LEARNING CONNECTION

UNIVERSITY COLLEGE FOR CONTINUING EDUCATION

WELCOME TO OUR INAUGURAL ISSUE …

University College for Continuing Education (UCCE) at Hofstra University makes available to the Long Island and surrounding communities a broad range of workshops, seminars, conferences, lectures, events, and courses in the arts, business, technology, humanities, sciences, legal studies, test review, sports and recreation. Programs are oriented to diverse audiences: adult and youth, professional and novices, indeed all those interested in learning more about their world, their society and themselves.

In our continuing efforts to keep you informed about our exciting and new offerings, UCCE has initiated this Learning Connection newsletter. As you probably know, we publish a comprehensive UCCE Bulletin twice each year. However, so many new courses, programs and conferences are developed in between releases of these Bulletin issues that we wanted this new newsletter to be our vehicle to keep you up-to-date. Of course, our exciting UCCE Web site (www.hofstra.edu/ucce) always provides the most current information on our entire educational offering.

You can also easily register online for UCCE courses on our Web site!

We hope you’ll find this inaugural issue – as well as all future issues – of interest and value to you. We encourage you to keep it handy or perhaps even post it where others can see it. We are very interested in your opinions, so we look forward to receiving your comments and suggestions for future issues and future courses. Our goal is to be informative and helpful as you investigate and pursue your lifelong learning pursuits. You can contact us by e-mail at ucce@hofstra.edu or by calling (516) 463-5993.

A choice that can change your life.
Grant Writing

With decreasing government support, increased demand for very limited funding, and growing competition, the ability to simply write a grant is no longer enough. These courses explore all aspects of the grant process, including the essential critical elements surrounding the entire world of grants and how to negotiate the maze of requirements and regulations to be successful in finding your funding from both government and private sources.
