V. New Business

A. Body Building Club

- i. **Body Building Club:** Hello everyone, my name is Tyler. The purpose of the club is to find a community of people dedicated to improving their physique and competing. We will have sporadic meetings in the Fall leading up to an actual show. We are currently looking to have a coach to help us prep and participate in the show. Currently we are working with the University of Tampa and using their club as a baseline for ours. We are trying to compete in a show with them soon. That is the basic overview of our club.
- ii. Questioning
 1. *Chair Blain:* How is SGA recognition helpful to you?
 - a. *Bodybuilding:* It would help in funding purposes for transportation and competition fees.
 2. *Senator Stengel:* How does your club differ from the Powerlifting Club?
 - a. *Bodybuilding:* They are two different things. Almost akin to baseball and softball. Bodybuilding is a focus on showing the work that you have put into your body over the year.
 3. *Chair Babadzhanov:* What is your viewpoint on collaborating with the Powerlifting club and working as a unit?
 - a. *Bodybuilding:* We would not be able to have the same kinds of practices because we, as clubs, have two different goals since they are different disciplines.
 4. *Senator Marshall:* How many members do you have on Collegiate Link?
 - a. *Bodybuilding:* We currently only have four members on Collegiate Link. However, our account was just set up with OSLA this week and we are working with them to get everyone added.
 5. *Comptroller Guarino:* How would you benefit from SGA recognition if you had no financial backing?
 - a. *Bodybuilding:* It would help us also get our name out there.

6. *Senator Ramdhani*: Two part question- will the majority of your meeting occur in the Fitness Center and what would you do if a member of your club gets injured?
 - a. *Bodybuilding*: It depends on who our coach is. If they are someone who works here we would work in the gym. However, if they were from a different place we would travel to wherever they are. We do not see that anyone could get hurt from bodybuilding because of the way that our program is set up. It would be highly unlikely if you follow the correct form.
7. *Chair Engelson*: How would you actually define Bodybuilding?
 - a. *Bodybuilding*: It is sort of trying to find that perfect physique, that Grecian sort of physique that everyone aspires to. We will focus all of our energy on a show that we want to compete in.
8. *Senator Braitman*: If you do not get passed by SGA, would your club pay out of pocket?
 - a. *Bodybuilding*: Yes, we currently do collect dues.
9. *Senator Ho*: So you mentioned the lead up to the Bodybuilding competition, do you think that you will have any other events on campus?
 - a. *Bodybuilding*: Right now, no. We would put all of our energy into the upcoming show.
10. *Chair Engelson*: Would you also be open to “Joe Schmoes” off the street who wants to participate in the club?
 - a. *Bodybuilding*: Yes, they would be welcomed and they would be told that we are not an admiring sort of club, rather a performance kind of club.
11. *Chair Engelson*: Point of clarification, as of today they have 5 people on Collegiate Link.
12. *Chair Harris*: Is Mind and Body still a club?
 - a. *Chair Engelson*: No, they are no longer a club.

iii. Debate

1. *Senator Beer (speaker for)*: They are not like powerlifting. Bodybuilding is a sport. This is someone who came in and had a vision. We support clubs. Will they survive with our help? Probably not. Will they survive without our help? Most definitely not. If he has the idea to do something, we should help him and get behind him because that is what SGA does for clubs.
2. *Senator Mishkin (speaker against)*: I am all for looking good to an extent. In their Constitution the competition they were talking about at the end of the year is a bikini club. We just passed a club about being body positive and I feel that this competition that we will be endorsing if we pass them is not the sort of thing that we want to promote. I think it will be sending the wrong message as SGA.

