolution for the Pride Block indicating that SGA will take responsibility for the block. Many members of SGA and some constituents have worked on this project for the past few years. We are working this year to hopefully get the block up in the pride park or in front of bits this year.
4. Stressbusters
 - a. This year for stressbusters, spirit has decided to participate in three events that we hope that some will be cosponsored with Entertainment Unlimited. We will be having a pizza bar, a hot chocolate bar, and an ice cream bar. This year we will also be putting on a silent disco.
 - b. We are also working with SAPA in order to choose clubs and organizations that also want to participate in stress busters for the week.
 - c. Programming Deputy, Senator Paturzo, is heading stress busters.
5. Build-a-Friend
 - a. This year spirit has taken the role of sponsoring build-a-friend. Build-a-friend is an event for students to come and stuff an animal. This will be part of the stressbusters' week.
 - b. Programming Deputy, Senator Paturzo, is heading build-a-friend.
6. Hofstra Celebrates the Holidays
 - a. We have recently applied to this and more information to come.

Next Semester

1. Homecoming
2. Pride Values-with Department of Student Affairs (aligning with last official week of basketball)
3. Spirit Week
4. Build-a-Friend
5. Mural

Student Appreciation Week:

This year, we reached over 700 students with the SGA survey. Tabling consisted of themed days that corresponded with initiatives that SGA is currently working on.

Sustainability
Student health
Food insecurity
Hempstead initiative

Giveaways included donations from Career Center and the Office of Student Advocacy and Prevention Awareness, reusable straws, flower pots, and student health kits. We were able to make 20+ giveaway bundles to give out to the first 20 students at SGA Dinner. SGA Dinner had well over 20 students come out to get free food and mingle with their senators.

Initiatives:

Sustainability has written a resolution to call for Hofstra to sign onto the Carbon Neutrality agreement. This resolution will be seen tonight.

Accessibility has had discussions with Student Access Services and determined the best projects to pursue moving forward.

Hempstead Initiative had meetings with Anita Ellis and have determined that their first step would be to go to a community board meeting in the spring semester. This was a difficult initiative to get off the ground in one semester.

Service Chair:

Organized SGA's presence at two service events during the semester, Shake-A-Rake and the clean up of the bird sanctuary. She has plans to continue this model of providing multiple service opportunities during the semester and will be writing legislation about mandatory service hours.

S.A.2019.84.014

A Resolution to Detail Student Government Association's Demands Pertaining to Hofstra University
Transitioning to Carbon Neutrality in its Transportation and Energy Systems

Whereas, the Student Government Association, hereafter referred to as SGA, demands the transition of Hofstra University's transportation and energy systems to be carbon neutral and invest in mitigation towards Climate Change related impacts on school facilities, students, and the local community, by signing on to and complying with the mandates of the Climate Agreement under 'The President's Climate Leadership Commitments of Second Nature'; and

Whereas, SGA requests the appointment of a Sustainability Officer to serve as the Implementation Liaison as mandated by the Climate Agreement; and

Whereas, SGA calls for Hofstra University to reach carbon neutrality under the three scopes defined under the Greenhouse Gas Protocol of Second Nature by no later than January 1st, 2030; and

Whereas, SGA reminds Hofstra University of the long-term economic incentives of the transformation of its transportation and energy systems to carbon neutral and the value of these actions on student admission and retention; and

Let it be resolved, that the SGA compels Hofstra University, due to its size, power, and purpose, to be an active leader in the fight against ecological and climate catastrophe and, through its actions, reflect the world that is necessary for its students to live in safety, health, and prosperity.

G. New Business

- a. S.A.2019.84.013
 - i. Chair Alameda and Senator Stark present this Senatorial Action
 - 1. Changes to Preamble so it says the students can make changes so it says to advocate. Also, it says that any E-board member can't be on another eboard position.
 - ii. Senator O'Brien
 - 1. How did you get that so e-board members can't sit on another board
 - a. Mainly because it is a lot for a student to do at one time.
 - iii. Senator Fletcher
 - 1. Asks how the President and VP Feel
 - a. President Harley: we put in a lot of hours that people do not see and it can be overwhelming to be on other boards of other clubs. We saw it twice already and it makes it very challenging to sit on multiple executive boards.
 - iv. Senator Battipaglia
 - 1. Would you be open to changing the wording to Executive Cabinet?
 - a. No, because the Cabinet includes the chairs, but that is not who this section is geared towards.
 - v. Senator Ortiz
 - 1. You said e board members can't be on the eboard but she can be a part of the club.
 - a. Correct