3. *Senator Shah (speaker for)*: I don't usually do this but I am so moved by this club. Bodybuilding and Powerlifting are two different things. Providing resources are 1/3rd of what we do as SGA, so we should provide resources to this club. Sometimes I want to work out and I don't have partner, so this club will help that. This club will help anyone who has that issue and I think that we should support them.
 4. *Senator Marshall (speaker against)*: I think that this is a club that will reach its potential at some point, however I do not think that time is now. This club could not survive without us, however they don't have a coach or practice place right now. So it sounds like they don't have enough preparation to survive right now.
 5. Chair Gallagher motions for a moderated caucus for four minute with two speakers, two minute speaking time each
 - a. Seconded
 - b. Motion passes 30-0-0
 6. *Chair Gallagher*: I think if we pass a club we should think of the things that we provide. They don't want anything other than the funding that we provide. I would like for them to take the time to prepare and come here when they have a proper plan of action and chance of succeeding.
 7. *Senator Pollock*: Clearly SGA has accepted so many clubs that we cannot provide for all of the clubs that we now currently have. The only event that they have mentioned is the competition. However, we are not saying that they cannot be a club, they can. We just don't believe it is wise to be an SGA-recognized club at this point. He even said that he was having trouble finding people to join.
 8. Chair Harris motions for a moderated caucus for two minutes, two speakers, one minute speaking time each
 - a. Seconded
 - b. Motion does not pass 13-17-0
- iv. The Bodybuilding Club does not pass as a SGA recognized club by 4-26-0

B. Motorsports Engineering Club

- i. *Motorsports Engineering Club*: Let me just say that the reason I am starting this club is because I want this to be the face of the Engineering department. I want people to see this club on the Hofstra website and vehicles that we build in order to have them want to come to our school. There is so much that goes on behind the scenes in order to have a racecar go. We are going to start competing at Nassau Coliseum, because they set up a track there for racing cars on the weekend. As far as funding goes, we want to start reaching out to businesses in the community in order to see our vision become a reality. As far as funding goes we will do most of it. However, SGA funding for parts of the machines are not out of the question. Building a racecar is something that I have always wanted to do, and I believe this is the perfect time to do it.
- ii. Questioning

1. *Chair Engelson*: Can you explain what you will be doing in the Winter and the Spring?
 - a. *Motorsports*: Right now, we want to start building as quickly as possible.
2. *Senator Andrews*: Have you gotten any interest from the Marketing majors or other people from outside of the Engineering department?
 - a. *Motorsports*: There are many car guys at Hofstra. This won't just be engineering students. There are so many other people who share the passion that we do.
3. *Senator Marshall*: Does your club have a place to meet?
 - a. *Motorsports*: Adams 017 is the place where we meet. They are building a garage right next to Adams for Engineering students to build projects so that is where we would do most of the work for the racecar.
4. *Senator Ramdhani*: What is the timeline for hearing about when you will be sponsored by outside companies?
 - a. *Motorsports*: Right now there is not a timeline for that. We are just focusing on building a budget so that we know what we need and can be funded in the spring.
5. *Senator Shah*: What are you going to do in a year or two when the car is actually built?
 - a. *Motorsports*: As a race team, the work is never actually done. Right now, if we build a car next semester we will be tweaking it for a while after that because we won't build it perfectly the first time.
6. *Senator Beer*: Once built, will you be open to having other clubs use it to gain excitement at other events and maybe provide more spirit for people?
 - a. *Motorsports*: If this club becomes a success, hopefully this car will become a mascot of Hofstra.
7. *Chair Engelson*: On Collegiate Link you have 11 people, yes?
 - a. *Motorsports*: Good question, yes, but we have 4 pending, so about 15 members total.
8. *Senator Stengel*: Is everyone going to be able to drive the car, or is it only a select few?
 - a. *Motorsports*: A select few. There are many regulations that are set up by the Coliseum and also there is a lot of red tape to go through in order to have them drive the car.
9. *Senator Marshall*: Would anyone be able to join?

- a. *Motorsports*: It's sort of structured like a team. There will be a captain and co-captain. Everyone is absolutely welcomed and work will be delegated to people who join along those lines.
- 10. Chair Harris motions to extend questioning time by 40 seconds
 - a. Seconded
 - b. Motion Passes 27-3-0
- 11. *Senator Gitlin*: Did you speak to Legal yet?
 - a. *Motorsport*: No, not as of yet.
 - b. *Chair Engelson*: A club is recognized through the Registration Committee cannot be passed without going through Legal first, so they have been contacted.
- 12. *Chair Gallagher*: Where will you put the car when the garage is finished?
 - a. *Motorsports*: The garage spoken of before is for student projects in and outside of classes to build engineering projects.