- vi. Chair Alameda
 - 1. No changes to president; section except the advocacy board where it is a rotating schedule, I placed you there so each of you have your own ideas and it is a way for you to be part of the conversation.
 - 2. Office of Comptroller presented by Comptroller Bathija
 - a. I made this there so that rollback is happening. It is in the policy series so that it can be changed if needed every year. It is what I do know it is just in writing. IRCB is kept there because it is important and it is a way for the comptroller to better manage the clubs spending. Also I added the part where comptroller must sit on Appropriations.
 - 3. Office of Secretary - the COO position was scrapped from some ideas but the Ethics and Conduct Chair was added to Secretary from Rules, or in this part would be club resources committee because the Secretary is the manager of the SGA body and it is an important role and it should be part of Secretary
 - 4. VP Dimes
 - a. What was the purpose for the secretary to sit on the advocacy board because they are not elected?
 - b. To maintain consistency within the E-board
- vii. End of Semester to Report changes
- viii. If the Chair of Public Relations sits on another committee as a voting member so it was a way to get your voice heard, it was a way for more voice to be heard.
- ix. Associates position changed so they can have a voice
- x. I established 8 standing committees which are Appropriations, Club resources, Academic affairs, Equity and inclusion, Facilities and operations, Wellness and campus safety, Communications, Programming.
- xi. Senator Connolly-Sisk Would this make the meeting shorter?
 - 1. I think it is based on this years senate and it will be around the same time. The committees are the same except the programming which would be longer. Some committees will be shorter based on the nature of that committee
- xii. Senator Battipaglia
 - 1. Would you be afraid if the committees meet every other week?
 - a. I'm not afraid, I think it is more beneficial to be every week so it doesn't seem to be less afraid.
- xiii. Senator DeBiso
 - 1. Would associates be able to sit on the advocacy meetings?
 - a. I think that they would still have to be a senator because of the information.
- xiv. Comptroller Bathija
 - 1. What if we end super late?
 - a. That would be the discretion of the Chair

- xv. Vice President Dimes
 - 1. What if they want an option to sit on a committee and they can't because of the meeting times
 - a. We will try and work with it
- xvi. Senator McClusky
 - 1. What if they don't want to sit on the advocacy board?
 - a. We need to people that need to sit on committees if they are passionate about it. You signed up for more and more information and we brought more up if you want to meet then meet, If you are just Appropriations oriented then it is all we are asking for.
 - 2. How would you get effective answers?
 - a. By meeting with multiple admins
- xvii. Senator Fletcher
 - 1. Would it be ok if the advocacy meeting meet before senate and so admin can come in
 - a. I was interested in it mainly was from feedback because people might be less interested in the Senate meeting.
- xviii. Senator DeBiso
 - 1. Time Limit on senate?
 - a. The time limit was set by SGA advisor Boneta because last year we were going late every senate and the it was addressed by the president and vice president to end Senate at the discretion of the chair
- xix. Comptroller Bathija
 - 1. How would senate adjourn?
 - a. It would adjourn after the meeting so people have to allocate time for the other meeting
- xx. Senator DeBiso
 - 1. Is there minutes
 - a. Yes
- xxi. Senator Colon
 - 1. What about the wording
 - a. It would be friendly
- xxii. Senator Greco
 - 1. What about the time limit
 - a. It would be based on the day and the meeting time but the meeting shouldn't go as long but depends on how much people talk.
- xxiii. Chair Cote
 - 1. Timing of Senate
 - a. What about budget appeals?

- i. Did you build anything about the advocacy committees, I think it should be held as a special meeting or the advocacy meeting wouldn't meet that week
- xxiv. Appropriations Section addressed by Chair Cote
 - 1. I added the allocations part to address if we had no money or didn't feel they needed it but that happened last year and how many times they can come to weekly meetings. Added the power to Veto based on the committees decision, also changed the way to fund and how they can overturn the policy series when it was necessary, Sometimes it is very restricting Made it easier to overturn information that was poorly written.
- xxv. Club Resource Committee
 - 1. It was based on making the lulls different and it makes it easier because the clubs would be combined, they would allocate office spaces, storage space there is a lot of overlap and it is a way to reduce that
 - a. Senator Fletcher
 - i. How would the investigations go?
 - 1. Investigations would come to the chair if it policy it would go to rules if it is office space it goes to club resources but it would eliminate the stress
 - 2. Senator Ortiz-Jimenez
 - a. How would the trainings go?
 - i. I think it is more policy series
- xxvi. Academic Affairs
 - 1. I would, the certain divisions work with based on what the committees are, but it is left open based on the needs of the Student Government.
 - 2. Comptroller Bathija
 - a. How would a sample agenda look?
 - i. Any issues brought up from friends or anything similar would run either by survey or anything similar. How do we collect more data with the concerns addressed.
 - 3. Senator Stark
 - a. How would the conversations go, they would go based on the concerns addressed
 - 4. Senator Ortiz
 - a. What is the purpose?
 - i. If you have wording it would be friendly
 - 5. Senator Khandelwal
 - a. I don't think they have power over academic affairs?
 - i. SGA doesn't have the powers but it would depend on the case or certain offices based on our needs of distribution courses
 - 6. Vice President Dimes

- a. There is a time that people forget but we are students and if you want anything that you should address it.
 - b. For the desks you need to work with those committees and SAS so it is based on working together and a way to reach more students.
- xxvii. Communications
 - 1. Replaced by Public Relations not many changes were needed
 - a. Senator Ortiz how would the committee help promote or not help them.
 - i. You can not ask a body of SGA to do work for you to campaign
 - 2. Working with the Chronicle but it was changed to work any news source on campus
 - a. Senator Fletcher
 - i. How would it work with polling I don't believe in over polling but just working with the other committees I don't want to poll for the sake of polling.
- xxviii. Programming Committee
 - 1. All of programming moved to this committee. How would it work with other committees and how would it work with all the programming in the semester
 - 2. Vice President Dimes
 - a. The way the wording is, is based on seeing the minutes so we approve it is because your minutes are made public and wanted to make sure that it was done correctly.
 - 3. Senator Fletcher
 - a. Could the minutes just be passed out instead of approving them
 - 4. Senator Ortiz
 - a. The minutes should be sent out to be approved before hand to be looked at and if it isn't looked at you don't have a say in it. I hate to say your wording is wrong because you don't have access to a computer.
 - 5. Senator Battipaglia
 - a. I know you talked about wording and what has to be passed?
 - i. I left it open for other years in the future it doesn't say how it says that it needs to be passed. The chronicle reads the minutes and publishes it, that's why we approve it.
- xxix. Robert's Rules were adapted based on each senate and it depends on the Senate year, it is based on the person who is chairing the meeting. Also it says that the chair still has to use Robert's Rule it isn't going away.
- xxx. Presidential and VP candidates now need to maintain a 3.0 GPA, only because the position requires a lot of work externally, have to make choices between

certain academic things or SGA, and sometimes SGA needs to take precedent. We do not want our President and VP to have their academics drop down too low. The precedent requirements are also set by the scholarship requirements as well, so having a 3.0 sets a comfortable requirement.

1. Comptroller Bathija: We should make it a requirement for all of E-board.
 - a. That could be a friendly amendment.
- xxxii. The Election Bash, the concession speech could say anything so that is why I took it out because we never had it also because who knows what they say
- xxxiii. We added the part of the chair of Comptroller needs to be a senator because of the amount of money you work with. Also that way you get the proper trainings
- xxxiii. Comptroller Bathija
 1. How many advisors have you spoken to because it affects them?
 - a. I talked to all OSLE advisors, I did not talk to IEI advisors they did not take a stance because they work with clubs but those were not changing. SGA Advisor said she wants to see SGA more in Advocacy but we don't need to have a side.
- xxxiv. Advocacy isn't going anywhere so there are always going to be a need for them. If you have a senator that doesn't make an effect then it will pull down that committee from getting work done
- b. Chair Alameda moves for a 20 minute moderated caucus on S.A.2019.83.013
 - i. Motion Seconded, Passes
 1. Senator Fletcher
 - a. Don't feel that you can't vote on it based on one issue, and if there can be resolutions to make it pass
 2. Comptroller Bathija
 - a. I like it because it would be better except the meeting times which can be longer. We are students still and if cabinet is divided it can be messy.
 3. Chair Alameda
 - a. I agree that it can be longer but I don't see it being longer due to the volume of the Committee. I see it as being a direct cause to the senate. I don't see it being not effective.
 4. Chair Osner
 - a. The meeting shouldn't be long because you are just checking in with those other groups.
 5. Senator McDonough
 - a. Robert's Rules should be removed, but have a 1/3 of senate move to go into Robert's Rules, and I would also move the Ethics and Conduct Chair to under Club Resources Committee, for the Appropriations Committee, I would remove the ability to overturn the policy series for the appropriations committee due to the fear that it might become more restrictive, i think if it overturned for one club and not the other