iii. Debate

- 1. *Chair Blain (speaker for)*: When I was listening to this club, I thought of one word: revolutionary. Not just for Hofstra students, but also for SGA. I can see SGA having a sticker on there. I think it will do great for spirit and excitement on campus. This is something that we should get behind.
- 2. *Chair Gallagher (speaker against)*: A word comes to mind for me and that word is Expensive. It would be great if this club could go to different places to get funding first. \$15,000 is a lot to fund for a racing car.
- 3. *Chair Babadzhanov (speaker for)*: A third word I would throw in there is Unity. This has the great potential to bring students together on this campus.
 - a. *Yielded to Senator Cinquemani*: I believe this is a perfect club that we would look to pass. They have a plan for their funding and they already realize that the club cannot be fully funded by SGA.
- 4. *Senator Ho*: I actually really like this club, however I feel that right now in terms of funding, they should lock down one sponsor before they are SGA recognized. Because right now, it is infeasible for us to fund them to the extent that they are seeking. And if we cannot fund them, then the purpose of their club is essentially null and void because they cannot get the parts they need to build their car.
- 5. Senator Gitlin motions for a moderated caucus for two minutes, two speakers, one minute speaking time each
 - a. Seconded
 - b. Motion passes 30-0-0

6. *Senator Gitlin*: I felt that when they were up there, he said that the best way for this club to do everything they wanted to do is to have a good takeoff. We have the ignition trigger; we have the ability to say, “Hey, Go!”
7. *Chair Barry*: This club is great for us. They seem really organized. Sponsors are going to love this idea. They have potential and already have 15 members, which is great for a club that just was created a week ago.
8. Chair Manuel motions for a moderated caucus, for four minutes, two speakers, two minute speaking time each
 - a. Seconded
 - b. Motion does not pass 9-20-0
9. Chair Manuel motions for a moderated caucus, for two minutes, two speakers, one minute speaking time each
 - a. Seconded
 - b. Objection
 - c. Debate
 - i. *Chair Manuel (speaker for)*: Not everything has been covered. I have things that I would like to mention which have not already been brought up. However, in the time that we used to debate about going into debate I could have already said those things and we could have moved on. So now we are wasting even more time because someone wanted to object to having a little more time to talk about it.
 1. *Yielded to Senator Pollock*: We said no to a moderated caucus with 4 minutes and now we are doing one with two minutes, I think we should just let this pass in order to hear more points of view.
 - a. *Yielded to Chair Engelson*: No one should think this is a waste of time; this is what we signed up to do.
 - ii. *Senator Andrews (speaker against)*: We had good debate and now people are just trying to move people to their side, which is not what debate was intended for.
 - iii. *Senator Beer (speaker for)*: I have yet to make my mind up and the 150 students that I represent dictate that I should spend time to think about this.
 - d. Motion passes
10. *Chair Manuel*: I don’t know if some of you know, but there was a club here a couple years ago that tried to do the same thing and where are they now? They tried this before and I believe to build this car with 15 members and no funding

will be extremely hard. We have clubs that are here already failing. We should not add one more to that list.

11. *Senator Mishkin*: This club has a vision and a plan. No one is saying that they are going to have a car built in a year. One thing that everyone neglected to mention is that this will be great for retention and recruitment. This would be great for prospective students to see that they want to join.

a. Yielded to Senator Pollock: They can succeed without us.

iv. Senator Marshall motions for a Roll Call vote

1. Seconded
2. Motion passes by 13-17-0

v. Roll Call vote:

1. Comptroller Guarino: Yea
2. Chair Blain: Yea
3. Chair Gallagher: Nay
4. Chair Engelson: Yea
5. Chair Shepherd: Yea
6. Chair Barry: Nay
7. Chair Babadzhanov: Yea
8. Chair Harris: Yea
9. Chair Manuel: Nay
10. Senator Ahmedin: Nay
11. Senator Andrews: Yea
12. Senator Beer: Abstain
13. Senator Braitman: Yea
14. Senator Caputo: Yea
15. Senator Casey: Yea
16. Senator Cinquemani: Yea
17. Senator Dent: Nay
18. Senator Diaz: Abstain
19. Senator Esteban: Yea
20. Senator Gitlin: Yea