6. Senator Rose
 - a. I think we need to be cautious for the people living off campus and the committees might be harder to work with. There are some very into the external committees rather than the internal
7. Senator Battipaglia
 - a. I have a suggestion to move the advocacy committees from after Senate to 6:00-6:30PM (before Senate)
8. Senator Monono
 - a. I would like to take a minute to appreciate the time it took everyone to make this and the time it takes other senators compared to the classes and how it affects the advocacy part. Also when you ran you had to choose what committee you sit on and you should see the time it takes because you signed up for it.
9. Senator Stark
 - a. I just wanted to touch on the internal v. external matters, I think we're very focused on internal factors, money is not my forte but I do sit here and pay attention, because it is my job. A lot of the work done for these committees is meeting outside of these structured times, and done over emails as well. These can also be places to vent to each other.
10. Senator Khandelwal
 - a. A previous speaker mentioned removing the ability of the Appropriations Committee's ability to overturn the policy series. I would like to speak in support of that because of how it might be needed based on the club and what they get and they can spend it the way they want assuming showing proper documentation.
11. Senator Fletcher
 - a. I don't see how the meeting can be seen different compared to a senate meeting and a different meeting on Thursday when Senate usually is. Especially when you sit on both committees it wouldn't be as seen as much work because there would be more senators at each meeting so the work would decrease per person. I make the most of all the other committees because I haven't sat on the one I want for all these years and I still enjoy sitting on the ones I have been assigned so far.
12. Senator Ortiz-Jimenez
 - a. Advocacy committee should be before senate, so that they can come back and discuss in the wider senate so it remains fresh in their mind.
13. Comptroller Bathija
 - a. There is a lot of advocacy within Appropriations because we don't think of what clubs need, rather we look at it differently. I

think having the part of E-Board meeting of being on many different clubs is hard

14. Chair Alameda

- a. I think that people have mentioned that you can not do an initiative if you are not sitting on a certain committee which is not true. There are more ways we can advocate for other students more than just SGA. Now there is a way that you can show where you need to get your help. I think it would help having smaller advocacy meeting before or after senate. I think people will still show the interest towards the committee.

15. Senator McDonough

- a. If the appropriations votes to overturns a policy in their meeting, the Senate must also hold a vote to overturn the policy for the money to be allocated. Most members of SGA do not do initiatives nor strive to, so the argument that the new structure would limit initiative work is dubious .

16. Chair Alameda

- a. Moves to extend caucus by 15 minutes

17. Senator DeBiso

- a. If you are not assigned a committee and that you should be able to explain the reasoning.

18. Senator Fletcher

- a. If we have an advocacy meeting I would rather see that then see us pass minutes by itself I would be fine staying here later to get things done differently.

19. Senator Cady

- a. A more common issue people seem to have is timing and it is more speculative and we do not know how long a meeting is going to last. If it is a committee meeting and senate minute it would be as long as that because other meeting would be cut shorter

20. Senator Stark

- a. I think this constitution will help and it would set a precedent and it will help based on helping with public service and with these committees we are helping students lives and making it better for them. I want to say hear at hofstra we make involvement a high standard, and that SGA brings a lot to the table and how we advocate for the students is big for us in the future.

21. Senator Battipaglia

- a. I think having a more concise senate would make it easier to pass because of the timeline and we are here for a reason because we need to listen to other people because they don't have a

committee and now everyone would be updated on smaller projects because it would already be on the report and not told just the report. If this passes you can always bring back legislations to future senate even the next semester, a lot of people worked really hard for this

22. Senator Rose

- a. I think the Ethics and Conduct Chair should go back to the Club resources committee because the secretary isn't elected.

23. Senator Kandelwal

 - i. I think the wording but i do not want to get rid of the position but just reword it

30. Senator Hotaling

- a. I know we review the minutes and I might not remember what I said and it may take longer to approve, think there should be a set deadline. It is posted by Denise and needs to be approved as well.

31. Senator McDonough

- a. The minutes are cumbersome but necessary. When Senate reviews the minutes, they are accepting previous decisions and those decisions can now go into effect.