21. Senator Ho: Nay
22. Senator Marshall: Abstain
23. Senator Mishkin: Yea
24. Senator Pollock: Abstain
25. Senator Price: Yea
26. Senator Ramdhani: Yea
27. Senator Senderowicz: Yea
28. Senator Shafranski: Yea
29. Senator Shah: Yea
30. Senator Stengel: Nay
31. Senator Tacconnelli: Yea

vi. Motorsports Engineering Club is passed as a SGA recognized club by 21-6-4

C. Committee Report Absence Legislation

- i. *Senator Casey*: Vice President Olson and I are bringing legislation, which is found on page 12, which is adding a stipulation to the absence policy. When a Cabinet member does not hand in their minutes on time to the Vice President, they receive a half absence.
- ii. Questioning
 1. *Chair Blain*: Can we change this to a quarter absence?
 2. *Senator Beer*: What is the maximum amount of absences that you can accrue?
 - a. *Senator Casey*: Two
 3. Senator Gitlin motions for a moderated caucus, four minutes, four speakers, one minute speaking time each
 - a. Seconded
 - b. Objection
 - c. Chair Blaine motions to skip debate and go straight into a vote
 - i. Seconded
 - ii. Motion passes 30-0-0
 - d. Motion passes 27-2-1
- iii. Moderated Caucus

1. *Senator Gitlin*: I think it is fine to have legislation for this. I think I am against this in the way that it is getting to us. We have the Constitutional Convention to talk about this. I think our Constitution has been changed too much.
2. *Chair Blain*: As a Chair member I understand that is important for me to have my minutes in on time. However, I disagree with this legislation. I think it is far too easy for Cabinet members to absence out. You should be doing this anyway. You should not have to have a legislation that speaks about this. I think that this legislation targets people.
3. *Senator Caputo*: This legislation is needed. It holds the leaders of this organization to a higher standard.
4. *Chair Shepherd*: All Cabinets before us have handed in their minutes on time, so I think our Cabinet needs to be more responsible.
5. *Chair Manuel*: I would like to point out the fact that in our policy series that the Vice President gets an absence if she does not send the minutes out on time. The only reason why that would happen is because the Chairs did not send their minutes in on time.
6. Senator Beer motions for a moderated caucus for two minutes, two speakers, one minute speaking time each
 - a. Seconded
 - b. Motion passes 31-0-0

iv. Moderated Caucus II

1. *Senator Beer*: Our Constitution is too complicated and the original Constitution of the United States has only been changed 27 times and two of them cancel each other out.
2. *Senator Ho*: I am against this, not because I do not think we need it, but because I think it is too harsh. This is our eighth Senate meeting and if you miss four committee minutes, you absence out.
3. *Senator Andrews*: Our Chairs have a lot of responsibility and we have to be hard on them because we need them to be the best leaders on this campus.
4. *Senator Casey* motions for a Straw Poll about changing it to a quarter absence instead of a half absence.
 - a. Seconded
 - b. Motion passes: 31-0-0
5. Strawpoll Vote-13-11-4
6. Chair Gallagher motions for an unmoderated caucus with the room split into two sides with one side for $\frac{1}{4}$ absence and one side for $\frac{1}{2}$ absence.
 - a. Chair Blain objects

- i. The two sides would just polarize us and would not incubate the free exchange of ideas.
 - b. Motion rescinded
- 7. Chair Gallagher motions for an unmoderated caucus with the room split into three sides, one side for ¼ absences, one side for ½ absences and one side to talk about other possible solutions.
 - a. Seconded
 - b. Objection
 - c. Debate
 - i. *Chair Gallagher (speaker for)*: I loathe unmoderated caucuses. However I see this as a plausible solution to get us to walk around and talk about this issue in order to have us come back to the table with made up minds.
 - ii. *Senator Beer (speaker against)*: I don't think two minutes isn't enough and I believe that this is categorizing people into three groups and that will polarize us. I do not believe this is an issue that needs to be solved this way.
 - iii. *Chair Manuel (speaker for)*: I do think it is a good idea; we will get an idea as to where we stand with this legislation.
 - 1. *Yielded to Senator Ramdhani*: We should take the right lengths to make sure that everyone can check out both opposing sides and to make sure that everyone understands where they stand. I think it is a good idea.
 - iv. *Chair Blain (speaker against)*: I don't think that it is a good idea segregating the room into different sections. It doesn't create an incubator for ideas. Instead splitting the room will make it an incubator for viewpoints that already stand.
 - d. Motion passes 17-13-0
- 8. *Senator Beer*: If we choose to amend it, do the two proposal sponsors have to see it amended?
 - a. *Vice President Olson*: Content changes cannot be amended as friendly, but grammatical changes can be.
- 9. Senator Andrews motion to vote on the legislation as brought
 - a. Seconded
 - b. Chair Blain objects
 - c. Debate

- i. *Senator Andrews (speaker for)*: The reason why I want to go to a motion on the legislation as is, is because I think it should be seen as originally intended by the bringers of the legislation first and if people don't like it then we can always go back and amend it.
- ii. *Senator Gitlin (speaker against)*: The unmoderated caucus brought up some new ideas that were not on the table now. I don't like it because with 1/4th absences because it is it is eight times, and then with 1/2th it is five times.
- iii. *Chair Manuel (speaker for)*: We can go right back and amend this with a simple majority. Most senators were sitting down anyway. If we want to make amendments, then we can make amendments. Right now we are talking in circles and just moving around the process instead of doing the process.
- iv. *Chair Blain (speaker against)*: I object to the legislation itself and how this is being steamrolled through. We should discuss amendments before voting on passing this. I would like to talk about this more.

d. Motion passes 26-3-0

v. Roll Call Vote

1. Comptroller Guarino: Yea
2. Chair Blain: Nay
3. Chair Gallagher: Yea
4. Chair Engelson: Yea
5. Chair Shepherd: Nay
6. Chair Barry: Yea
7. Chair Babadzhanov:
8. Chair Harris: Nay
9. Chair Manuel: Yea
10. Senator Ahmedin: Yea
11. Senator Andrews: Yea
12. Senator Beer: Nay
13. Senator Braitman: Nay
14. Senator Caputo: Yea
15. Senator Casey: Abstain

16. Senator Cinquemani: Yea
17. Senator Dent:
18. Senator Diaz:
19. Senator Esteban: Yea
20. Senator Gitlin: Abstain
21. Senator Ho: Nay
22. Senator Marshall: Nay
23. Senator Mishkin: Nay
24. Senator Pollock: Nay
25. Senator Price: Nay
26. Senator Ramdhani: Nay
27. Senator Senderowicz:
28. Senator Shafranski: Yea
29. Senator Shah: Nay
30. Senator Stengel: Nay
31. Senator Tacconelli: Nay

vi. The Committee Report Absence Legislation does not pass by 13-15-2

D. Senator Price motions to reopen the legislation

- i. Seconded
- ii. Objection
- iii. Debate

1. *Senator Marshall (speaker for)*: Senator Price had amendments that she would like to make and we should at least give them a listen.
 - a. *Yielded to Senator Gitlin*: I'm disappointed that someone had to make an amendment to something. Someone had an idea and everyone voted not to even listen to that senator.
2. *Senator Beer (speaker against)*: I am a SGA Senator every day. If you want a consensus you have the number people around the table. Get a consensus of people to do it and don't just try to do all the work that you have on one night.
3. *Senator Price (speaker for)*: Last year my legislation was shot down. Absences are a touchy thing. I have tried to talk about legislation with everyone and no one would meet with me. So I think now is the time to talk about this legislation.

4. *Yielded to Senator Ho*: I think this legislation is great, however I believe that our minds are made up on where we stand right now. I believe that we all are just mentally tired with this legislation right now.
5. Senator Marshall motions for a moderated caucus for four minutes, four speakers, one minute speaking time each
 - a. Seconded
 - b. Motion passes 16-11-0
6. *Senator Marshall*: Three other speakers of the moderated caucus are Chairs. Senators have a lot to say and he would rather have the amendment be brought to the senators here so they can have a voice.
 - a. *Yielded to Senator Mishkin*: We are already tired now; we will be even more tired next week after budget appeals.
7. *Chair Manuel*: People will not meet when they are outside of Senate. Minutes are sent out far enough in advance for people to read the agenda and decide on legislation.
 - a. *Yielded to Senator Andrews*: We need more time to think about this because maybe we don't need to pass it or maybe it doesn't need to be amended.
8. *Chair Gallagher*: Cabinet voted on this legislation without the amendment. It may be that changing it completely in a way that they have not discussed, could change the whole meaning of the legislation.
9. *Chair Engelson*: I am in support of legislation that holds the chair people accountable. It will help set a precedent and have our voice heard for this legislation.
 - a. *Yielded to Senator Caputo*: We have a constitutional Convention coming up so this might not even stay in the constitution.
